

**Medicaid and Children’s Health Insurance Programs: Essential Health Benefits in
Alternative Benefit Plans, Eligibility Notices, Fair Hearing and Appeal Processes, and
Premiums and Cost Sharing; Exchanges: Eligibility and Enrollment
Supporting Statement for Exchange Provisions**

A. Background

The Patient Protection and Affordable Care Act, Public Law 111-148, enacted on March 23, 2010, and the Health Care and Education Reconciliation Act, Public Law 111-152, enacted on March 30, 2010 (collectively, “Affordable Care Act”), expands access to health insurance for individuals and employees of small businesses through the establishment of new Affordable Insurance Exchanges (Exchanges), including the Small Business Health Options Program (SHOP). The Exchanges, which will become operational by January 1, 2014, will enhance competition in the health insurance market, expand access to affordable health insurance for millions of Americans, and provide consumers with a place to easily compare and shop for health insurance coverage.

The reporting requirements and data collection in Medicaid, Children’s Health Insurance Programs, and Exchanges: Essential Health Benefits in Alternative Benefit Plans, Eligibility Notices, Fair Hearing and Appeal Processes, and Premiums and Cost Sharing; Exchanges: Eligibility and Enrollment (CMS-2334-F) address: (1) standards related to notices, (2) procedures for the verification of enrollment in an eligible employer-sponsored plan and eligibility for qualifying coverage in an eligible employer-sponsored plan; and (3) other eligibility and enrollment provisions to provide detail necessary for state implementation.

The submission seeks OMB approval of the information collection requirements

associated with selected provisions in 45 CFR parts 155, 156 and 157.

It is important to note that these regulations involve several information collections that will occur through the single, streamlined application for enrollment in a QHP and for insurance affordability programs described in §155.405. We have accounted for the burden associated with these collections in the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children's Health Insurance Program Agencies (CMS-10440).

We would also like to highlight that this supporting statement also includes several information collections from regulatory provisions finalized in the Exchange final rule. We have included these information collections in this PRA package to address PRA requirements related to those provisions as they were not included in the information collection section of the Exchange final rule.

Additionally, throughout this section, we reference notices, and include data elements associated with these notices in Appendix A.

B. Justification

1. Need and Legal Basis

Sections 1311(b) and 1321(b) of the Affordable Care Act provide that each state has the opportunity to establish an Exchange that (1) facilitates the purchase of insurance coverage by qualified individuals through QHPs; (2) assists qualified employers in the enrollment of their employees in QHPs; and (3) meets other standards specified in the Affordable Care Act. Section 1311(k) of the Affordable Care Act specifies that Exchanges may not establish rules that conflict with or prevent the application of regulations promulgated by the Secretary. Section 1311(d) of the Affordable Care Act describes the minimum functions of an Exchange, including the

certification of QHPs.

Section 1321 of the Affordable Care Act discusses state flexibility in the operation and enforcement of Exchanges and related policies. Section 1321(c)(1) directs the Secretary to establish and operate such Exchanges within states that either: (1) do not elect to establish an Exchange, or (2) as determined by the Secretary on or before January 1, 2013, will not have an Exchange operable by January 1, 2014. Section 1321(a) also provides broad authority for the Secretary to establish standards and regulations to implement the statutory standards related to Exchanges, QHPs, and other components of title I of the Affordable Care Act.

Section 1401 of the Affordable Care Act creates new section 36B of the Internal Revenue Code (the Code), which provides for a premium tax credit for eligible individuals who enroll in a QHP through an Exchange. Section 1402 of the Affordable Care Act establishes provisions to reduce the cost-sharing obligation of certain eligible individuals enrolled in a QHP offered through an Exchange, including standards for determining whether Indians are eligible for certain categories of cost-sharing reductions.

Under section 1411 of the Affordable Care Act, the Secretary is directed to establish a program for determining whether an individual meets the eligibility standards for Exchange participation, advance payments of the premium tax credit, cost-sharing reductions, and exemptions from the shared responsibility payment.

Sections 1412 and 1413 of the Affordable Care Act and section 1943 of the Social Security Act (the Act), as added by section 2201 of the Affordable Care Act, contain additional provisions regarding eligibility for advance payments of the premium tax credit and cost-sharing reductions, as well as provisions regarding simplification and coordination of eligibility determinations and enrollment with other health programs.

Unless otherwise specified, the provisions in this proposed rule related to the establishment of minimum functions of an Exchange are based on the general authority of the Secretary under section 1321(a)(1) of the Affordable Care Act.

These information collection requirements are set forth in 45 CFR Parts 155, 156, and 157.

2. Information Users

The data collection and reporting requirements described below are critical to the basic ability of Exchanges to facilitate enrollment in qualified health plans, and will also assist Exchanges, health insurance issuers, and HHS in ensuring program integrity and quality improvement.

3. Use of Information Technology

HHS anticipates that a majority of the activities described below specified in this rule will be automated. Exchanges and health insurance issuers are expected to develop automated notice templates for many of the specified notices, and distribute the majority of these notices through secure electronic accounts. The entities issuing notices or collecting information will develop the initial template after which the templates will be automatically populated with the appropriate information for the receiving party. A majority of the information that is collected in accordance with this rule will be submitted electronically. Staff, or systems, will analyze, review, or process the data through largely electronic means and communicate with individuals, states and health insurance issuers using e-mail, telephone, or other electronic means whenever possible.

4. Duplication of Efforts

These information collections do not duplicate any current information collections. They contain information needed for a new program.

5. Small Businesses

We estimate minimal burden on small business as they are not required to participate in the SHOP.

6. Less Frequent Collection

Due to the required flow of information between multiple parties and flow of funds for payments supporting health insurance coverage purchased through the Exchange, it is necessary to collect information according to the indicated frequencies. If the information is collected less frequently, the result would be less accurate, untimely or unavailable eligibility, enrollment or payment information for Exchanges, insurers, employers and individuals. This would lead to delayed payments to insurers; late charges to or payments by employers and enrollees; inaccurate or inappropriate advance payments of the premium tax credit and cost sharing reductions; the release of misleading information regarding health care coverage to potential enrollees; and an overall stress on the organizational structure of the Exchanges and decrease in benefit to individuals and employers.

7. Special Circumstances

These information collections do not include any special circumstances.

8. Federal Register/Outside Consultation

The proposed rule, *Establishment of Exchanges and Qualified Health Plans*, and the associated collection of information were published on July 15, 2011 (76 FR 41905). The proposed rule, *Exchange Functions in the Individual Market: Eligibility Determinations; Exchange Standards for Employers*, was published on August 17, 2011 (76 FR 51202). The comments for both of these proposed rules and the collection of information were due within 60 days of the publication. We received a number of comments on the proposed rules and one

comment on the collection of information. The commenter stated that the Collection of Information was inadequate and recommended that HHS revise the Collection of Information. HHS staff reviewed all received comments and questions on the proposed rules, revised the document as appropriate, and forwarded revisions to the Office of the HHS Secretary for submission to OMB. The final rule was published on March 27, 2012 (77 FR 18310). We also published the proposed rule entitled *Medicaid, Children's Health Insurance Programs, and Exchanges: Essential Health Benefits in Alternative Benefit Plans, Eligibility Notices, Fair Hearing and Appeal Processes for Medicaid and Exchange Eligibility Appeals and Other Provisions Related to Eligibility and Enrollment for Exchanges, Medicaid and CHIP, and Medicaid Premiums and Cost Sharing (CMS-2334-F)*. We are finalizing the proposed rule at the time of publishing this Supporting Statement. We received a number of comments on the proposed rule and received one comment related to the Exchange provision related to certified application counselors, requesting that we include a burden estimate for this provision. We intend to finalize the regulatory provisions regarding certified application counselors at a later date, and will respond to that comment at that time.

As part of Exchange implementation to date, we have consulted with contractors, academia, states, and industry of the feasibility of this information collection. We have based many of the requirements in this information collection from the consultations with these outside entities.

9. Payments/Gifts to Respondents

No payments and/or gifts will be provided to respondents.

10. Confidentiality

To the extent of the applicable law and HHS policies, we will maintain respondent

privacy with respect to the information collected.

11. Sensitive Questions

There are no sensitive questions included in this information collection effort.

12. Burden Estimates (Hours & Wages)

For purposes of presenting an estimate of paperwork burden, we reflect the participation of 18 State-based Exchanges. We also note that these estimates generally reflect burden for the first year, and that the associated burden in subsequent years will be significantly lower because many of the standards in the regulation will be fulfilled through the development of automated processes that will involve only maintenance in future years. Therefore, these estimates should be considered an upper bound of burden for non-federal entities. These estimates may be adjusted in future PRA packages as Exchange development moves forward.

Salaries for the positions cited in the labor category of the burden charts were taken from the May 2011 National Occupational Employment and Wage Estimate from the Bureau of Labor Statistics (BLS) (http://www.bls.gov/oes/2011/may/oes_nat.htm). Additional employer costs are based on the rate for management, professional, and related workers from the BLS's June 2012 Employer Costs for Employee Compensation survey (http://www.bls.gov/news.release/archives/ecec_09112012.htm).

Information Collections under Part 155

Subpart C—General Functions of an Exchange

A. Role of authorized representatives in the Exchange (§155.227)

Section 155.227(a) provides that an applicant or enrollee, subject to applicable privacy and security requirements, may designate an individual person or organization as his or her authorized representative. One method for designating an authorized representative is by submitting legal documentation of the representative's authority. Exchanges have the option to make available an "Appointment of Authorized Representative Form" at the time of application or anytime thereafter for an individual to designate an authorized representative. Such a form would collect identifying and contact information about the applicant, enrollee, and requested authorized representative. Requested data elements would include the following for both the applicant or enrollee and the requested representative: name, address, phone number, email address, date of birth, and relationship. The applicant, enrollee, or authorized representative could obtain the form from the Exchange website or from an assister (such as a Navigator, non-Navigator in-person assister, etc.), and could submit it to the Exchange by mail or online at any time. We expect that the Exchange would use this information to authorize the authorized representative to act on behalf of the applicant or enrollee. An authorized representative could also submit this form if the applicant or enrollee is unable to do so.

