Meeting Summary

Notice of this meeting is given under section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). ASAC operates under the authority of 6 U. S. C. 451 and provides advice and recommendations for improving aviation security measures to the Administrator of TSA.

This meeting is open to the public, but attendance is limited to 75 people. The meeting will be held at the TSA Systems Integration Facility, which is a secure facility, at 3701 West Post Office Road, DCA Airport, Arlington, VA 22202. Members of the public and all non-ASAC members and staff must register in advance with their full name to attend. Attendees are required to present a government-issued photo ID to verify identity.

In addition, members of the public must make advance arrangements, as stated below, to present oral or written statements specifically addressing issues pertaining to the subcommittee reports listed in the "Meeting Agenda" section below. The public comment period will be held during the meeting from approximately 3:00 p.m. to 3:30 p.m., depending on the meeting progress. Speakers are requested to limit their comments to three minutes. Contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section no later than July 15, 2013, to register to attend the meeting and/or to present oral or written statements on the reports being considered by the committee at the meeting. Anyone in need of assistance or a reasonable accommodation for the meeting should contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Meeting Agenda

The agenda for the meeting is as follows (reports are available in the Supporting Documents section at <http://www.regulations.gov/#!docketDetail;D=TSA-2011-0008>):

- General Aviation Subcommittee Recommendations Report;
- Passenger Advocacy Subcommittee Recommendations Report;
- Air Cargo Subcommittee Recommendations Report;
- Status reports on the actions of the—
 - International Subcommittee; and
 - Risk-Based Security Subcommittee.
- Public questions/comments on the Reports listed above; and

- Committee deliberation and vote on Reports.

Dated: July 3, 2013.

John P. Sammon,
Assistant Administrator, Security Policy and Industry Engagement.

Information Collection Activities; Submitted for Office of Management and Budget (OMB) Review; Comment Request: Oil and Gas Production Measurement, Surface Commingling, and Security

ACTION: 30-day Notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), Bureau of Safety and Environmental Enforcement (BSEE) is notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in the regulations under Subpart L, *Oil and Gas Production Measurement, Surface Commingling, and Security*. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

DATE: You must submit comments by August 9, 2013.

ADDRESSES: Submit comments by either fax (202) 395-5806 or email (OIRA_Submission@omb.eop.gov) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1014-0002). Please provide a copy of your comments to BSEE by any of the means below.

- *Electronically:* go to <http://www.regulations.gov>. In the entry titled, Enter Keyword or ID, enter BSEE-2012-0018 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email Nicole.Mason@bsee.gov, fax (703) 787-1546, or mail or hand-carry comments to: Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; Attention: Nicole Mason; 381 Elden Street, HE3313; Herndon, Virginia

20170-4817. Please reference 1014-0002 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Nicole Mason, Regulations and Standards Branch, (703) 787-1605, to request additional information about this ICR. To see a copy of the entire ICR submitted to OMB, go to <http://www.reginfo.gov> (select Information Collection Review, Currently Under Review).

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security.

OMB Control Number: 1014-0002.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations necessary for the administration of the leasing provisions of the Act related to the mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under

FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's implementing policy, BSEE is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large. Applications for surface commingling and measurement are subject to cost recovery and BSEE regulations specify service fees for these requests.

Regulations at 30 CFR part 250, Subpart L, implement these statutory requirements. We use the information to ensure that the volumes of hydrocarbons produced are measured

accurately, and royalties are paid on the proper volumes. Specifically, we need the information to:

- Determine if measurement equipment is properly installed, provides accurate measurement of production on which royalty is due, and is operating properly;
- Obtain rates of production measured at royalty meters, which can be examined during field inspections;
- Ascertain if all removals of oil and condensate from the lease are reported;
- Ensure that the sales location is secure and production cannot be removed without the volumes being recorded;
- Review proving reports to verify that data on run tickets are calculated and reported accurately;
- Review gas volume statements and compare them with the Oil and Gas Operations Reports to verify accuracy.

