Re: Nonmaterial/non-substantive Change to OMB 0920-0914

We are requesting a nonmaterial/non-substantive change to our OMB Approved Information Collection titled 'Workplace Violence Prevention Programs in NJ Healthcare Facilities' (OMB control number 0920-0914) with expiration date 2/29/2016. Our changes are as follows: **(1)**. Home Healthcare Aide Survey – added *Are you currently working as a home healthcare aide in New Jersey?* on page 1. **(2)**. Switched the Background section (now last) and the Violence-Based Safety Programs in Health Care section (now first). **(3)**. Added a second column in the Experienced Violent Events section; added from patient or family member and from coworker or boss. **(4)**. Added a second column in the Health Promotion section; added Wellness classes offered by agency? And Participated in wellness classes offered by agency? **(5)**. For the Background section, added age ranges; deleted job type; added agency question; changed Employment Status to hours worked with ranges; deleted month from Experience; added Which Employers do you work for? with categories to select.

Justification of change for the home healthcare aide survey: the screener question allows us to capture home health care aides that work only in a New Jersey. The changes 2-5 came after the home healthcare aide survey was pilot tested with home healthcare aides. The home healthcare aide survey **does not** change in length at four pages.

The requested changes will not change the scope of the study and the burden hours will not change.
