

# Household Form – Paper Protocol (Round 3)

INTERVIEW ID: \_\_\_\_\_

INTERVIEW DATE: \_\_\_\_/\_\_\_\_/\_\_\_\_ START TIME: \_\_\_\_\_ AM / PM

Hello, my name is \_\_\_\_\_. I work for RTI/RSS a research company that has been hired by the Census Bureau to conduct research on the census forms. Thanks for agreeing to help us today. Let me start by telling you a little about what we will be doing. Every ten years the United States conducts a census, or count, of everyone who is living in the United States.

At that time a census form is mailed to households in the United States with the request that it be completed and returned. The form we're working on today is the kind you would receive in the mail at your home. It would have your address printed on it. So when the form says "this address" let's assume that we are referring to the place that you live.

## ***Permission to Record:***

Because it would be hard to keep track of everything you say today, I would like to record this session. [**HAND RESPONDENT THE CONSENT FORM.**] Please read over this consent form and let me know if you have any questions. When you are ready, please sign the form. I want you to know that your responses will be kept strictly confidential and will only be seen by members of the project team, and the Census Bureau. Your participation in this study is completely voluntary and you can decline to answer any particular question. At the end of the study, we will delete any record of your responses from our machines. Your name will never be used in any reports.

## ***Think-out-loud Instructions:***

What I'll ask you to do today is to fill the questionnaire out, just as you would if you received it at home. It would come to your address, but it wouldn't have your name. So let's write your address back here, where it would be printed. [**WRITE RESPONDENT'S ADDRESS ON THE BACK OF THE PAPER FORM.**]

So I can keep track of what you are doing, I'd like you to describe what you are doing and thinking as you go along. Talk it through as you are filling out your answers: what you are looking at or what you are thinking about as you read the questions. I might remind you to do this from time to time. [**The following think aloud example is optional.**] Later, I may ask you questions about what you've read and written. I'm interested in what you were thinking when you answered. For example, if the question in the survey was "How many cars do you have?" you probably wrote in a number. But it would help me to understand if you told me, "Well I have an SUV that I drive every day and I also have an old truck. But the truck does not currently run. I assume that you mean working cars, so...one. I just have one car." This kind of response will help me understand how you understood and interpreted the question so that we can see what each question means to you. Even though some of these questions may sound like I am giving you a test, there are no right or wrong answers. We are interested in how these questions work for you.

At the end of the interview, we'll also ask you some general questions about your opinions on different ways of responding to the Census in 2020.

Do you have any questions before we begin?

[**HAND FORM TO PARTICIPANT AND ASK THEM TO COMPLETE IT**]

# General Observations

- DOES R MAKE ANY COMMENTS ABOUT EITHER PART A OR B? QUOTE VERBATIM AND INDICATE WHEN THE COMMENT WAS MADE.

**P2. DOES R COMMENT ABOUT ONLINE FORM WHEN READING THE INSTRUCTIONS OR FILLING OUT THE FORM?**

- No
- Yes: Quote comments verbatim, and describe the actions R took spontaneously at this point.

**P3. IF R DECIDES AT THIS POINT THAT THEY WOULD FILL OUT THE FORM ON-LINE, PROBE: Why do you think you should respond online? THEN SAY: Thanks. I understand the reasons that you think you should respond online. But just for today, let's assume that you can't go on-line and you've decided to fill out the paper form instead.**

**P4. USE THIS SPACE TO WRITE NOTES FOR A NARRATIVE ON HOW THE RESPONDENT READS/USES QUESTIONS 1 THROUGH 5.**

- INCLUDE ANY COMMENTS, QUESTIONS, OR DISCUSSIONS WHICH OCCUR DURING THE INITIAL FILLING OF THE FORM. QUOTE VERBATIM AND INDICATE WHEN THE COMMENT WAS MADE.
- ARE THE QUESTIONS FILLED IN ORDER?

## Final Debriefing

Thanks, we're almost finished. I have just a few more questions for you.

P71. Was there anything in these questions that you found sensitive or uncomfortable to answer?

P72. Was there any information that you would be hesitant to provide on the census form?

P73. Aside from the things we've talked about, were there any questions or instructions that you find confusing or difficult to answer?

P74. Did you find parts of the interview repetitive? If so, what parts?

If you were going to answer your census questionnaire on your own, without an interviewer, how would you prefer to do it?

Yes  No On a smartphone? (What kind: \_\_\_\_\_)

Yes  No On a tablet? (What kind: \_\_\_\_\_)

Yes  No On a laptop or desktop?

Yes  No On a paper form?

FOR EACH "Yes" ANSWER CHOSEN, ASK: Why?

P75. If you don't answer the census on your own, an interviewer might be sent to your home to get your census information. How would you feel about the interviewer using..... CHECK ALL THAT APPLY.

- a smartphone to do the interview?
- a tablet, like an iPad?
- a laptop computer?
- a paper form?

Which do you prefer and why?

P76. Now, thinking of an interviewer using a smartphone, a tablet or a laptop computer, would it make a difference to you if the interviewer used her own device or a government-issued device?

IF R SHOWED CONCERN WITH PERSONAL DEVICE: The information people give will not be saved in the personal machines. Instead, they will be encrypted through a secure internet server and the machine is just used to get to the secure server. Would this explanation assure you? (IF NOT: What should the Census Bureau say to assure you that interviewers' personal devices work the same as government-issued devices?)

P77. Do you own or have access to...

- \_\_\_ A smartphone? (What kind: \_\_\_\_\_)
- \_\_\_ A tablet? (What kind: \_\_\_\_\_)
- \_\_\_ A laptop or desktop?

HAND R THE PRINTOUT WITH THIS QUESTION: I have one more question to ask you about technology that might be used to improve the next Census. Please look at this: "In order to count people in the right place, the Census Bureau must collect detailed geographic information about each person's place of residence. If you were at home completing your census on a smartphone or tablet, we could determine your location easily and accurately using GPS technology. Would you allow the Census Bureau to collect GPS coordinates on a one-time-only basis to determine where to count you in the census?"

P78. Tell me why/why not? [IF NECESSARY: What additional information would you want to know?]

P79. What does geographic information mean to you in this question?

P80. End Time: \_\_\_\_\_

**THANK YOU**
