SUPPLEMENTARY INFORMATION:

OMB Approval No. 2106-0035.

Title: Foreign Air Carrier Application for Statement of Authorization.

Form No.: Form OST 4540.

Type of Review: Extension of a currently approved collection.

Respondents: Foreign Air Carriers.

Number of Respondents: approximately 100.

Estimated Time per Response: 2.25 hours per application.

Total Annual Burden: 1,000 hours.

Abstract: Applicants use Form OST 4540 to request statements of authorization to conduct numerous types of operations authorized under Title 14, CFR part 212. The form requires basic information regarding the carrier(s) conducting the operation, the party filing the form, the operations

being conducted, the number of third- and fourth-freedom flights conducted in the last twelve-month period, and certification of reciprocity from the carrier's homeland government. DOT analysts will use the information collected to determine if applications for fifth-freedom operations meet the public interest requirements necessary to authorize such applications.

Burden Statement: We estimate that the industry-wide total hour burden for this collection to be approximately 1,000 hours or approximately 2.25 hours per application. Conservatively, we estimate the compilation of background information will require 1.75 hours, and the completion and submission of OST Form 4540 will require thirty (30) minutes. Reporting the number of third- and fourth-freedom operations conducted by an applicant carrier will require collection of flight data, and detailed analysis to determine which flights conducted by the carrier are third- and fourth-freedom. Applicants should be able to use data collected for the Department's T-100 program to provide this information (under this program, carriers are required periodically to compile and report certain traffic data to the Department, as more fully described in the Docket referenced in footnote 1 below). The Bureau of Transportation Statistics (BTS) provide carriers with a computer program that allows them to compile and monitor, among other things, flight origin and destination data, to be used in making the carriers' T-100 submissions.¹ We estimated that carriers will require 1.25 hours per application² to compile and analyze the data necessary to disclose the number of third- and fourth-freedom flights conducted within the twelve-month period preceding the filing of an application.

Foreign carriers will also have to provide evidence that their homeland government will afford reciprocity to U.S. carriers seeking authority for the similar fifth-, sixth- and seventh-freedom operations. Carriers may cite certifications submitted by carriers from

the same homeland if that homeland issued such certification within the preceding six-month period. Approximately 100 carriers from roughly 30 distinct homelands use OST Form 4540 to apply for statements of authorization annually. We estimate that one foreign carrier from any given homeland will expend roughly 4 hours every six-months to obtain certification from its homeland governments.³ We have apportioned 30 minutes to each application to account for the time required to obtain certifications from homeland governments.

We have no empirical data to indicate how much time is required for a person to complete OST Form 4540; however, anecdotal evidence reveals that respondents spend thirty (30) minutes or less completing the form and brief justification. In some cases, respondents spend a limited amount of time, less than ten (10) minutes, reviewing the form before sending it via facsimile or email to the Department. In the interest of providing a conservative estimate so as to not understate the burden hours, we estimate the hour burden for completing OST Form 4540 as thirty (30) minutes.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the Office of the Secretary's performance; (2) the accuracy of the estimated burden; (3) ways for the Office of the Secretary to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Issued in Washington, DC, on April 26, 2013.

Director, Office of the International Aviation.

Federal Motor Carrier Safety Administration

Guidance on FMCSA's Publication: Your Rights and Responsibilities When You Move

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice.

SUMMARY: FMCSA provides a streamlined and more user-friendly

¹ The rule-making associated with the T-100 program can be found on the Federal Docket Management System (FDMS) at <http://www.regulations.gov>, in Docket DOT-OST-1998-4043. Information regarding burden hours is on file in the Office of Aviation Analysis (X-50).

² The Office of Aviation Analysis (X-50) estimated that small-carriers would require 1 burden hour per report, and large carriers would require 3 burden hours per report to analyze and report T-100 program data. Considering that the data required in this information collection can be derived from data already collected, we have taken an average of the estimated time required, and conservatively shortened the time by 45 minutes because no new data entry will be required.

³ Calculation: (4 burden hours per application) × (30 foreign homelands) × (2 requests per year) = 240 annual burden hours. Apportioning 240 annual burden hours equally among an average of 430 applications annually = approximately 30 burden minutes per application.
