

**Summary of Proposed Changes in the ICR for
The Gonococcal Isolate Surveillance Project (GISP)
OMB # 0920-0307**

Attachment 3

Summary of Revisions

The revision to the ICR consists of removing 4 variables from the approved Form 1: Demographic and Clinical Data (Attachment 3a). The variables to be removed have not proven useful in the past. Removal of these variables will not increase or decrease the burden. Use the table below to identify the attachments affected by the change, where on the attachment the change occurs, and what the change is.
