An exemption from certain requirements of 10 CFR 2.101(a)(5), granted by the Commission on March 20, 2013 (ADAMS Accession No. ML13072B195), in response to a letter from SHINE dated February 18, 2013 (ADAMS Accession No. ML13051A007), allowed SHINE to submit its construction permit application in two parts. The NRC staff published in the **Federal Register** on July 1, 2013 (78 FR 39342), its determination that part one of SHINE's construction permit application is acceptable for docketing.

Part two of SHINE's application for a construction permit contains the remainder of the preliminary safety analysis report, as required by 10 CFR 50.34(a).

Subsequent **Federal Register** notices will address the acceptability of this second portion of the tendered construction permit application for docketing and detail provisions for public participation in the construction permit application review process.