HHS is currently developing a model Appointment of Authorized Representative Form to be used by the Federally-facilitated Exchanges and will make that form available to State-based Exchanges, which would also decrease the burden on State-based Exchanges to develop such a form. If a state opts not to use the form provided by HHS, we estimate the burden associated for the time and effort necessary for a State-based Exchange to develop the Appointment of Authorized Representative Form to be 30 hours. This includes a 10 hours from a mid-level health policy analyst at an hourly cost of \$49.35 and 10 hours from an operations analyst at an hourly cost of \$54.45 for drafting the form with 4 hours of managerial oversight at an hourly cost

of \$79.08 and 6 hours of legal review at an hourly cost of \$90.14. The estimated cost per State-based Exchange is \$1,895, for a total cost of \$34, 113 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (per year)
Health Policy Analyst	1	\$49.35	10	\$493.50	\$493.50
Operations Analyst	1	\$54.45	10	\$544.50	\$544.50
Attorney	1	\$90.14	6	\$540.84	\$540.84
Senior Manager	1	\$79.08	4	\$316.32	\$316.32
Total			30	\$1,895.16	\$34,112.88

For an applicant, enrollee, or prospective authorized representative, we estimate that it will take up to 5 minutes to review instructions and complete a Appointment of Authorized Representative Form. While we expect most applicants, enrollees, or prospective authorized representatives to complete the Authorized Representative Form, an applicant, enrollee, or prospective authorized representative may also comply with this provision by providing the necessary information online, by phone, by mail or in-person. We expect a similar burden on the applicant, enrollee, or authorized representative to comply with this provision through such means.

Labor Category	Number of Individuals	Hourly Labor Costs	Burden Hours	Total Burden Costs
Individual	1	--	0.08	--
Total per response	1	--	0.08	--

. If the applicant, enrollee, or authorized representative chooses to submit an “Appointment of Authorized Representative Form,” the burden for a State-based Exchange to process the submitted information will be approximately 10 minutes at a cost of \$3.39 per submission. We anticipate that an eligibility support staff person will scan, digitize, and link the

form to an applicant’s or enrollee’s account, review the submitted information, and update the authorized representative’s and applicant’s or enrollee’s account, if applicable.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs
Eligibility Support Staff	1	\$19.97	0.17	\$3.39
Total per response	1		0.17	\$3.39

B. General standards for Exchange notices.

Subpart D—Exchange Functions in the Individual Market: Eligibility Determinations for Exchange Participation and Insurance Affordability (§155.302 through §155.345)

A. Options for conducting eligibility determinations (§155.302)

Section 155.302 of the regulation provides options for conducting eligibility determinations. Section 155.302(a) provides that the Exchange may satisfy the requirements of this subpart directly or through contracting arrangements or through a combination of the approach described in paragraph (a)(1) and one or both of the options, described in paragraphs (b) and (c), and certain standards are met. Section 155.302(b)(6) specifies that an Exchange that uses the options specified in paragraphs (b) or (c) will enter in to agreements that reflect roles and responsibilities. The burden associated with these provisions is the time and effort necessary for the Exchange to establish or modify agreements for eligibility determinations and coordination of eligibility functions. For 155.302(b)(6) this burden is captured in the agreements associated with §155.345. For 155.302(c), since this agreement would involve a different relationship, specifically, HHS and the Exchange, instead of the Exchange and Medicaid and CHIP agencies, we have estimated to be the time and effort necessary for the Exchange to develop and execute agreements with HHS, which we estimate will take 105 hours per Exchange.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (per year)
Health Policy Analyst	1	\$49.35	35	\$1,727	\$88,096
Operations Analyst	1	\$54.45	35	\$1,906	\$97,200
Attorney	1	\$90.14	30	\$2,704	\$137,920
Senior Manager	1	\$79.08	5	\$395	\$20,166
Total			105	\$6,733	\$121,194

Section 155.302(b)(4) provides that if the Exchange conducts an assessment in accordance with paragraph (b) of this section and finds that an applicant is not potentially eligible for Medicaid and CHIP based on the applicable Medicaid and CHIP MAGI-based income standards, the Exchange must consider the applicant as ineligible for Medicaid and CHIP for purposes of determining eligibility for advance payments of the premium tax credit and cost-sharing reductions, notify the applicant, and provide the applicant with the opportunity to withdraw his or her application for Medicaid and CHIP or request a full determination of eligibility for Medicaid and CHIP by the applicable State Medicaid and CHIP agencies. However, the provisions in §155.302 do not involve burden beyond what is already addressed in §155.310(g), since each state will choose either an assessment or determination. In the case of an assessment, the Exchange will substitute language described in this section with what would be otherwise included.

In accordance with section 1413(b) of the Affordable Care Act, section 155.310(a)(1) specifies that the Exchange use a single streamlined application, as specified in §155.405. Section 155.405 also provides that the Exchange may choose to use an alternative application if such application is approved by HHS and requests the minimum information necessary for the purposes identified in §155.405(a). The application will include information that will be used to determine the eligibility of an applicant for enrollment in a qualified health plan through the

Exchange and insurance affordability programs, as applicable. More detailed information on this information collection requirement and the corresponding burden estimates is outlined in the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children's Health Insurance Program Agencies (CMS-10440).

Throughout this subpart, we propose that the Exchange collect attestations from the application filer. For the most part, these attestations will be collected as a data element or incorporated in some way as part of the single streamlined application. As such, we have accounted for the burden associated with these collections in the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children's Health Insurance Program Agencies (CMS-10440).

C. Eligibility Process (§155.310)

Section 155.310(d)(3) provides that to the extent that the Exchange determines an applicant eligible for Medicaid or CHIP, the Exchange must notify the state Medicaid or CHIP agency and transmit all information from the records of the Exchange to the Medicaid or CHIP agency to ensure that the Medicaid or CHIP agency can provide the applicant with coverage promptly and without undue delay. This applicant information will be transmitted electronically from the Exchange to the agency administering Medicaid or CHIP upon receiving an indication that the Exchange has determined an applicant eligible for such program. The purpose of this data transmission is to notify the agency administering Medicaid or CHIP that an individual is newly eligible and so the agency should facilitate enrollment in a plan or delivery system. Data will be transmitted through a secure electronic interface. The burden associated with this

provision is the burden of creating and executing agreements with State Medicaid and CHIP agencies, which we estimate in §155.345.

Section 155.310(g) provides that the Exchange will notify an individual regarding his or her eligibility determination after it has been made. This notice provides information necessary to understand key next steps, including plan selection or appeal. We anticipate that the Exchange will consolidate this notice when multiple members of a household are applying together and receive an eligibility determination at the same time. The notice will be in writing, and may be in paper or electronic format. We anticipate that a large volume of enrollees will request electronic notification while others will opt to receive the notice by mail. As a result, we estimated the associated mailing costs for the time and effort needed to mail notices in bulk to enrollees as appropriate.

We expect that the eligibility determination notice will be dynamic and include information tailored to all possible outcomes of an application. To develop the notice, Exchange staff will need to learn eligibility rules and draft notice text for various decision points, along with information regarding next steps, referrals, customer service, and appeals. A health policy analyst, manager, and legal counsel will review the notice. The Exchange will then incorporate changes from the consultation and user testing including review to ensure compliance with plain writing, language access, and readability standards. The Exchange will also consult with the state Medicaid or CHIP agency in order to develop coordinated notices. Finally, a developer (occupation no. 15-1131) will program the template notice into the eligibility system so that the notice may be populated and generated.

HHS is currently developing model notices for the eligibility determination notice and several other notices described in this subpart which will also decrease the burden on Exchanges

to provide such notices. If a state opts not to use the model notice provided by HHS, we estimate that this notice development as outlined in the paragraph above, including the systems programming, would take each Exchange an estimated 100 hours to complete in the first year if a state opts to use the model notices provided by HHS. We estimate the cost for each Exchange would be approximately \$5,971 and a total cost of \$107,478 for 18 State-based Exchanges. We expect that the burden on the Exchange to maintain this notice will be significantly lower than the estimate to develop it.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	44	\$2,171	
Attorney	1	\$90.14	20	\$1,803	
Senior Manager	1	\$79.08	4	\$316	
Computer Programmer	1	\$52.50	32	\$1,680	
Total			100	\$5,971	\$107,478

We also include an estimate for the total printing and mailing costs related to sending eligibility determination notices for all 18 State-based Exchanges. In the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children’s Health Insurance Program Agencies (CMS-10440), we estimated 5,348,297 total applications for 2014. This estimate was based on analysis of Congressional Budget Office projections and Office of the Assistant Secretary for Planning and Evaluation analysis of data from the Census indicating that families with incomes less than 138% FPL had a family size of 3.88 and those with incomes between 138% and 400% FPL had a family size of 3.61. It is difficult to estimate the number of

eligibility determination notices for 18 State-based Exchanges because the CBO estimates present national figures and are not state-specific estimates. However, we estimate 297,128 notices will be sent for 18 State-based Exchanges. We use these assumptions to determine the number of eligibility notices that we expect to be printed and distributed as described in §155.310. We note, however, that since we expect that many individuals will choose electronic notices instead of paper notices, this estimate is an upper bound.

