a) Included content relevant to mine emergency.					
b) Covered knowledge and skills needed during a real mine emergency.					
c) Reinforced knowledge and skills I learned during previous mine evacuation training.					
d) Made me more confident that I could correctly respond to a real mine emergency.					
e) Helped prepare me to handle a real mine emergency.					
f) Helped prepare me for a future mine evacuation simulation.					
g) Motivated me to learn more about mine evacuation.					
h) Motivated me to be generally more prepared for mine emergencies.					
i) Helped me learn something that could be helpful during a real mine emergency.					
j) Gave me new ways to think about mine evacuation.					
<b>2. I would recommend this training to...</b>					
a) Anyone working in a mine.					
b) Anyone who has a genuine interest in mine evacuation.					
c) Other miners who I work with.					
<b>3. Regarding the training exercise...</b>					
a) An event like the one presented in this exercise could happen in real life.					
b) The simulated underground mine seemed realistic.					
c) The simulated smoke in the exercise was realistic.					
d) Objectives of the exercise were appropriate and clearly defined.					
e) I understood the directions for the exercise.					
f) The simulation is a good supplement to existing mine evacuation training.					
g) Training in a virtual environment is equivalent to training in an actual underground mine.					
h) More virtual reality exercises like this should be developed and used.