We will protect information from respondents considered proprietary under the Freedom of Information Act

(5 U.S.C. 552) and its implementing regulations (43 CFR part 2), and under regulations at 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: Varies by section, but primarily monthly, or on occasion.

Description of Respondents: Potential respondents comprise Federal oil, gas and sulphur lessees and/or operators.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of 30,856 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

			\$344,279 Non-Hour Cost Burdens	

* Respondents gather this information as part of their normal business practices. The BSEE only requires copies of readily available documents. There is no burden for testing, meter reading, etc.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified two non-hour cost burdens, both of which are cost recovery fees. Note that the actual fee amounts are specified in 30 CFR 250.125, which provide a consolidated table of all the fees required under the 30 CFR 250 regulations. The non-hour cost burden total in this collection of information is an estimated \$344,279. The cost burdens are for: (1) filing fees associated with submitting requests for approval of simple applications (applications to temporarily reroute production (for a duration not to exceed 6 months); production tests prior to pipeline construction; departures related to meter proving, well testing, or sampling frequency (\$1,271 per application)) or, (2) submitting a request for approval of a complex application (creation of new facility measurement points (FMPs); association of leases or units with existing FMPs; inclusion of production from additional structures; meter updates which add buyback gas meters or pigging meters; other applications which request deviations from the approved allocation procedures (\$3,760 per application)).

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .” Agencies must specifically solicit comments to: (a) evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on November 15, 2012, we published a **Federal Register** notice (77 FR 68144) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB control number for the information collection requirements imposed by the 30 CFR 250 regulations. The regulation also informs the public that they may comment at any time on the collections

of information and provides the address to which they should send comments. We received one comment in response to the **Federal Register** notice, but it was not germane to the paperwork burden of this collection.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Malheur National Wildlife Refuge, Harney County, OR; Record of Decision for Final Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the record of decision (ROD) for the final environmental impact statement (EIS) for the Malheur National Wildlife Refuge (Refuge). We completed a thorough analysis of the environmental, social, and economic considerations and presented it in our Final Comprehensive Conservation Plan (CCP) and EIS, which we released to the public on December 21, 2012.

DATES: The Regional Director, Pacific Region, U.S. Fish and Wildlife Service, signed the ROD on January 24, 2013.

ADDRESSES: You may view or download a copy of the CCP/ROD at <http://www.fws.gov/pacific/planning>, or request a copy of the CCP/ROD by any of the following methods:

Email:

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we complete the CCP process for Malheur Refuge. We started this process through a **Federal Register** notice (74 FR 31046; June 29, 2009). We released the Draft CCP/EIS to the public, and requested comments on it in a notice of availability in the **Federal Register** (76 FR 55937, September 9, 2011). We also announced the availability of the final CCP/EIS in the **Federal Register** (77 FR 75644, December 21, 2012).

The Refuge was established on August 18, 1908, by President Theodore Roosevelt, as the Lake Malheur Bird Reservation; it was originally set aside to prevent plume hunters from decimating colonial nesting bird populations. The Refuge protected unclaimed lands encompassed by Malheur, Mud, and Harney Lakes “as a preserve and breeding ground for native birds.” The Refuge boundary was expanded in 1935 to include the Blitzen Valley, and again in 1941 to include the Double-O Unit. Refuge purposes include “a refuge and breeding ground for migratory birds and other wild life . . .” and “for use as an inviolate sanctuary, or for any other management purpose, for migratory birds.”

The Refuge consists of more than 187,000 acres of open water (marsh, river, and stream), wetlands, springs, riparian areas, irrigated meadows, grain fields, and shrub-steppe uplands. With its abundance of water in an otherwise arid landscape, the Refuge attracts a significant number of birds from the Pacific Flyway during spring migration. The Refuge is included in several flyway and regional bird conservation plans, and is designated an Important Bird Area by the National Audubon Society. However, populations of breeding waterfowl and waterbirds on
