2013 CDC EHDII Hearing Screening and Follow-up Survey (HSFS)*

Note: Please select the Type and Severity system that was used to classify cases of permanent hearing loss for infants born in calendar year 2011 before clicking the "Begin Survey" button. You will not be able to begin the survey until you select either the "ASHA" or "DSHPSHWA" option

Please select type and severity system first!

ASHA system DSHPSHWA system

Directions

Please complete the following survey with only **documented, non-estimated** data for infants born between **January 1, 2012 and December 31, 2012**. Any comments and/or caveats about the reported data can be entered in the Comments section at the end of the survey. Survey Notes

- The survey is divided into three parts, which each have several different sections. These include Part 1 (Hearing Screening, Diagnostic, and Early Intervention), Part 2 (Type and Severity), and Part 3 (Demographics). Part 3 can only be completed after Parts 1 and 2 have been submitted.
- Data cannot be manually entered into fields highlighted in **yellow**. The totals for these yellow fields will be automatically calculated based on the data entered into the non-highlighted fields. These calculated values will appear in the yellow boxes after selecting the "Calculate Totals" button near the top of each survey page.
- To navigate through the survey use the menu bar located near the top of each survey page and click on the desired section (e.g., Diagnostic).
