

NRBS Participant Survey

Privacy Act Notice

Authority: A National Recreational Boating Safety (RBS) program requirement as set forth in Title 46, United States Code, § 13101, is to “encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities”.

Purpose: As coordinator of the National RBS program, the Coast Guard provides support for safety initiatives in every jurisdiction (States and Territories) by making available timely, relevant information on boating activities that occur in each respective jurisdiction. Working in partnership with State Boating Law Administrators (BLAs), the boating information provided by the Coast Guard enables each State agency to tailor and implement safety initiatives that address the needs of boaters in each respective jurisdiction.

Routine Uses: Statistical data only and not personally identifiable information will be used by and disclosed to Coast Guard personnel and contractors or other agents who need the information to assist in the promotion of safe boating practices in America. Additionally, the Coast Guard may share statistical data with its boating partners from the industry and academia. Personal data will neither be used internally by the Coast Guard, nor be transmitted to any third party.

Disclosure: Providing this information is completely voluntary and failure to answer any question will not result in any penalty or loss of benefits.

Paperwork Reduction Act Statement:

The United States Coast Guard is legislated to collect boating safety data under U.S. Code 46, Chapter 131. The research has been approved by the U.S. Office of Management and Budget (OMB), Approval Number 1625-0089, expiring on 6/30/13. Without this number, we could not conduct this survey. Your participation is completely voluntary. The time required to complete this information collection is less than 15 minutes, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Dr. Philippe Gwet, Mathematical Statistician, US Coast Guard CG-5422, 2100 Second St. SW, Washington, DC 20593.

HOUSEHOLD PARTICIPATION

/ *//IF INFO=01/*
/ *//IF RESPONDENT IS CONTINUING WITH THE SURVEY/*

BT1 In this survey, we're interested in time people spent on ***recreational*** boats. That means boats that aren't used for purposes that make money. When I ask you about time spent on boats, please think about recreational boats. This could include boats that are rented—such as canoes—or boats that are privately owned by you or someone else.

For this question, please think about all time in recreational boats both on the water and when the boat was docked.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The Coast Guard estimates that the average burden for this report is 6.0 minutes. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: Commandant (CG-5422), U.S. Coast Guard, Washington, DC 20593-0001.

[IF NECESSARY: “Even if you do not boat, your responses are important. The survey is very short.”]

Did you **or anyone else in your household** spend any time on recreational boats during [year]?

[IF NECESSARY: “We are asking about all people who have lived in your house in the past year, whether they still reside there or not.”]
