SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0106.

Title: 30 CFR 553, Oil Spill Financial Responsibility for Offshore Facilities.

Forms: BOEM-1016 through 1023 and BOEM-1025.

Abstract: This information collection request addresses the regulations at 30 CFR 553, Oil Spill Financial Responsibility (OSFR) for Offshore Facilities, including any supplementary notices to lessees and operators that provide clarification, description, or explanation of these regulations, and

forms BOEM–1016 through 1023 and BOEM–1025.

The BOEM uses the information collected under 30 CFR 553 to verify compliance with section 1016 of the Oil Pollution Act, as amended (OPA). The information is necessary to confirm that applicants can pay for cleanup and damages resulting from oil spills and other hydrocarbon discharges that originate from Covered Offshore Facilities (COFs).

We will protect information from respondents considered proprietary

under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 550.197, “Data and information to be made available to the public or for limited inspection.” No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion or annual.
Description of Respondents: Holders of leases, permits, and rights of use and easement in the Outer Continental Shelf and in State coastal waters who will appoint designated applicants. Other

respondents will be the designated applicants’ insurance agents and brokers, bonding companies, and guarantors. Some respondents may also be claimants.

* In the future, BOEM may require specified electronic filing of financial/bonding submissions.

In this renewal, BOEM is splitting the function of some forms and revising others to clarify the responsibilities and financial obligations of responsible parties and applicants, as described in the Outer Continental Shelf Lands Act, and to better align the terminology and liability with the provisions of OPA. These revisions will better protect the Federal Government from potential disputes and litigation by clarifying that the primary relationship is between the responsible party and guarantor and that the designated applicant/operator is intended to function primarily in an administrative capacity.

The revised forms can be viewed online at <http://www.reginfo.gov> or in the August 6, 2013, **Federal Register** notice (78 FR 47724).

Form BOEM-1016, Designated Applicant Information Certification. This form remains essentially the same except for updating the choices of forms and clarifying the administrative role of the designated applicant. No change in the 1-hour burden is expected.

Form BOEM-1017, Appointment of Designated Applicant. This form remains essentially the same except for changing the title, clarifying the administrative role of the designated applicant, and adding a column to record depth ranges, when applicable. No change in the 9-hour burden is expected.

Form BOEM-1018, Self-Insurance Information. The original form posed potential confusion because it served two purposes, both to provide evidence of self-insurance (for responsible parties) and as an indemnity (executed by persons other than the responsible party). Thus, the form has been split into two forms (BOEM-1018 and BOEM-1023). BOEM-1018 focuses on self-insurance only and is reworded to more closely align with the requirements of OPA, adding an agreement to update/renew expiring or terminated instruments and a signature section. No change in the 1-hour burden is expected.

Form BOEM-1019, Insurance Certificate. The language and agreements in this form have been reworded for compliance with OPA, to clarify that the insurer is responsible for OPA liabilities of the responsible parties, and to add an agreement to update/renew expiring or terminated instruments. No change in the 120-hour burden is expected.

Form BOEM-1020, Surety Bond. The language and agreements in this form have been reworded for compliance with OPA, to clarify that the Surety is responsible for OPA liabilities of the responsible parties, and to add an

agreement to update/renew expiring or terminated instruments. No change in the 24-hour burden is expected.

Forms BOEM-1021, Covered Offshore Facilities, and BOEM-1022, Covered Offshore Facility Changes. These forms remain essentially the same except for rewording of the subtitles to match the other forms and adding a provision for rights-of-way. There is no change in the 1-hour burden for BOEM-1022; however, based on respondent input we are increasing the burden for BOEM-1021 from 3 to 6 hours.

Form BOEM-1023, Financial Guarantee. This new form replaces the indemnity agreement (previously part of BOEM-1018) with a provision that an affiliated firm, such as a corporate parent, may promise to satisfy any claims against the responsible parties. It also adds an agreement to update/renew expiring or terminated instruments and a signature section. The hour burden is estimated as 1.5 hours.

Form BOEM-1025, Independent Designated Applicant Information Certification. This new form allows a designated applicant, who is not also a responsible party, to continue to agree to be jointly and severally liable under OPA until BOEM promulgates regulations that will repeal this requirement. We estimate the burden hour to be 1 hour.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no reporting and recordkeeping non-hour cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .” Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden estimates; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on May 1, 2013, BOEM published a **Federal Register** notice (78 FR 25472) announcing that we would submit this ICR to OMB for

approval. On August 6, 2013, we published a supplementary notice (78 FR 47724) requesting public comment on the revised forms. These notices each provided the required 60-day comment period. We received one comment from the Marine Mammal Commission, which expressed support for BOEM's required information collection as part of a comprehensive Federal/State oil spill response program.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
