Please do not send comments here.**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance

the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Experimental Sites Data Collection Instrument.*OMB Control Number:* 1845–NEW.*Type of Review:* a new information collection.*Respondents/Affected Public:* Private Sector.*Total Estimated Number of Annual Responses:* 25.*Total Estimated Number of Annual Burden Hours:* 275.*Abstract:* This data collection instrument will be used to collect specific information/performance data for analysis of the experiments. This effort will assist the Department in obtaining and compiling information to help determine change in the administration and delivery of Title IV programs. Institutions volunteer to become an experimental site to provide recommendations on the impact and effectiveness of proposed regulations or new management initiatives.

EERE through the National Renewable Energy Laboratory is developing voluntary work specifications for the work involved in home energy upgrades. This content builds upon the considerable body of material already in circulation and the cumulative knowledge gathered throughout the 30-year history of the Weatherization Assistance Program (WAP) and broader home performance industry.

The development of the SWS is supported by the WAP Training and Technical Assistance Plan (T&amp;TA). The process of developing the SWS has involved participation by numerous stakeholders, including WAP practitioners and trainers, home performance contractors, building scientists, organized labor, healthy homes and worker safety experts, and other professionals in the building trades and throughout the retrofit industry. On November 9, 2010, EERE issued a notice requesting public
