- A. Driver alertness monitoring system (an alarm system that alerts you if you start to show signs of fatigue or inattention to your driving)
- B. Forward collision warning system (a system that monitors the roadway ahead of the truck and warns of a potential collision risk exists)
- C. Lane departure warning system (an alarm system that warns you when you veer out of your lane)
- D. An EOBR (a device that electronically records your service hours and duty status, automatically when the truck starts or stops, as well as when you manually start it logging)

None of these

CARD 6/7

Miles per week

Loads per week

Shipments per week

Stop count (pickups and/or deliveries per week)

Meeting customer service schedules

Avoiding chargeable accidents

Fuel mileage

Avoiding freight damage claims

Avoiding workers compensation claims

Avoiding out-of-route miles

Avoiding hard braking events

Avoiding recorded hours of service violations

Some other way

Paper

Tachographs

Stand-alone EOBR

EOBR in a system with other functionality

Another device

A smartphone synched to the engine, and logging the hours
A laptop synched to the engine, and logging the hours
A console/display that is not a smartphone or computer,
branded with a manufacturer's name

CARD 14/15/16/17

Schedules:

- A. Ask you to meet a customer load schedule you viewed as unrealistic
- B. Ask a customer to adjust a load schedule so it was realistic for you

Fatigue:

- C. Ask you to operate when you judged you were fatigued
- D. Ask that you shut down if you felt fatigued

Logging and breaks:

- E. Ask you to log inaccurately to get more work time or delay a break
- F. Ask you to log accurately when you could have had more work time or delayed a break by being inaccurate
- G. Change your log record after it was made to give you more work time or delay a break
- H. Ask you to take sufficient time off duty to recover from fatigue

Communications:

- I. Interrupt your off-duty time with a message that woke you up
- J. Contact you promptly about a new job task so you didn't have to wait without pay

Paid and Unpaid Time:

- K. Pay you for customer delays in picking up or delivering freight
- L. Require you to wait for customer delays for more than two hours without pay
- M. Arrange your loads so you had little delay time between loads
- N. Require you to wait between loads for more than two hours without pay.

CARD 20/26

- (A) Fewer assignments
- (B) Lower raises than deserved
- (C) Considered looking for another job
- (D) More arguments at home
- (E) Didn't sleep as well
- (F) Felt ashamed
- (G) More isolated from co-workers
- (H) Began smoking/drinking, or did so more often
- (I) None of these

Agree completely
Agree somewhat
Disagree somewhat

Disagree completely

- 1 Requiring driver approval for all changes to electronic logs
- 2 Requiring driver approval before logs are formally filed
- 3 Blocking real-time communication of EOBR data, limiting its availability until end of trip
- 4 Others as identified in qualitative survey

Closer federal monitoring

Fines

Publication of carrier actions

Something else (Please specify)

HARASSMENT

Harassment is an act by a motor carrier, involving the use of information available through EOBR technology (either alone or in combination with other technology) to track a commercial motor vehicle driver's hours of service and requiring the driver to violate federal hours of service rules or fatigue or ill driving restrictions.

COERCION

Coercion is a threat by a motor carrier, shipper, receiver, or a transportation intermediary, to deny business or work based on a commercial motor vehicle driver's refusal to violate federal regulations governing operating a commercial motor vehicle based, at least in part, on information available through EOBR technology or a combination of technology that includes an EOBR feature.