	Number of Notices	Printing/Mailing Costs per notice	Total Burden Cost (18 State-based Exchanges)
Printing/Mailing	297,128	\$.50	\$148,564

Section 155.310(h) specifies that the Exchange will notify an enrollee’s employer that an employee has been determined eligible for advance payments of the premium tax credits and/or cost-sharing reductions. Upon making such an eligibility determination, the Exchange will send a notice to the employer with information identifying the employee, along with a notification that the employer may be liable for the payment under section 4980H of the Code, and that the employer has a right to appeal this determination. Because this notice will be sent to an employer at the address as provided by an application filer on the application, we anticipate all of these notices will be sent by mail. As a result, we estimated the associated mailing costs for the time and effort needed to mail notices in bulk to employers. Like the eligibility notice, the employer notice above will be developed and programmed into the eligibility system. However, unlike the eligibility notice, we expect the information on the employer notice to be minimal in comparison to the eligibility notice and therefore the burden on the Exchange to develop the notice to be substantially less. Further, as with the individual eligibility notice, HHS will provide model

notice text for Exchanges to use in developing this notice.

To develop this notice, Exchange staff time would include learning the eligibility process and drafting notice text. A peer analyst, manager, and/or legal counsel would review the notice. The Exchange would then engage in user testing, along with review and editing to incorporate changes and ensure compliance with plain writing, language access, and readability standards. Finally, a developer would program the final notice into the eligibility system so that it can be populated and generated as the applicant moves through the eligibility process.

We expect that 18 State-based Exchanges will be subject to this requirement. We estimate that this notice development as outlined in the paragraph above will take each Exchange an estimated 97 hours in the first year, with a cost burden of approximately \$5,304 per Exchange and a total cost of \$95,472 for 18 Exchanges. We expect that the burden on the Exchange to maintain this notice will be significantly lower than to develop it.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	69	\$3,405	
Attorney	1	\$90.14	10	\$901	
Senior Manager	1	\$79.08	2	\$158	
Computer Programmer	1	\$52.50	16	\$840	
Total			97	\$5,304	\$95,472

We believe it is difficult to estimate the number of employer notices that will be sent as it requires an estimate of the number of individuals who will be determined eligible for advance payments of the premium tax credit who will be employed. We therefore provide an estimate of the cost to print and mail each notice below.

	Number of Notices	Printing/Mailing Costs per notice	Total Burden Cost (per notice)
Printing/Mailing	1	\$.50	\$.50

D. Verification process related to eligibility for enrollment in a QHP through the Exchange (§155.315)

The primary burden associated with the verification process includes the written agreements necessary for data sharing between the Exchange and HHS in order for Exchanges to access the data maintained in Federal data sources, as well as with other State agencies to access data maintained by such entities. We estimate the time and effort necessary for the Exchange to create new agreements with HHS and other State agencies or entities for the collection of this information. We expect that 18 State-based Exchanges will be subject to this requirement. We estimate it will take a State an average of 105 hours to create new agreements. This includes a mid-level health policy analyst drafting the agreement with managerial oversight and comprehensive review of the agreement as well as operations work completed by an operations analyst. For all 18 Exchanges, we expect a total hour burden in the first year of 1,890 hours, and a cost of \$6,733 per Exchange, for a total cost of \$121,194 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (per year)
Health Policy Analyst	1	\$49.35	35	\$1,727	\$88,096
Operations Analyst	1	\$54.45	35	\$1,906	\$97,200
Attorney	1	\$90.14	30	\$2,704	\$137,920
Senior Manager	1	\$79.08	5	\$395	\$20,166
Total			105	\$6,733	\$121,194

In addition to the agreements necessary to support §155.315, we expect there to be no transactional burden associated with the electronic transactions needed to implement §155.315

and §155.320. As these transmission functions will all be electronic, we do not expect for there to be any additional burden than that which is required to design the overall eligibility and enrollment system. Those costs are described in the section detailing capital costs.

Section 155.315(f) outlines the process for resolving inconsistencies identified through the verification process. We anticipate that the Exchange eligibility system will be able to process most applications in an automated fashion and that only the more complex cases will necessitate the resolution of inconsistencies through an offline process. For these cases, the manual adjudication of documentation submitted by an individual to the Exchange will be necessary. Given the fact that the Exchange eligibility process is entirely new and involves the use of new electronic data sources in combination with a new application, it is not possible to provide estimates for the number of applicants for whom we expect to have an inconsistency. However, we anticipate that this number will decrease as applicants become more familiar with the eligibility process, as more data become available electronically, and as customer service resources evolve based on experience.

In §155.315(f)(2)(i), we specify that the Exchange will provide notice to an applicant regarding any inconsistencies identified through the verification process. This notice of inconsistency is a part of the notice in §155.310(g), and so we do not include a separate burden estimate here.

Section 155.315(f)(2)(ii) provides that in the case of an inconsistency that cannot be resolved through action by the Exchange, the Exchange must request that the individual provide satisfactory documentation or otherwise resolve the inconsistency. Our estimates below reflect the time and cost for an individual to collect information and provide it to the Exchange, as well as time needed for eligibility support staff (occupation no. 43-4061) to review the

documentation. For the reasons noted above, we are unable to estimate the number of individuals who will receive such a notice. We expect that this will take an individual one hour to gather the relevant documentation, five minutes to upload or mail the relevant documentation, and 12 minutes for eligibility support staff to review the documentation, which reflects our expectation that each individual who is required to submit documentation will submit approximately 2 documents for review. Our estimate that it will take an individual one hour to gather the relevant documentation depends on whether or not the individual already has the necessary documentation on hand, or whether the documents are unavailable and the individual needs to spend additional time to gather the documentation. As such, it could take significantly less time if an individual already had the documents on hand, or potentially more time if certain documents were unavailable at the time an individual needed to resolve an inconsistency.

	Number of Individuals /Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per individual)
Individual	1	--	1	--
Eligibility Support Staff	1	\$28.66	.20	\$5.73
Total	2		1.2	\$6

Section 155.315(f)(5)(i) provides that if after that the period described in paragraph (f)(2)(ii) of this section, the Exchange remains unable to verify the applicant’s attestation, the Exchange must determine the applicant’s eligibility based on the information available from the data sources specified in subpart D, unless such applicant qualified for the exception for special circumstances under paragraph (g) of this section, and notify the applicant of such determination in accordance with the notice requirements specified in §155.310(g), including notice that the Exchange is unable to verify the attestation. We do not include a separate burden estimate for this notice because the burden for this notice is described and accounted for in §155.310(g).

E. Verification process related to eligibility for insurance affordability programs (§155.320)

Section 155.320(c)(3)(iv) outlines standards for the notice described in paragraph (c)(3)(vi)(E) and (c)(3)(vi)(F) provided at the end of the inconsistency period for inconsistencies related to income. We do not include a separate burden estimate for this notice because the burden for this notice is described and accounted for in §155.310(g).

Section 155.320(d) proposes the process for the verification of enrollment in an eligible employer-sponsored plan and eligibility for qualifying coverage in an eligible employer-sponsored plan. Paragraph (d)(2) proposes the data sources the Exchange will use to verify access to employer-sponsored coverage. This will involve the development and execution of data sharing agreements; however, this burden is already captured in the data sharing agreements described in §155.315. As these data exchanges will be electronic, we do not expect for there to be any additional burden than that which is required to design the overall eligibility and enrollment system.

Paragraph (d)(3) proposes applicable verification procedures. Paragraph (d)(3)(ii) specifies that if an applicant's attestation is not reasonably compatible with the information specified in paragraphs (d)(2)(i) through (d)(2)(iii) of this section, other information provided by the application filer, or other information in the records of the Exchange, the Exchange must follow the procedures specified in §155.315(f) of this subpart. Consequently, the burden associated with this is captured in the section describing §155.315(f). Paragraph (d)(3)(iii) proposes that when specified as needed to resolve verification issues, the Exchange will select a statistically significant sample of individuals and provide notice to them indicating that the Exchange will be contacting any employer identified on the application for the applicant and the members of his or her household to verify whether the applicant is enrolled in an eligible

employer-sponsored plan or is eligible for qualifying coverage in an eligible employer-sponsored plan for the benefit year for which coverage is requested. The burden associated with this notice is addressed in 155.310(g) as this will not be a separate notice, but incorporated into the eligibility determination notice described in the above paragraph.

In paragraph (d)(3)(iii)(D), we propose that for the statistically significant sample, the Exchange make reasonable attempts to contact any employer identified on the application for the applicant and the members of his or her household to verify whether the applicant is enrolled in an eligible employer-sponsored plan or is eligible for qualifying coverage in an eligible employer-sponsored plan for the benefit year for which coverage is requested. It is difficult to estimate the burden associated with this information collection as the calculation involves identifying the number of individuals for whom data will be unavailable. As such, below, we estimate the time and cost associated with the Exchange making a reasonable attempt to contact one employer.

	Number of Individuals /Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per individual)
Employer	1	--	1	--
Eligibility Support Staff	1	\$28.66	1.20	\$34.39
Total	2		2.2	\$34.39

In paragraph (d)(3)(iii)(E), we propose that if the Exchange receives any information from an employer relevant to the applicant’s enrollment in an eligible employer-sponsored plan or eligibility for qualifying coverage in an eligible employer-sponsored plan, the Exchange will determine the applicant’s eligibility based on such information and in accordance with the effective dates. If such information changes his or her eligibility determination, the Exchange will notify the applicant and his or her employer or employers of such determination in

accordance with the notice requirements specified in 155.310(g) and (h) of this subpart. The burden associated with this provision is the time and effort necessary to notify the applicant and his or her employer if information from an employer changes the applicant’s eligibility. The time and effort associated with this provision is accounted for in the estimate discussed in 155.310(g) and (h) of this subpart.

