FY 2012 THSGP INVESTMENT JUSTIFICATION REFERENCE GUIDE OVERVIEW

OVERVIEW OF INVESTMENT JUSTIFICATION REFERENCE GUIDE

The *FY 2012 Tribal Homeland Security Grant Program (THSGP) Investment Justification (IJ) Reference Guide* provides applicants with an overview of the new FY 2012 THSGP Investment Justification (IJ) Template, clarification of IJ questions, and an overview of the scoring criteria against which the Investment questions will be evaluated. This Guide supplements the *FY 2012 Tribal Homeland Security Grant Program (THSGP) Funding Opportunity Announcement (FOA)* and the FY 2012 THSGP IJ Template.

GENERAL REMINDERS

The THSGP IJ Reference Guide is **only** a clarification document to provide additional information and helpful hints regarding the FY 2012 THSGP IJ Template. Eligible Tribes are **required** to use the Excel-based IJ Template for their FY 2012 THSGP IJ submission. The THSGP IJ Template can be found at <http://www.fema.gov/grants> or <http://www.grants.gov>. The THSGP IJ Template will be submitted as an attachment with the FY 2011 THSGP application submission in the ND Grants System.

THSGP applicants must self-certify if they meet the eligibility criteria as stated in the *Implementing Recommendations of the 9/11 Commission Act* within the THSGP Eligibility Certification Form as part of FY 2012 THSGP IJ. Any questions regarding an applicant's proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA).

Due to the competitive nature of the THSGP in FY 2012, applicants that have not received prior funding under THSGP between FY 2008 and FY 2011 will receive an extra five (5) points for each submitted Investment to their effectiveness score which impacts allocation determinations.

INVESTMENT JUSTIFICATION SUBMISSION

Applying for FY 2012 THSGP funds requires a two-step process. Step 1: initial submission to determine eligibility and Step 2: full application. Applicants are encouraged to initiate Step 1 immediately after the FOA is published but no later than **April 27, 2012**. This involves submitting a complete Standard Form 424 to grants.gov. Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions of Step 1 to grants.gov could result in applicants missing the application deadline in Step 2. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step 2 which involves submitting the full application package via the Non Disaster (ND) Grants system. The submission deadline for the full application package is **May 4, 2012**.

THE FY 2012 THSGP REFERENCE GUIDE IS A CLARIFICATION DOCUMENT ONLY

Final FY 2012 THSGP IJ Submission should use the THSGP IJ Template and be submitted through <https://portal.fema.gov>

The application must be completed and final submission made through the ND Grants system located at <https://portal.fema.gov>. If you need additional assistance registering for the ND Grants system, please contact FEMA's Enterprise Service Desk at (888) 457-3362. The ND Grants system includes the following required forms and submissions:

- Standard Form 424A, Budget Information (Non-construction)
- Standard Form 424B, Standard Assurances (Non-construction)
- Standard Form 424C, Budget Information (Construction)
- Standard Form 424D, Standard Assurances (Construction)
- Standard Form LLL, Disclosure of Lobbying Activities (if the grantee has engaged or intends to engage in lobbying activities)
- Grants.gov (GG) Lobbying Form, Certification Regarding Lobbying
- FEMA Form 20-16C, Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements
- FY 2012 THSGP Investment Justification Template (Office of Management and Budget [OMB] Control Number: 1660-0113/FEMA Form: 089-22)

Each THSGP IJ may contain up to **3** individual Investments. These Investments must account for all THSGP funds requested by the applicant. Only the information included in the IJ will be scored in the review process.

TRANSITION FROM TARGET CAPABILITIES TO CORE CAPABILITIES

Presidential Policy Directive 8: National Preparedness (PPD-8), signed on March 30, 2011, describes the Nation's approach to preparing for the threats and hazards that pose the greatest risk to the security of the United States. The objective of PPD-8 is to facilitate an integrated, all-of-Nation, risk informed, capabilities-based approach to preparedness. The core capabilities contained in the *National Preparedness Goal* (NPG) are the distinct critical elements necessary for our success. The core capabilities represent an evolution from the *Target Capabilities List* (TCL). The transition from TCL to core capabilities expands the focus to include mitigation and allows greater focus on prevention and protection activities. Unlike prior years, for FY 2012 THSGP, applicants will be required to align each Investment to the core capabilities within the NPG as supposed to target capabilities within the TCL.

