

Caseworker Discussions for NCFAS G+R Completion

The KIPP Data Liaison will complete the NCFAS G+R following the family assessment and review of the case record, and then meet with the caseworker to review any issues or remaining items.

The North Carolina Family Assessment Scale, General and Reunification (NCFAS G+R) is used to assess and rate family functioning (problems and strengths) in the domains of Environment, Parental Capabilities, Family Interactions, Family Safety, Child Well-being, Caregiver/Child Ambivalence, Social and Community Life, Self-Sufficiency, and Family Health, and Readiness for Reunification.