F. Eligibility redetermination during a benefit year (§155.330)

Section 155.330(b) provides that the Exchange specify that an individual will report changes that affect his or her eligibility for enrollment in a QHP and insurance affordability programs within 30 days of such change. Upon receipt of changes reported by an individual, §155.330(c) provides the Exchange will verify the information in accordance with the standards described in §155.315 and §155.320.

In §155.330(b)(1), we specify that except as specified in paragraphs (b)(2) and (b)(3) of this section, the Exchange must require an enrollee to report any change with respect to the eligibility standards specified in §155.305 within 30 days of such change. Our estimates reflect the time that it would take for an enrollee to collect and report to the Exchange any information related to a change that impacts their eligibility. Enrollees will be permitted to submit changes via phone, mail, in person, or electronically. We expect that a majority of enrollees will electronically report changes to the Exchange. As such, we estimate that it will take an enrollee ten minutes on average to report a change to the Exchange. The burden associated with the collection and processing of any documentation that is needed to support reported changes is accounted for in the estimate for §155.330(c)(1).

	Number of Individuals	Hourly Labor Costs	Burden Hours	Total Burden Costs (per
--	-----------------------	--------------------	--------------	-------------------------

				change)
Individual	1	--	.16	--
Total			.16	--

In §155.330(c)(1), we state that the Exchange will verify any information reported by an enrollee in accordance with the processes specified in §§155.315 and 155.320 prior to using such information in an eligibility redetermination. It is not possible at this time to provide estimates for the number of applicants for whom a reported change will necessitate the adjudication of documentation, but we anticipate that this number will decrease as applicants become more familiar with the eligibility process and as more data become available. As such, we note that the burden associated with this provision is one hour for an individual to collect and submit documentation, and 12 minutes for eligibility support staff to review the documentation.

	Number of Individuals / Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per inconsistency)
Individual	1	--	1	--
Eligibility Support Staff	1	\$28.66	.2	\$5.73
Total	1		1.2	\$6

In §155.330(c)(2), we describe the that the Exchange will provide periodic electronic notifications regarding the requirements for reporting changes and an enrollee’s opportunity to report any changes as described in paragraph (b)(3) of this section, to an enrollee who has elected to receive electronic notifications, unless he or she has declined to receive notifications under this paragraph. We expect that 18 State-based Exchanges will be subject to this requirement. For each Exchange, we estimate that it will take 21 hours total, 20 hours for an operations analyst to integrate this electronic notification into the Exchange eligibility system, and one hour for a computer programmer to program the electronic notifications into the

eligibility system. We estimate a cost burden of \$1,040 per Exchange and a total cost of \$53,015 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Operations Analyst	1	\$49.35	20	\$987	
Computer Programmer	1	\$52.50	1	\$52	
Total	2		21	\$1,040	\$53,015

In §155.330(d), we describe that the Exchange will periodically examine available data sources described in §155.315(b)(1) and §155.320(b) to identify changes related to death and eligibility determinations for Medicare, Medicaid, CHIP, or the BHP, if a BHP is operating in the service area of the Exchange for an applicant on whose behalf advance payments of the premium tax credit or cost-sharing reductions are being provided. The Exchange will develop electronic data exchanges to support obtaining this information in order to determine the applicant’s eligibility at the point of application and reuse those data exchanges here. Consequently, we do not expect there to be additional burden associated with those data exchanges for the purposes of this paragraph.

In §155.330(e), we describe the redetermination and notification procedures for changes reported by enrollees or identified by the Exchange. Section 155.330(e)(1) states that if the Exchange verifies updated information reported by an enrollee, the Exchange will redetermine the enrollee’s eligibility in accordance with the standards specified in §155.305, notify the enrollee regarding the determination in accordance with the requirements specified in §155.310(g), and notify the enrollee’s employer, as applicable, in accordance with the requirements specified in §155.310(h). The burden for this notice is identical to the burden

associated with the eligibility notice described in §155.310(g). Similarly, we do not include a separate burden estimate here for the notice to the enrollee's employer because the burden for this notice is described and accounted for in §155.310(h). Section 155.330(e)(2) describes that the Exchange will notify an enrollee if it identifies updated information through periodic data matching, and dependent upon the response, will redetermine the enrollee's eligibility or if necessary proceed with the inconsistency process in §155.315(f). We do not include a separate burden estimate for this notice because we expect that the burden associated with creating and sending this notice will be similar to that of the annual redetermination notice, which is discussed in §155.335 below. Furthermore, the burden on an enrollee to notify the Exchange that such information is potentially inaccurate is the same as that in relation to reporting changes as described in §155.330(b), and the burden estimate related reviewing the response and the inconsistency process is explained above in §155.315(f). We are unable to estimate the number of notices that will be sent based on this provision for the reasons stated previously, along with the fact that it is not possible to determine the share of individuals who will enroll in a QHP with advance payments and then gain eligibility for another insurance affordability program and not report it to the Exchange.

G. Annual eligibility redetermination (§155.335)

Section 155.335 outlines the annual redetermination process and provides that the Exchange will redetermine the eligibility of a qualified individual on an annual basis. In §155.335(c) we propose that the Exchange will provide a qualified individual with an annual redetermination notice including the qualified individual's projected eligibility determination for the following year, and if applicable, the amount of any advance payments of the premium tax credit and the level of any cost-sharing reductions or eligibility for other insurance affordability

programs. The burden associated with this requirement is the time and effort necessary for Exchanges to develop and automate the annual redetermination notice and perform associated record keeping. In accordance with 155.335(d), we expect the annual redetermination notice be sent along with the notice of annual open enrollment as specified in 155.410(d), as a single, coordinated notice. We anticipate that the majority of applicants will request electronic notification while others will receive the notice by mail. As a result, we estimated the associated mailing costs for the time and effort needed to mail notices in bulk to enrollees as appropriate.

To develop this notice, Exchange staff will learn the eligibility process and draft appropriate notice text. A peer analyst, manager, and/or legal counsel will review the notice. The Exchange staff would then conduct user testing, and engage in review and editing to incorporate changes, and to ensure compliance with plain writing, language access, and readability standards. The Exchange staff would also coordinate the text of the notice with other insurance affordability programs. Finally, a developer would program the notice template into the eligibility system so it can be incorporated into the streamlined eligibility process.

We provide estimates for an Exchange to develop this notice, and assume that it will not vary significantly by Exchange. We estimate that this notice development as outlined in the paragraph above would take each Exchange an estimated 100 hours in the first year, at a cost of \$5,971 and a total cost of \$107,478 for 18 State-based Exchanges. We expect that this cost will decrease significantly after the first year of development as the costs incurred will be for maintenance. We also note that HHS intends to provide model notice text that should limit Exchange burden.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	44	\$2,171	
Attorney	1	\$90.14	20	\$1,803	
Senior Manager	1	\$79.08	4	\$316	
Computer Programmer	1	\$52.50	32	\$1,680	
Total			100	\$5,971	\$107,478

We believe it is difficult to estimate the number of redetermination notices that will be sent as it requires an estimate of the number of individuals who will be determined eligible for enrollment in a QHP through the Exchange. We therefore provide an estimate of the cost to print and mail one redetermination notice below.

	Number of Notices	Printing/Mailing Costs per notice	Total Burden Cost (per notice)
Printing/Mailing	1	\$.50	\$.50

Section 155.335(e) provides that the Exchange will require a qualified individual to report any changes with respect to the information listed in the notice described in §155.335 (c) of this section within 30 days from the date of the notice. We specify in §155.335(e)(2) that the Exchange will allow a qualified individual or an application filer, on behalf of the qualified individual, to report changes via the channels available for the submission of an application. Similar to the estimate in §155.330(b)(1), our estimates reflect the time that it would take for a qualified individual to collect information related to a change that impacts their eligibility, as well as the time it would take to report these changes to the Exchange. We expect that a large volume of changes would be reported electronically by qualified individuals. We expect that it

will take an enrollee ten minutes to report a change to the Exchange. The burden associated with the collection and processing of any documentation that is needed to support reported changes is accounted for in the estimate for §155.335(f).

	Number of Individuals /Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per change)
Individual	1	--	.16	--
Total			.16	--

Section 155.335(f) states that the Exchange will verify any information reported by an enrollee with respect to their annual eligibility redetermination in accordance with the processes specified in §§155.315 and 155.320 prior to using such information to determine eligibility. It is not possible at this time to provide estimates for the number of applicants for whom a change reported will necessitate the adjudication of documentation, but we anticipate that this number will decrease as applicants become more familiar with the eligibility process and as more data become available. As such, for now, we note that the burden to process documentation associated with an inconsistency that arises as a result of an annual eligibility redetermination is one hour for an individual to collect and submit documentation, and 12 minutes for eligibility support staff to review the documentation.

	Number of Individuals / Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per inconsistency)
Individual	1	--	1	--
Eligibility Support Staff	1	\$28.66	.2	\$5.73
Total			1.2	\$6

Section 155.335(g) provides that the Exchange will require a qualified individual, or an application filer, on behalf of the qualified individual, to sign and return the annual

redetermination notice. Our estimates reflect the time that it would take for a qualified individual, or an application filer on behalf of the qualified individual to sign and return the form to the Exchange. We expect that a large volume of individuals will sign and return the form electronically, but a qualified individual will also be permitted to sign the form via phone, mail, or in person. The burden for this collection also includes the time necessary for eligibility support staff to process any forms submitted via mail. We expect that this process will take one individual one hour to submit the form, and for an individual who submits the form via mail, it will also take 12 minutes for eligibility support staff to handle intake. For those individuals that complete this process through paper, we estimate a cost burden per individual of \$6. We note that to the extent that an individual is reporting a change in response to the annual redetermination notice, the change report would likely be consolidated with the response to the notice described in this paragraph.