Files and information on PPD-8 can be found at <http://www.fema.gov/ppd8>. Additionally, for a crosswalk of target capabilities to core capabilities, please refer to <http://www.fema.gov/pdf/prepared/crosswalk.pdf>.

SUMMARY OF THE IJ REVIEW AND SCORING PROCESS

Each Investment will be reviewed by peer reviewers and receive its own score. This *FY 2012 THSGP IJ Reference Guide* identifies sections of the individual Investment(s) that will be scored and what criteria reviewers will consider when scoring applicable sections. The scoring questions that reviewers will use during the review and scoring of Investments are derived from the "Helpful Hints and Tips" guidance.

THE FY 2012 THSGP REFERENCE GUIDE IS A CLARIFICATION DOCUMENT ONLY

Final FY 2012 THSGP IJ Submission should use the THSGP IJ Template and be submitted through <https://portal.fema.gov>

Reviewers will score Investments across four sections listed below:

- Overview (25%)
- Baseline (25%)
- Project Management and Milestones (25%)
- Accomplishments and Impact (25%)

After all Investments within an IJ have been scored, reviewers will provide consensus-based, constructive feedback on how applicants may be able to improve submitted Investments and/or future application submissions.

OVERVIEW OF THE SCORING CALCULATION PROCESS

The three steps below provide a description of how each applicant's individual Investment score(s) will be calculated:

- Reviewers score each of their assigned Investments
- Reviewers scores will be added and divided by the total number of reviewers that reviewed assigned Investments
- The mean Investment score is normalized and multiplied by 100

PARTICIPATING IN THE PEER REVIEW PROCESS

Tribes are encouraged to participate as volunteer reviewers in the FY 2012 peer review process. FEMA GPD seeks peer reviewers who are:

- Experienced professionals, including Native American Association leaders/members, with experience in Tribal relations as it relates to homeland security and/or emergency management
- Representative of a variety of disciplines relating to homeland security and/or emergency management
- Familiar with the peer review process

Participation in the process will provide reviewers the unique opportunity to gain insight into the evaluation process and to learn innovative ideas being utilized by their peers. Those interested in participating in the peer review process should contact the CSID. CSID can be reached by phone at (800) 368-6498 or by e-mail at askcsid@fema.gov, Monday through Friday, 9:00 a.m. – 5:30 p.m. EST.

APPENDIX A. PROJECT MANAGEMENT LIFECYCLE

The main steps and processes of the Project Management Lifecycle are summarized in the below table:

Steps	Description	Process
Initiate	The authorization to begin work or resume work on any particular activity.	Involves preparing for, assembling resources and getting work started. May apply to any level, e.g. program, project, phase, activity, task.
Plan	The purposes of establishing, at an early date, the parameters of the project that is going to be worked on as well as to try to delineate any specifics and/or any peculiarities to the project as a whole and/or any specific phases of the project.	Involves working out and extending the theoretical, practical, and/or useful application of an idea, concept, or preliminary design. This also involves a plan for moving a project concept to a viable project.
Execute	The period within the project lifecycle during which the actual work of creating the project's deliverables is carried out.	Involves directing, accomplishing, managing, and completing all phases and aspects of work for a given project.
Control	A mechanism which reacts to the current project status in order to ensure accomplishment of project objectives. This involves planning, measuring, monitoring, and taking corrective action based on the results of the monitoring.	Involves exercising corrective action as necessary to yield a required outcome consequent upon monitoring performance. Or, the process of comparing actual performance with planned performance, analyzing variances, evaluating possible alternatives, and taking appropriate correct action as needed.
Close Out	The completion of all work on a project. Can also refer to completion of a phase of the project.	Involves formally terminating and concluding all tasks, activities, and component parts of a particular project, or phase of a project.
