HBIPS Structural Measures Data Collection Tool**

Provider Name \_\_\_\_\_ CCN \_\_\_\_\_  
Address \_\_\_\_\_ Telephone \_\_\_\_\_  
Submitter Name \_\_\_\_\_ Date Submitted \_\_\_\_\_  
Calendar year \_\_\_\_\_

A structural measure reflects the environment in which providers care for patients. Structural measures assess characteristics linked to the capacity of the provider to deliver quality healthcare. CMS believes requesting structural measures information will encourage facilities to increase the use of tools, ultimately improving the quality of care provided to Medicare beneficiaries.

For Inpatient Psychiatric Facility Quality Reporting participating providers, responses for all age groups for the measures' questions are required in order to fulfill the Annual Payment Update (APU) requirement. If you have no data for any of the fields, please enter zero. Do not leave any fields blank.

Please follow the Joint Commission Specifications Manual for guidance on measures data collection, exclusions and population sampling.