	Number of Individuals/ Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per respondent)
Individual	1	--	1	--
Eligibility Support Staff	1	\$28.66	.2	\$5.73
Total			1.2	\$5.73

Section 155.335(h)(1)(ii) provides that after the 30-day period for an individual to report changes and/or sign and return the redetermination notice, the Exchange will notify a qualified individual in accordance with the requirements specified in §155.310(g) and notify his or her employer, as applicable, in accordance with the requirements specified in §155.310(h). We expect that the burden associated with this requirement is identical to the burden estimates associated with §155.310(g) and §155.310(h), and is thus already incorporated in the estimates provided for those provisions. In section 155.335(k) we provide that the Exchange must have

authorization from a qualified individual to obtain updated tax return information for the purposes of conducting an annual redetermination. The burden associated with this information collection is included in the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children's Health Insurance Program Agencies (CMS-10440).

Section 155.335(l) provides that if the Exchange does not have an active authorization from a qualified individual to obtain updated tax information for use in the annual redetermination process, the Exchange must notify the qualified individual in accordance with the timing described in paragraph (d) of this section, and redetermine his or her eligibility for enrollment in a QHP through the Exchange. This notice is in place of the regular annual redetermination notice, and as such, the burden associated with this requirement is included in the burden estimate associated with 155.335(c).

H. Administration of advance payments of the premium tax credit and cost-sharing reductions (§155.340)

This section specifies that the Exchange will provide the relevant information related to enable advance payments of the premium tax credit and cost-sharing reductions, reconciliation of advance payments of the premium tax credit, and employer responsibility. As these reporting functions will all be electronic, we do not expect for there to be any additional burden than that which is required to design the overall eligibility and enrollment system outside of the requirements in section 155.340(b)(3)(ii).

Section 155.340(b)(3)(ii) states that in the event that an individual for whom advance payments of the premium tax credit are made or who is receiving cost-sharing reductions terminates coverage from a QHP through the Exchange during a benefit year, the Exchange will

transmit the individual’s name and the effective date of the termination of coverage to his or her employer. We anticipate that this burden on this transmission will be identical to that of §155.310(h).

We estimate that this development as outlined in the paragraph above will take each Exchange an estimated 97 hours in the first year, with a cost burden of approximately \$5,304 per Exchange and a total cost of \$95,472 for 18 Exchanges. We expect that the burden on the Exchange to maintain this process will be significantly lower than to develop it.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	69	\$3,405	
Attorney	1	\$90.14	10	\$901	
Senior Manager	1	\$79.08	2	\$158	
Computer Programmer	1	\$52.50	16	\$840	
Total			97	\$5,304	\$95,472

We believe it is difficult to estimate the number of employer notices that will be sent as it requires an estimate of the number of individuals who will be employed and then terminate coverage after receiving advance payments of the premium tax credit or cost-sharing reductions. We therefore provide an estimate of the cost to print and mail each notice below.

	Number of Notices	Printing/Mailing Costs per notice	Total Burden Cost (per notice)
Printing/Mailing	1	\$.50	\$.50

Section 155.340(c) states that the Exchange must comply with the requirements specified under section 36B of the Code to provide information related to reconciliation of advance payments of the premium tax credit, and as this is an IRS requirement, consequently IRS will account for this burden.

I. Coordination with Medicaid, CHIP, the Basic Health Program, and the Pre-existing Condition Insurance Plan (§155.345)

Section 155.345(a) specifies that Exchanges will enter into written agreements with agencies administering other insurance affordability programs. These agreements will include provisions necessary to minimize burden on individuals, ensure prompt determinations of eligibility and enrollment in the appropriate program without undue delay, and to provide standards for transferring an application from an insurance affordability program to the Exchange. Agencies will also develop MOUs to outline responsibilities and coordinate between insurance affordability programs. The specific number of agreements needed may vary depending on how States choose to divide responsibilities regarding eligibility determinations.

The burden associated with this provision is the time and effort necessary for the Exchange to establish or modify an agreement for eligibility determinations and coordination of eligibility and enrollment functions. If a State chooses to draft separate agreements for each insurance affordability program or a subset of insurance affordability programs, then the estimate would likely increase. We estimate it will take each Exchange an average of 105 hours to create new agreements per state. This includes a mid-level health policy analyst and an operations analyst developing the agreement with managerial oversight and comprehensive review of the agreement by an attorney and a senior manager. We estimate a cost burden of \$6,733 per Exchange and a total cost of \$121,194 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Cost (18 Exchanges)
Health Policy Analyst	1	\$49.35	35	\$1,727	
Operations Analyst	1	\$54.45	35	\$1,906	
Attorney	1	\$90.14	30	\$2,704	
Senior Manager	1	\$79.08	5	\$395	

Total			105	\$6,733	\$121,194
-------	--	--	-----	---------	-----------

Section §155.345(c) specifies that an Exchange must provide an applicant with the opportunity to request a full determination for Medicaid. We do not include a separate burden estimate for this notice because the burden for this notice is described and accounted for in §155.310(g).

Section §155.345(d) specifies standards in the case where the Exchange identifies an applicant as potentially eligible for Medicaid or an applicant requests a full determination for Medicaid. In paragraph (d)(1), we specify that in such a situation, the Exchange will transmit all information provided on the application and any information obtained or verified by the Exchange to the State Medicaid agency. In paragraph (d)(2), we specify that the Exchange will notify the applicant of such transmittal. Because information will be transmitted electronically and through interfaces that will exist for other purposes, we do not account for any additional burden for paragraph (d)(1) and only account for the burden of sending the notice to the applicant as described in paragraph (d)(2). We expect that the burden associated with this requirement is identical to the burden estimates associated with §155.310(g), and is thus already incorporated in the estimate provided for that provision.

Section 155.345(f) specifies that the Exchange will provide the applicant with any information regarding income used in the Medicaid and CHIP eligibility determination for the special rule described in this paragraph. We do not include a separate burden estimate for this notice because the burden for this notice is described and accounted for in §155.310(g).

J. Special eligibility standards and process for Indians (§155.350)

Section 155.350(c) specifies that the Exchange will verify an attestation by an applicant that he or she is an Indian to the extent that the approved data sources are unavailable, an

individual is not represented in available data sources, or data sources are not reasonably compatible with an applicant's attestation through the inconsistency procedures specified in §155.315(f) As we have already accounted for this burden above, we are not including a separate burden estimate for this provision.

K. Right to Appeal (§155.355)

Section 155.355 provides that the Exchange must include the notice of the right to appeal and instructions regarding how to file an appeal in the eligibility determination notice. We do not include a separate burden estimate for this notice because the burden for this notice is described and accounted for in §155.310(g).

Subpart E –Exchange Functions in the Individual Market

A. Enrollment of Qualified Individuals into QHPs.

In Part 155, subpart E of the Exchange final rule, we describe the requirements for Exchanges in connection with enrollment and disenrollment of qualified individuals through the Exchange. Section 155.400(a) requires Exchanges to notify QHP issuers of an applicant's selected QHP and transmit any information necessary to enroll the applicant. Section 155.400(b) requires Exchanges to send eligibility and enrollment information to QHP issuers and to HHS promptly, without undue delay. Additionally, Exchanges are required to establish a process by which a QHP issuer acknowledges receipt of the eligibility and enrollment information. We expect that all plan selection, eligibility and enrollment information will be maintained electronically by Exchanges, QHP issuers and HHS alike. We expect the transmission of such data to be fully automated. As a result, we expect that most of the burden will initial reflect programming of the enrollment feeds to QHP issuers and HHS. These costs are reflected in the capital costs of building enrollment systems.

In addition to the IT development, we estimate that 18 State-based Exchanges are subject to these reporting requirements. This estimate is an upper bound of burden. We estimate that it will take 142 hours for an Exchange to meet these reporting requirements for a total of 2,556 hours for a total cost of \$136,314 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs (Hourly rate + 35% Fringe benefits)	Burden Hours	Total Burden Costs (per respondent)	Total Burden Costs (all respondents)
Health Policy Analyst	1	\$58.05	10	\$581	
Computer Programmer	1	\$52.50	100	\$5,250	
Operations Analyst	1	\$54.45	32	\$1,742	
Total			142	\$7,573	\$136,314

Section 155.400(c) of the Exchange final rule specifies that Exchanges must maintain records of all enrollments in QHPs through the Exchange. The information will be used to make sure that the Exchange has up to date information on the individuals covered through the Exchange and to ensure that individuals are not covered by more than one QHP. It is expected that the information will be maintained in an electronic data system. We expect that most of the burden will reflect programming to retain enrollment information on the Exchange's electronic data system. We estimate that 18 State-based Exchanges will be subject to these reporting requirements. This estimate is an upper bound of burden. We estimate that it will take 142 hours for an Exchange to meet these record requirements for a total of 2,556 hours for a total cost of \$136,314 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs (Hourly rate + 35% Fringe benefits)	Burden Hours	Total Burden Costs (per respondent)	Total Burden Costs (all respondents)
Health Policy Analyst	1	\$58.05	10	\$580.50	

Computer Programmer	1	\$52.50	100	\$5,250	
Operations Analyst	1	\$54.45	32	\$1,742	
Total			142	\$7,573	\$136,314

Section 155.400(d) states that Exchanges must reconcile enrollment information with QHP issuers and HHS on no less than a monthly basis. The purpose of reconciling enrollment information between the Exchange and the QHP issuers and HHS is to ensure that both entities have accurate records of the number of enrollees and persons enrolled in each QHP. It is expected that the information will be maintained in an electronic data system. We estimate that it will take 27 hours per month for an Exchange to reconcile information, for a total of 1,296 hours per month across 18 State-based Exchanges. We estimate that it will take 324 hours for each Exchange to reconcile information over the course of a year if information is reconciled on a monthly basis. This estimate is similar to estimates provided by Medicare Part D in their rule on data submissions. For example, Medicare Part D estimated that it would take plan sponsors approximately 10 hours annually for plan sponsors to submit data on aggregated negotiated drug pricing from pharmaceutical companies described in §423.104. We provided a higher estimate for the submission of data due to the complexity of enrollment data.

Labor Category	Number of Employees	Hourly Labor Costs (Hourly rate + 35% Fringe benefits)	Burden Hours	Total Burden Costs (per respondent)	Total Burden Costs (all respondents)
Health Policy Analyst	2	\$58.05	144	\$8,359	
Computer Programmer	2	\$52.50	120	\$6,300	
Operations Analyst	1	\$54.45	60	\$3,267	
Total			324	\$17,926	\$322,668

As discussed in §155.405(a), the Exchange must use a single streamlined application to determine eligibility and to collect information necessary for enrollment. The application will

include information to determine eligibility of an applicant and process plan selection for enrollment in a qualified health plan through the Exchange and insurance affordability programs. The information will be required of each applicant upon initial application with subsequent information collections for the purposes of confirming accuracy of previous submissions or updating information from previous submissions. Information collection will start during initial open enrollment in October 2013. As indicated in §155.405(c)(2), the information will be submitted by the applicant to the Exchange through the internet, call center, in-person assistance, or a paper application. After collecting the information, the Exchange will either house the information in an Exchange data repository or purge the information after it is used to make an eligibility determination. At this time, HHS is currently developing the model single streamlined application for the States. A detailed estimate of the burden associated with this information collection was included in the Supporting Statement for Data Collection to Support Eligibility Determinations for Insurance Affordability Programs and Enrollment through Health Benefits Exchanges, Medicaid, and Children's Health Insurance Program Agencies (CMS-10440).

Section 155.405(b) states that Exchanges have the option of using an alternative application which includes information to determine the eligibility of an applicant and process plan selection for enrollment in a QHP and insurance affordability programs, as applicable. If the Exchange opts to use an alternative application, the Exchange must submit the alternative application to HHS for approval. The burden estimate associated with this requirement includes the time and effort needed to develop the alternative application and submit the application for approval by HHS. We believe that most Exchanges, in the interest of avoiding duplication of existing work, will choose to use the model single, streamlined application being developed by HHS. We assume that the number of Exchanges choosing to develop an alternate application will

be less than ten in a twelve month period. We will review each alternative application that is submitted to HHS and, if the number of Exchanges opting to use an alternative application approaches ten, then we will seek OMB approval.

B. Initial and Annual Open Enrollment Periods (§155.410)

As discussed in §155.410, the Exchange will provide written notice to each enrollee about annual open enrollment between September 1 and September 30 of each year, beginning in 2014. The notice will include the date of annual open enrollment and information regarding where individuals may obtain information about available QHPs. The Exchange will send the notice of annual open enrollment via mail or electronic means depending on the preference of the enrollee. In accordance with §155.335(c), we expect the notice of annual open enrollment as specified in §155.410(d), will be sent along with the annual redetermination notice as a single, coordinated notice. Therefore, the burden estimate associated with this requirement is described in §155.335(d).

C. Termination of Coverage (§155.430)

Section 155.430(c) requires Exchanges to retain and track coverage termination information, including information to identify the individuals terminating coverage, the date of coverage termination, and the reason for termination. The Exchange will collect and retain the coverage termination information. The Exchange will submit the coverage termination information to HHS. The information will help provide HHS an accurate record of enrollment in the Exchange, so that HHS can inform the IRS when to cease advance payments of premium tax credits. We expect that all termination information will be maintained electronically by Exchanges. We also expect the transmission of data to be automated. We estimate that it will take Exchanges less than one minute to transmit the termination information to HHS. We

anticipate a similar initial burden on Exchanges for establishing a system for automated tracking, maintenance and transmittal of termination information. The burden estimates associated with the maintenance and transmission of coverage termination information includes the time and effort needed to develop the system to collect and store the information. Additionally, the burden estimates includes the time and effort needed to develop an automated process to submit termination information when appropriate. We estimate that 18 State-based Exchanges will be subject to these reporting requirements. This estimate is an upper bound of burden. We estimate that it will take 30 hours of a health policy analyst at an hourly rate of \$58.05, 20 hours for a computer programmer at an hourly rate of \$52.50, and 20 hours from a operations analyst at an hourly rate of \$54.45 for a total of 70 hours annually and a total of 1,260 hours for the time and effort to meet this standard. We estimate a cost of \$3,881 for one Exchange and a total cost of \$69,858 for 18 State-based Exchanges.

Labor Category	Number of Employees	Hourly Labor Costs (Hourly rate + 35% Fringe benefits)	Burden Hours	Total Burden Costs (per respondent)	Total Burden Costs (all respondents)
Health Policy Analyst	1	\$58.05	30	\$1,742	
Computer Programmer	1	\$52.50	20	\$1,050	
Operations Analyst	1	\$54.45	20	\$1,089	
Total			70	\$3,881	\$69,858

Section 155.430(c) requires Exchanges to establish procedures for QHP issuers to maintain records of termination of coverage, and requires Exchanges to send termination information to the QHP issuer and HHS in accordance with §155.400(b). We expect that Exchanges and QHP issuers will manage termination records and related procedures the same way they do the enrollment records described in §155.400. We therefore do not estimate any additional burden for Exchanges to meet the requirements in §155.430.

Subpart H- Exchange Functions: Small Business Health Options Program (SHOP)

A. Exchange Functions: Small Business Health Options Program (SHOP) (§§155.715, 155.720, 155.725)

Subpart H of 45 CFR part 155 includes several notices that the SHOP Exchange will send to employers and employees in relation to their participation in the SHOP Exchange. We have included the data elements for the SHOP Exchange issued notices in Appendix A of this PRA package. We expect that the SHOP Exchange will send notices to employers and employees in paper or electronic format, in accordance with the preference of the recipient; further, as in the individual market Exchange, we anticipate that a large share of notices in the SHOP Exchange will be sent electronically. We estimate that the associated printing and mailing costs for paper notices will be approximately \$0.50 per notice; however, we do not have a reasonable way to estimate total printing and mailing costs for the SHOP Exchange due to uncertainty regarding the number of employers and employees who will choose to receive paper notices, as well as some uncertainty regarding the frequency of circumstances that will trigger notices in accordance with this part.

First, under §155.715, the SHOP Exchange will notify an employer of an eligibility determination, which will inform the employer of their eligibility to participate in the SHOP Exchange. This notice will include information such as instructions for plan and contribution elections, the deadline for making elections, appeal rights, and customer service contact information for the SHOP Exchange. Second, §155.725(d) provides that the SHOP Exchange provide employers with a notice of annual election period. This notice will include information about current plan and contribution election information, and will alert the employer about potential actions the employer may want to take. Third, §155.720(h) provides that the SHOP

Exchange provide employers with a notice of employee termination, which informs an employer if an employee has elected to terminate his or her coverage, including information about the date the employee elected to terminate and the effective date of the termination.

As it relates to employees of an employer participating in the SHOP Exchange, in §155.715, we provide that the SHOP Exchange send an eligibility determination notice to an employee. This notice will explain the employee's eligibility to enroll in a QHP through the SHOP Exchange. Second, if an employer withdraws from participation in the SHOP, the SHOP Exchange will provide a notice to the employer's employees, as described under §155.715(g). Lastly, the SHOP Exchange will provide a notice regarding the annual enrollment period to employees in accordance with §155.725(f). This notice will include information about current plan and contribution election information, and potential actions the employee may want to take related to renewing plans, change plans, and terminating enrollment.

We expect that the notices provided by the SHOP Exchange, and particularly the eligibility determination notices, will be dynamic and include information tailored to all possible outcomes for employers applying to participate in, or employees seeking coverage through, the SHOP Exchange. To develop the required notices, the SHOP Exchange staff will need to learn eligibility rules and draft notice text for various decision points, follow up, referrals, and appeals procedures. Similar to notices that will be issued by the individual market Exchange, we expect that for SHOP Exchange-issued notices, an analyst will develop text, and a peer analyst, manager, and legal counsel will review the notices, including a review to ensure compliance with plain writing, language access, and readability standards as required under §156.250(c). Finally, a developer will program the template notice into the eligibility system so that the notice may be populated and generated. Accordingly, we expect that the burden hours for creating each of the

above notices, including systems programming, will be similar to that which we estimate for the eligibility determination notice described under §155.310(g). However, we believe that the burden estimate described under §155.310(g) likely represents an upper bound estimate of the burden on the SHOP Exchange to develop these notices as in some cases the notice described under §155.310(g) will need to be somewhat more dynamic in order to address the additional eligibility criteria associated with eligibility for enrollment in a QHP and insurance affordability programs. Please see appendix A for the data elements that we expect to be included in the notices required under subpart H. We expect that the burden on the SHOP Exchange to maintain the notices will be significantly lower than to develop them.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	44	\$2,171	
Attorney	1	\$90.14	20	\$1,803	
Senior Manager	1	\$79.08	4	\$316	
Computer Programmer	1	\$52.50	32	\$1,680	
Total			100	\$5,971	\$107,478

Information Collections under Part 156

A. ICRs Regarding Notices to QHP Issuers (§§156.260, 156.265, 156.270, 156.290).

EMPLOYER INTERACTIONS WITH EXCHANGES AND SHOP PARTICIPATION will be manually generated by a human resources specialist42424242424242424242

45 CFR part 156 includes several notices that qualified health plan (QHP) issuers will send to qualified individuals and enrollees. We have included the data elements for these notices in Appendix A of this PRA package. As mentioned previously, we anticipate that a large share of enrollees will elect to receive electronic notices while the rest will receive notices by mail. We

believe that this will be the case for notices sent by the Exchange as well as notices sent by QHP issuers. We estimate that the associated printing and mailing costs for paper notices will be approximately \$0.50 per notice; however, we do not have a reasonable way to estimate total printing and mailing costs for issuers due to uncertainty regarding the number of individuals who will choose to receive paper notices, as well as some uncertainty regarding the frequency of circumstances that will trigger notices in accordance with this part.

