

OMB No. 1625-0089  
Expiration 06/30/2013

# *National Recreational Boating Survey*

United States Coast Guard Division of Boating Safety

The United States Coast Guard is legislated to collect boating safety data under U.S. Code 46, Chapter 131. The research has been approved by the U.S. Office of Management and Budget (OMB), Approval Number 1625-0089, expiring on 6/30/13. Without this number, we could not conduct this survey. Your participation is completely voluntary. The time required to complete this information collection is less than 15 minutes, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Dr. Philippe Gwet, Mathematical Statistician, US Coast Guard CG-5422, 2100 Second St. SW, Washington, DC 20593.

## **Privacy Act Notice**

**Authority:** A National Recreational Boating Safety (RBS) program requirement as set forth in Title 46, United States Code, § 13101, is to “encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities”.

**Purpose:** As coordinator of the National RBS program, the Coast Guard provides support for safety initiatives in every jurisdiction (States and Territories) by making available timely, relevant information on boating activities that occur in each respective jurisdiction. Working in partnership with State Boating Law Administrators (BLAs), the boating information provided by the Coast Guard enables each State agency to tailor and implement safety initiatives that address the needs of boaters in each respective jurisdiction.

**Routine Uses:** Statistical data only and not personally identifiable information will be used by and disclosed to Coast Guard personnel and contractors or other agents who need the information to assist in the promotion of safe boating practices in America. Additionally, the Coast Guard may share statistical data with its boating partners from the industry and academia. Personal data will neither be used internally by the Coast Guard, nor be transmitted to any third party.

**Disclosure:** Providing this information is completely voluntary and failure to answer any question will not result in any penalty or loss of benefits.

# Frequently Asked Questions

**Q** *What is the survey's purpose?*

**A** The primary purpose of the survey is to gather information about the boats you own.

**Q** *Who is sponsoring the survey?*

**A** The survey is being sponsored by the United States Coast Guard's Office of Boating Safety. ICF Macro is a research company conducting the study on behalf of the U.S. Coast Guard.

**Q** *Why is the survey important?*

**A** This survey provides the U.S. Coast Guard with the data needed for the Boating Safety Program legislated under U.S. Code 46, Chapter 131. It helps the U.S. Coast Guard to support your state in tailoring safety initiatives that address specific needs of boaters in your area.

**Q** *How do I know my information will be kept confidential?*

**A** Nothing is ever reported in any way that can identify you. Your personal information will be kept separate from the survey data. Your answers are combined with the answers of everyone else. Results are only reported in group form.

**Q** *How did you get my information?*

**A** We received your information from a list of registered boat owners in your state. You were randomly selected from this list to represent other registered boat owners like you.

**Q** *What will the results be used for?*

**A** This survey will help monitor boating safety efforts to aid in reducing the number of boating fatalities and injuries, and property damage associated with boat use. It will help the U.S. Coast Guard and other boating organizations to assess boating needs, forecast boater participation, and develop policies and regulations that enhance the quality (e.g., safety, environmental protection) and sustainability of boating. The survey will also permit states to create more effective programs.

**Q** *How do I know this survey is legitimate?*

**A** The OMB approval number for this project is 1625-0089 expiring on June 30, 2013. We cannot conduct this survey without this federally mandated approval number. Your participation in this survey is completely voluntary, and you can choose not to participate or not answer any individual question. If you have any questions, our contact information is provided in the introduction letter for this survey.
