

Justification of Non-material Change

(0938-1161)

We are removing the word GEHA and the following comma “GEHA,” from the attached form. This is the only change that we are making to the form and it is not a substantive change. This form is being changed because of a recent policy decision with our third party administrator (TPA). Currently our form identifies GEHA as the name of the PCIP administrator. We recently made a change to our contract with our TPA that we would be removing their name from all PCIP related materials effective June 15th.
