

## VFG Recruitment Email

### Study Topic: Medication Use and Women's Health

M-panels would like to invite you to participate in a study about medication use among women of childbearing age.

This is a link to a very short online screener. If you qualify, we would invite you to participate in a virtual focus group (similar to a live chat session on the Internet), which will take about 1.5 hours. Once you qualify through the short screener, we will provide you with an easy-to-access web link for participating in the virtual focus group.

After participating in the focus group, as a token of appreciation for your interest, you will receive a check in the amount of \$50.

To see if you are eligible for the study, please click on or copy-paste the below link into your browser:
