HOME VISITOR SURVEY – 12 MONTH

The U.S. Department of Health and Human Services has contracted with MDRC to evaluate the federal Maternal, Infant and Early Childhood Home Visiting program (MIECHV).

The Mother and Infant Home Visiting Program Evaluation (MIHOPE) is designed to build knowledge for policymakers and practitioners about the effectiveness of MIECHV.

One objective of MIHOPE is to learn about the role of home visitors in home visiting programs.

We are requesting that you complete this survey because you are a staff member in one of the home visiting programs participating in MIHOPE. Your answers will help us to understand your role in the home visiting program and your perspective on the home visiting program.

Your answers will be kept private to the extent allowed by law. Only the research team will have access to this information. Your answers will not be shared with anyone at your program or any other agencies. In our research reports, the information you provide will not be attributed by name to you or your individual program.

The survey will begin on the next page.

- It will take about 1 hour and 15 minutes to complete this survey.
- If you are unsure how to answer a question, please give the best answer you can rather than leaving it blank.
-
- If you have questions at any time during the study, please call MDRC toll-free at 1-877-305-6372 or email mihope@mdrc.org.
- To thank you, we will be sending you a gift card for \$30

J. PROGRAM OUTCOMES

Instructions: In this section, we would like to learn how *staff members* perceive their program’s intended outcomes. In general, a *program outcome* is a benefit to a child, parent, or family. For example, some programs might see the improvement of prenatal health as an important outcome.

Below is a list of possible outcomes for home visiting programs. We know your program may care about all of these benefits for your families. However, we would like to get a sense of which outcomes you think **your program** believes may be more important than others. We would like you to check the box that best represents what you think your program believes about the outcome.

To help you decide on an outcome’s rank, think about whether it is discussed routinely in training and supervision. Think about what staff in your agency are told about its importance. Check the box that best describes your program’s ranking of this outcome.

1. Considering all of the outcomes your program aims to achieve, how much of a priority is promoting good prenatal health, such as diet, exercise, rest, and not smoking?
