Self-proprietor-Nurse Educator in Discharge Planning	IM notice, DND notice	N/A	Request that no changes be made to the notice documents since they are working well in the industry. Request that the 7/10 approval date on the notices not be changed to 7/13 with this PRA extension as changing only the date on the notices would cause undue cost and burden.	Thank you for your comments including your feedback that these notices are working effectively. Since no changes have been made to these notices and we recognize that changing the date on the notices may create a temporary increase in cost and burden for hospitals, we intend to retain the 7/10 approval date on each notice unless we are directed to do otherwise during the clearance process.