First, section 156.260(b) provides that QHP issuers will notify a qualified individual of his or her effective date of coverage, in accordance with the effective dates of coverage established by the Exchange in accordance with §155.410(c) and (f). Second, under §156.270(b), QHP issuers will send a notice of termination of coverage to an enrollee if the enrollee's coverage in the QHP is being terminated in accordance with §155.430(b)(1)(i), (b)(2)(ii) or (b)(2)(iii).. Third, §156.270(f) provides that QHP issuers will provide enrollees with a notice about the grace period for non-payment of premiums. QHP issuers will send this notice to enrollees who are delinquent on premium payments. Fourth, §156.265(e) provides that QHP issuers will provide new enrollees with an enrollment information package, which we anticipate that issuers may combine with the notification of coverage effective date described in §156.260(b). Lastly, under §156.290(b), QHP issuers will provide a notice to enrollees if the issuer elects not to seek recertification of a QHP.

We anticipate that some of the above QHP issuer required notices are similar in nature to the notices that issuers currently send to enrollees. For example, it is standard practice for issuers to provide new enrollees with information about their enrollment in a plan, their effective date of coverage, and if and when their coverage is terminating. Accordingly, we anticipate that QHP issuers will review, update, and revise notice templates that they utilize currently as they work to

address the notice requirements described below and to ensure that the notices include the appropriate information. Similar to notices that will be issued by the Exchange, we expect that for QHP-issued notices, an analyst will develop text, and a peer analyst, manager, and legal counsel for the issuer will review the notices, including a review to ensure compliance with plain writing, language access, and readability standards as required under §156.250(c). Finally, a developer will need to incorporate programming changes into the issuer’s noticing system to account for the changes and updates that will be necessary to ensure that the QHP issuer is in compliance with the notice standards set forth in this rule and to ensure the notice can be populated and generated according to an individual’s preference to receive notices.

Accordingly, we expect that the burden hours for creating the above notices, including taking into account systems programming, will be similar to that which we estimate for the eligibility determination notice described under §155.310(g). However, we believe that the burden estimate described under §155.310(g) likely represents an upper bound estimate of the burden on issuers to develop each of these notices as in some cases the notice described under §155.310(g) will be somewhat more dynamic in order to address the additional information we expect to be included in that notice. We expect that the burden on the QHP issuers to maintain the notices will be significantly lower than to develop them.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)	Total Burden Costs (18 Exchanges)
Health Policy Analyst	2	\$49.35	44	\$2,171	
Attorney	1	\$90.14	20	\$1,803	
Senior Manager	1	\$79.08	4	\$316	
Computer Programmer	1	\$52.50	32	\$1,680	
Total			100	\$5,971	\$107,478

We estimate a total burden cost of \$87,105 for the notices described under part 156. Due to uncertainty regarding the number of individuals who will choose to receive paper notices, as well as some uncertainty regarding the frequency of circumstances that will trigger notices in accordance with this part, we have only included an estimate of the printing and mailing costs for a QHP issuer to send one notice to a qualified individual or enrollee.

	Number of Notices	Printing/Mailing Costs per notice	Total Burden Cost (per notice)
Printing/Mailing	1	\$.50	\$.50

Information Collections under Part 157

A. ICRs Regarding Notices and Third-Party Disclosures in the SHOP (§§157.205(e) and (f))

45 CFR part 157 includes several instances in which qualified employers participating in the SHOP Exchange will need to provide information to employees or to the SHOP Exchange. We include the data elements for these notifications in appendix A of this PRA package. For the individual market Exchange, we anticipate that a large share of enrollees will elect to receive electronic notices while the rest will receive notices by mail. We do not make this assumption for notices described here as we expect that qualified employers will provide notices to employees in whatever format the qualified employer usually provides notices to employees; in paper, electronically, or in a combination of both formats. We estimate that the associated printing costs for paper notices will be approximately \$0.10 per notice. We do not take mailing costs into consideration for notices provided by qualified employers, as we expect that if qualified employers provide notices in paper format, the employer may provide the employee with the notice in person, as opposed to mailing the notice. We do not have a reasonable way to estimate total printing costs for notices provided by qualified employers in the SHOP Exchange due to

uncertainty regarding the number of employees who will choose to receive paper notices, as well as some uncertainty regarding the frequency of circumstances that will trigger notices in accordance with this part.

First, §157.205(e) provides that a qualified employer provide an employee with information about the enrollment process. A qualified employer will inform each employee that he or she has an offer of coverage through the SHOP Exchange, and instructions for how the employee can apply for and enroll in coverage. We anticipate that the qualified employer will also provide information about the acceptable formats in which an employee may submit an application; online, on paper, or by phone, as described under §157.205(c). If the employee being offered coverage was hired outside an initial or annual enrollment period, the notice will also inform the employee if he or she is qualified for a special enrollment period. Second, in §157.205(f) we provide that a qualified employer will notify the SHOP Exchange regarding an employee's change in eligibility for enrollment in a QHP through the SHOP Exchange, including when a dependent or employee is newly eligible, or is no longer eligible.

We expect that the information that qualified employers will be providing to employees and the SHOP Exchange, as described above, will be somewhat standardized. Additionally, we anticipate that qualified employers will generate notices using a manual process. We expect that for notices that will be issued by qualified employers, a human resources specialist will develop the text, and a human resources manager and legal counsel will review the notices. We do not anticipate that a developer will be needed to develop the notices described in this part since we expect that in most cases, these notices will be manually generated on demand. We expect that the burden hours for developing each of the notices will be approximately 34 hours for each of the two notices that will be provided by a qualified employer. We expect that the burden on the

qualified employer to maintain the notices will be significantly lower than to develop the notices.

Labor Category	Number of Employees	Hourly Labor Costs	Burden Hours	Total Burden Costs (per Exchange)
Human Resources Specialist	1	\$40.68	20	\$814
Attorney	1	\$90.14	10	\$901
Human Resources Manager	1	\$75.01	4	\$300
Total			34	\$2,015

In total, we estimate \$4,030 in burden costs for the two notices described above.

13. Capital Costs

We anticipate that the majority of capital costs associated with these information collections, as well as the burden and costs associated with the transactions described in §155.315 and §155.320 related to verification, will be related to the implementing regulations found in Subparts D and E of the proposed rule that provide for a streamlined eligibility and enrollment system. To support this new eligibility structure, States seeking to operate Exchanges will build new or modify existing information technology systems. We believe that how each State constructs and assembles the components necessary to support its Exchange and Medicaid infrastructure will vary and depend on the level of maturity of current systems, current governance and business models, size, and other factors. Any administrative costs incurred in the development of information technology infrastructure to support the Exchange may be funded wholly through State Exchange Planning and Establishment Grants. The Federal government expects that these grants will fund the development of IT systems that can be used by many States who either develop their own Exchanges or who partner with the Federal government to provide a subset of Exchange services. Costs for information technology infrastructure that will also support Medicaid must be allocated to Medicaid, but are eligible for a

90 percent Federal matching rate to assist in development.^[1]

Table 1 includes estimates of grants from 2013 to 2017. We include estimated federal government payments and receipts related to grants for Exchange startup. States' initial costs due to the creation of Exchanges will be funded by these grants. Eligibility determination is a minimum function of the Exchange; therefore the Exchange costs to develop the infrastructure for the provisions included in this proposed rule are covered by these grant outlays.

Table 1. Estimated Total Outlays for the Affordable Insurance Exchanges FY 2013 - FY2017, in billions of dollars

Year	2013	2014	2015	2016	2017	2013-2017
Grant Authority for Exchange Start up ^a	1.5	2.1	1.7	0.8	0.2	6.2

^a FY 2014 President's Budget

Other administrative costs to support the streamlined and coordinated eligibility and enrollment process and the associated information collections will also vary for each State depending on the specific approaches taken, including how the State chooses to support the review of paper documentation and the resolution of eligibility and enrollment issues. We also believe that overall administrative costs may increase in the short term as States build information technology systems; however, in the long-term States will see savings through the use of more efficient systems and consolidation across programs.

14. Cost to Federal Government

We anticipate costs to the Federal government to include costs related to implementation of the federally-facilitated Exchange. As the FFE, costs related to implementation would be the same as the costs, described in the burden estimates for each State-based Exchange above and would vary depending on the number of states that opt to participate as an FFE.

^[1] Federal Funding for Medicaid Eligibility Determination and Enrollment Activities. Final Rule. April 19, 2011 [42 CFR Part 433, 75 FR 68583, pg 21950]

15. Changes to Burden

There are no changes to the burden. This is a new data collection.

16. Publication/Tabulation Dates

TBD

17. Expiration Date

Not Applicable

18. Certification Statement

There is no exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB Form 83-I.

