Orphan Drug Exclusion:
340B hospitals subject to the orphan drug exclusion (i.e., critical access hospitals,
free-standing cancer hospitals, sole community hospitals and rural referral centers) are responsible for ensuring
that any orphan drugs purchased through the 340B Program are not transferred, prescribed, sold, or otherwise used for the rare condition or disease for which the orphan drugs are designated under section 526 of the Federal Food,
Drug, and Cosmetic Act. <u>Please choose one of the following:</u>
I. The hospital will purchase orphan drugs under the 340B Program and maintain auditable records to
demonstrate compliance with the orphan drug exclusion.
II. The hospital cannot or does not wish to maintain auditable records regarding compliance with the orphan
drugs exclusion and will purchase all orphan drugs outside of the 340B Program regardless of the indication
for which the drug is used and will not use a Group Purchasing Organization (GPO) to purchase those drugs
if the hospital is a free-standing cancer hospital.
