Form Approved OMB No. 0920-0200 Expires 06/30/2014

GUIDELINES FOR SPIROMETRY IN THE ECWHSP MOBILE (08/2012)

Spirometry will NOT be performed under the following circumstances:

- Oxygen use (make note on Miner ID Card)
- Blood Pressure reading higher than 160/100
- Heart Rate reading higher than 110
- Failure to obtain a Blood Pressure reading

If the miner passes all of the above criteria, proceed to the following questions:
1) Have you had any surgeries in the last 90 days? Yes No If no, proceed to #2
If yes, what type of surgery? For abdominal, hernia, chest, back, neck-type surgeries < 90 days ago = No spirometry
For all other surgeries: Are you released from the doctor's care?YesNo If yes = spirometry If no = no spirometry
2) Have you ever had any heart trouble? Yes No If no, proceed to #3
If yes, what type of trouble? For former miners Yes = no spirometry For working miners: Have you had any heart issues in the last 6 months?Yes No No = spirometry Yes = no spirometry
3) Have you ever had a stroke:YesNo If no, proceed to #4 If yes, For working miners - <3 months = no spirometry >3 months = spirometry For former miners - No spirometry regardless of time

Public reporting burden of this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CDC, Project Clearance Officer, 1600 Clifton Road, MS D-74, Atlanta, GA, 30333, ATTN: PRA (0920-0020).

Name	e:
