Appendix I Employer Questionnaire Updated 10.3.12

The U.S. Department of Health and Human Services and the U.S. Department of Labor have contracted with MDRC to evaluate innovative subsidized and transitional employment models targeting TANF recipients, noncustodial parents, former prisoners, and other low-income parents. The goal is to better understand what kinds of employment programs are most effective at helping people with these kinds of disadvantages gain and hold regular employment.

As part of our research, we are speaking with employers who work with STED/ETJD participants to learn about their experiences with the program and working with subsidized workers through the program. This document is a short questionnaire. It should take about 10 minutes to complete. All of your responses on this questionnaire will be kept private; the research staff has been trained in protecting private information and your name will not appear in any written reports we produce. Your responses to these questions are also completely voluntary; you are not required to answer any questions you do not wish to answer. All of the study results will be reported for groups of individuals; no results will be analyzed or reported for individuals.

According to the Paperwork Reduction Act (PRA), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 0970-XXXX and it expires XX/XX/XXXX.

Thanks in advance for your time helping us with this valuable research. If you have any questions or would like any more information about the project, please contact Dan Bloom, the project director, at 212-340-8611 or at dan.bloom@mdrc.org.
