**Notice of Supplemental Distribution of a Registered Pesticide Product**

*Instructions*

Registrants may distribute or sell the products under another company's name and address instead of (or in addition to) their own after obtaining final registration. Such distribution and sale is termed "supplemental distribution" and the product is referred to as a "supplemental registration" or "distributor product." The distributor, also known as a "sub registrant," is considered an agent of the registrant. Both the registrant and the distributor may be held liable for violations pertaining to the distributor product.

A Notice of Supplemental Distribution of a Registered Pesticide Product must be submitted by the basic registrant for each distributor product. The basic registration number and the distributor company number must be shown. If a potential distributor does not have a company number assigned, the registrant should have the distributor request one from the Registration Division prior to submitting this form to the agency. The request should be written on the distributor company's letterhead and sent to the address above. The completed form must have the concurrence and signature of both the registrant and the distributor.
