2. Project Description

Provide a detailed description of the scope of work for the A/R project. Identify the major clinical and non-clinical spaces that will result from the project. Include the area (in square feet) or dimensions of the spaces to be altered, or renovated. The description should also list major improvements, such as permanently affixed equipment to be installed; modifications and repairs to the building exterior (including windows); heating, ventilation and air conditioning (HVAC) modifications (including the installation of climate control and duct work); electrical upgrades; plumbing work; and any work outside the building. Describe how the applicant will reduce the project's potential adverse impacts on the environment. Indicate whether or not the project will implement green/sustainable design practices/principles (e.g., using project materials, design/renovation strategies, equipment selection, etc.).

3. Project Management/Resources/Capabilities

Explain the administrative structure and oversight for the A/R project, including the role and responsibilities of the health center's key management staff as well as oversight by the governing board. Identify the individual who will be the Project Manager and the individuals who comprise the Project Team responsible for managing the project. Describe how the Project Team has the expertise and experience necessary to successfully manage and complete the project within the **120 day timeline** and achieve the goals and objectives established for this project.