Appendix A: Data Elements for Notices Under 45 CFR Part 155, Part 156, and Part 157

Data Elements for Eligibility Determination Notice (45 CFR 155.310(g))- Sent after the processing of an initial application, as well as after the processing of self-reported changes, or changes identified through periodic data matching or annual redetermination.		
<p>Household Contact Information – Name, address(es)</p>	<p>Eligibility Determination Information, For Each Applicant that applied together, if applicable- Eligibility determination or assessment for each applicant for enrollment in a QHP and insurance affordability programs, as applicable. Maximum APTC amount*, CSR category*, qualification for enrollment period for enrollment in a QHP*.</p> <p>If Exchange conducted an assessment for Medicaid/CHIP and individual is not assessed as potentially eligible for Medicaid or CHIP based on MAGI, information about withdrawal of application for Medicaid/CHIP and right to a full Medicaid determination* (45 CFR 155.302(b)(4))</p> <p>If an individual meets the criteria specified in 155.320(d)(3)(iii), an indication that the Exchange will be contacting the employers listed on the application for additional information.</p>	<p>Enrollment Information* – Instructions for QHP plan selection, deadline for plan selection based on enrollment period, information about online tools.</p> <p>If coverage in a QHP is being terminated, information regarding the termination reason and effective date.*</p> <p>If Exchange determined or assessed an applicant as eligible for Medicaid or CHIP, information regarding what steps the Medicaid/CHIP agency will take.</p>
<p>Customer Service Information – Contact information for the Exchange, information regarding Navigators and other customer service resources serving the applicant’s area, Medicaid and CHIP</p>	<p>Inconsistencies* - If an inconsistency exists for any applicant, the cause for the inconsistency, length of the inconsistency period, and directions for resolving inconsistency, including acceptable</p>	<p>Citation to regulation for action, including the reason for the action (45 CFR 155.230(a)(3))</p>

agency contact information* (45 CFR 155.230(a)(1))	documentation and information to assist Exchange in matching documentation to person (45 CFR 155.315(f)(2)(i))	
Right to request a full Medicaid determination (45 CFR 155.345(c))	Account transfer - If account is being transferred to Medicaid for a full determination* (45 CFR 155.345(d))	Reminder to report changes within 30 days of a change related to eligibility throughout the year* (45 CFR 155.330(b))
Appeal rights and instructions (45 CFR 155.355 and 155.230(a)(2))	Accessibility- Taglines in other languages for how to obtain assistance interpreting the notice, and information about availability and access to oral interpretation, written translation, and other services for individuals living with disabilities or who are limited English proficient (45 CFR 155.205(c))	Disclosure statement (45 CFR 155.260(iii) and (iv)) Instructions for how to receive electronic notices* (§155.230(d))
<u>Other Exchange Notices to Individuals</u>		
Pre-populated notice resulting from Periodic Data Matching (45 CFR 155.330(e)(2)(i) and (e)(3)(i)) – The updated information found about the individual, the projected eligibility determination, timeframe and instructions for how the individual can respond to the Exchange to confirm or refute the updated information found by the Exchange, includes additional data elements similar to those included in the eligibility determination notice identified previously (as applicable)		
Pre-Populated notice resulting from Annual Redetermination (45 CFR 155.335(c)) - The updated information found about the individual, projected eligibility determination, timeframe and instructions for how the individual can respond to the Exchange to refute the updated information found by the Exchange, in 2014 and beyond this notice includes information about the annual open enrollment period (45 CFR 155.410(d)), includes additional data elements similar to those included in the eligibility determination notice identified previously (as applicable)		
Employer Notice (45 CFR 155.310(h)) - Notice Unique ID, employer contact information, name of employee and that the employee qualified for APTC/CSR, Information about potential liability for the employer responsibility payment, appeal rights, contact information for the Exchange, disclosure statement, employee protections		
Electronic Reminder Notice (45 CFR 155.330(c)(2)) – Notice Unique ID, reminder to report changes about information related to eligibility standards, includes additional data elements		

similar to those included in the eligibility determination notice identified previously (as applicable)
Notice of Decertification and SEP (45 CFR 155.1080(e)) – Notice Unique ID, Plan ID/information, primary subscriber/contact information and identification of other policy members/enrollees affected by the decertification, effective dates, qualification for a special enrollment period, includes additional data elements similar to those included in the eligibility determination notice identified previously (as applicable)
<u>Notices Sent by QHP Issuers to Individuals</u>
Notice of Grace Period for Non-Payment of Premium (45 CFR 156.270(f)) – Notice Unique ID, Plan ID/Information, primary subscriber/contact information and identification of other policy members/enrollees affected by the non-payment, information about the non-payment and 90-day grace period including dates of the period, amount of unpaid premiums, that the grace period does not reset, implications of not having coverage (i.e., individual responsibility requirement, inability to get special enrollment period/enroll until next open enrollment period), customer service contact information
Termination of Coverage (45 CFR 156.270(b)) - Notice Unique ID, Plan ID/Information, primary subscriber/contact information and identification of other policy members/enrollees affected by the termination, reason for the termination, effective dates, implications of not having coverage (i.e., individual responsibility requirement, inability to get special enrollment period/enroll until next open enrollment period, customer service contact information)*, customer service contact information
Notification of effective date (45 CFR 156.260(b))– Household contact/primary subscriber information, qualified individual’s effective date of coverage, customer service contact information (<i>may be combined with enrollment information package</i>)
Enrollment information package (45 CFR 156.265(f)) – Welcome package about individual’s enrollment, information regarding how to access covered services, customer service contact information
Plan decertification notice (45 CFR 156.290(b)) – Unique ID, plan ID/Information, primary subscriber/contact information and identification of other policy members/enrollees affected by the decertification, effective dates, implications of not having coverage (i.e., individual responsibility requirement, inability to get special enrollment period/enroll until next open enrollment period), if the individual can choose to remain enrolled in the QHP outside of the Exchange (without APTC/CSR), customer service contact information
<u>Appointment of Authorized Representative Form</u>
Appointment of Authorized Representative Form (§155.227(a)) – Name, address, phone number, email address, date of birth, and relationship.

SHOP Required Notices to Employers

Data Elements for Employer Eligibility Determination Notice (45 CFR 155.715)- Sent after the processing of an initial application, as well as after the processing of employer-reported changes or as part of annual redetermination

<p>Employer Contact Information – Name, address, account/unique ID</p>	<p>Eligibility Determination Information for the Employer if applicable- Determination of eligibility for the employer to participate in the SHOP (45 CFR 155.715(e)and 45 CFR 155.715(d)(1)(iv)(A))</p>	<p>Election Information – Instructions for plan and contribution election, deadline for election (based on effective date of coverage), information about online tools</p>
<p>Customer Service Information – Contact information for the Exchange, information regarding Navigators and other customer service resources serving the employer’s area</p>	<p>Inconsistencies* - If an inconsistency exists for any applicant, the cause for the inconsistency, length of the inconsistency period, and directions for resolving inconsistency (45 CFR 155.715(d)(1)(ii))</p>	<p>Appeal rights and instructions (45 CFR 155.715(e))</p>
<p>Notice of annual election period -- Current plan and contribution election information, potential actions the employer may want to take – renew at same level, modify election, terminate participation (45 CFR 155.725(d))</p>		
<p>Notice of employee termination – Notification to the employer of an employee’s termination of coverage. Includes date employee elected to terminate and effective date of termination (45 CFR 155.720(h))</p>		

SHOP Required Notices to Employees

Data Elements for Employee Eligibility Determination Notice (45 CFR 155.715)- Sent at initial application, to confirm employee eligibility determination resulting from changes or annual redetermination

<p>Employee Contact Information – Name, address, account/unique ID</p>	<p>Eligibility Determination Information for the Employer if applicable- Eligibility determination of eligibility for the employee to enroll in coverage through the SHOP (45 CFR 155.715(f)and 45 CFR 155.715(d)(2)(iv))</p>	<p>Election Information – Instructions for plan and selection, deadline for enrollment (based on enrollment period length), information about online tools (if completed application on paper)</p>
<p>Customer Service Information – Contact information for the Exchange, information regarding Navigators and other customer service resources serving the employer’s area</p>	<p>Inconsistencies* - If an inconsistency exists for any applicant, the cause for the inconsistency, length of the inconsistency period, and directions for resolving inconsistency (45 CFR 155.715(d)(2)(ii))</p>	<p>Appeal rights and instructions (45 CFR 155.715(f))</p>

<p>Notice of employer withdrawal – Notification to the employee of its employer’s termination of participation in coverage. Includes date of termination of coverage (45 CFR 155.715(g) and information regarding other coverage options through the Exchange, as well as contact information for the Exchange and information regarding Navigators and other customer service resources serving the employee’s area</p>
<p>Notice of annual enrollment period - Current plan and contribution election information, potential actions the employee may want to take – renew plan, change plans, terminate enrollment (45 CFR 155.725(f))</p>
<p><u>Qualified Employer Required Notices to Employees</u></p>
<p>Notice of enrollment process – A qualified employer must inform each employee that they are being offered coverage through the SHOP and inform each employee of the instructions about how to enroll in health insurance coverage through the SHOP, including information about what formats the employee may submit an application: online, on paper, or by phone (45 CFR 157.205(c)). If the employee being offered coverage was hired outside an initial or annual enrollment period, the notice will include information about whether the employee may qualify for a special enrollment period (45 CFR 157.205(e))</p>
<p><u>Qualified Employer Required Notices to a SHOP</u></p>
<p>Notice of change in eligibility for coverage – A qualified employer must provide the SHOP with an update the application if an employee and his or her dependents have a change in eligibility status. For an employee, this consists of an application update including, the employee’s name, SSN, and DOB. For dependents, this is a yes/no question. Information submission may be completed online, by phone, or by paper (45 CFR 157.205(f))</p>

*Information will only be included in the notice if applicable.
