| NAHMS #320, Bison 2014 - General Bison Management Questionnaire | 3,000                | 20%  | 600                                   | 1   | 600                          | 2,400                                | 0.50                  | 300                               | 96                               |
| Public Reporting Burden (hours)                                 | 396                  |  |                                       |   |                              |                                      |                       |                                   |                                  |
| Estimated Total Annual Burden (hours)                           | 396                  |  |                                       |   |                              |                                      |                       |                                   |                                  |

<sup>^</sup>Estimated response rate was based on the observed response rate (51.2%) from NAHMS' 2011 Small-Scale Livestock Operation Study.

\*Estimated time for nonresponse is 2.5 minutes (-0.04 hour/response)
