

helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Fiscal Operations Report for 2012–2013 and Application to Participate for 2014–2015 (FISAP) and Reallocation Form.

OMB Control Number: 1845–0030.

Type of Review: Revision of an existing collection of information.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 1,549.

Total Estimated Number of Annual Burden Hours: 37,176.

Abstract: The data submitted electronically in the Fiscal Operations Report and Application to Participate (FISAP) through FISAP on the Web is used by the Department of Education to determine the institution's funding need for the award year and monitor program effectiveness and accountability of fund expenditures.

The Reallocation form is part of FISAP on the Web. The Higher Education Amendments (HEA) requires that if an institution anticipates not using all of its allocated funds for the Perkins, Federal Work Study (FWS), and Federal Supplemental Education Opportunity Grant (FSEOG) programs by the end of an award year, it must specify the anticipated remaining unused amount to the Secretary. In addition to renewing the expiration date, references to dates and award years dates have been updated on the forms and in the instructions for both documents. The FISAP form has been revised: (1) To use technology to gather existing data electronically from other sources requiring less data entry concerning Additional Institutions in Part I; (2) to allow applicable aggregate level data entry concerning graduate

and professional students for schools with non-traditional academic calendars; and (3) to expand the income grid in the Part VI summary to collect a more concise breakdown of student data at the aggregate level.
