Hemovigilance Module Annual Facility Survey

*Req	*Required for saving					
*Facility ID#:		- *(Survey Year:			
For all questions, use information from previous full calendar year.						
Fac	Facility Characteristics					
*1.	Ownership: (check one) Government Military For profit Veteran's A		rofit, including church n-owned			
*2.	Is your hospital a teaching hospital If Yes, check type: Graduat		nysicians-in-training? Yes No Major			
*3.	Community setting of facility:	Urban Suburban	Rural			
*4.	How is your hospital accredited? (check one)					
	The Joint Commission National Integrated Accredita	American Osteopathic A	`			
*5.	Total beds served by the transfusion service.					
*6.	Number of surgeries performed p	er year: Inpatient:	Outpatient:			
*7.	At what trauma level is your facilit	ty certified?	III IV N/A			
Trai	nsfusion Service Characteristic	cs				
*8.	Primary classification of facility are	eas served by the transfus	sion service: (check all that apply)			
	Cancer center	Orthopedic Children's	General medical and surgical			
	Children's cancer center	orthopedic	Children's general medical and surgica	ય		
	Chronic disease Children's chronic	Burn center	Obstetrics and gynecology			
	disease	Trauma and ED	Other (specify)			
*9.	Does your healthcare facility prov	ide all of its own transfusion	on services, including all laboratory function	s?		
	Yes No, we contract wit	h a blood center for some	e transfusion service functions.			
*10.	No, we contract with another healthcare facility for some transfusion service functions. *10. Is your transfusion service part of the facility's core					
laboratory? Yes No						
*11. How many dedicated transfusion service staff members are there? Dedicated physicians:						
	Number of technical staff (including	ing supervisors):	MLTs: MTs:			

Assurance of Confidentiality: The voluntarily provided information obtained in this surveillance system that would permit identification of any individual or institution is collected with a guarantee that it will be held in strict confidence, will be used only for the purposes stated, and will not otherwise be disclosed or released without the consent of the individual, or the institution in accordance with Sections 304, 306 and 308(d) of the Public Health Service Act (42 USC 242b, 242k, and 242m(d)).

Form Approved OMB No. 0920-0666 Exp. Date: xx/xx/20xx

Public reporting burden of this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC, Reports Clearance Officer, 1600 Clifton Rd., MS D-74, Atlanta, GA 30333 ATTN: PRA (0920-0666).

*12. Does your hospital have a dedicated position or FTE in a <u>quality of function</u> (e.g., TSO) for investigation of transfusion-related adverse	r patient safety	es No
*13. Does your hospital have a dedicated position or FTE in a quality of function (e.g., TSO) for investigation of transfusion errors (i.e. incident		es No
*14. Is your transfusion service laboratory accredited? Yes	No	
If Yes, select all that apply: College of American Pathologis	ts (CAP) AABB	TJC
*15. Does your facility have a committee that reviews blood utilization?	Yes No	
*16. Total number of patient samples collected for type and screen or c	rossmatch:	
*17. Total number of units/aliquots transfused annually:		
	Units:	Aliquots:
Whole blood derived red blood cells		
Apheresis red blood cells		
Whole blood derived platelet concentrates		
What is your average pool size?		
Apheresis platelets		
Whole blood derived plasma (Incl. FFP, thawed, etc.)		
Apheresis plasma		
Cryoprecipitate		
Granulocytes		
Lymphocytes		
*18. Are any of the following issued through the transfusion service? (c	heck all that apply)	
Albumin Factors (VIIa, VIII, IX, ATIII, etc.) Immunog	lobulin (IV)	
☐ Immunoglobulin (IM or subcutaneous) ☐ RhIg ☐ None		
*19. Does your facility attempt to transfuse only leukocyte-reduced or le	euko-poor components?	Yes No
*20. Are all units stored in the transfusion service? Yes No		
If No, indicate the location(s) of satellite storage: (check all that ap	oply)	
Ambulatory Care Cancer Center	Cardiac ICU	
Emergency Department Labor and Delivery	Medical Flight Fac	ility
Operating Room Other: (specify)		
*21. To what extent does the transfusion service modify products? (che	eck all that apply)	
Aliquot Deglycerolizing Irradiation Leukoredu	ıction	

Form Approved OMB No. 0920-0666 Exp. Date: xx/xx/20xx

Exp. Date: xx/xx/20xx
National Healthcare Safety Network www.cdc.gov/nhsn
Plasma reduction Pooling Washing None of these
*22. Do you collect blood for transfusion at your facility? Yes No
If Yes, check all that apply: Allogeneic Autologous Directed
*23. Does your facility perform viral testing on blood for transfusion? Yes No
*24. Does your facility perform point-of-issue bacterial testing on platelets prior to transfusion? Yes No
Transfusion Service Computerization
*25. Is the transfusion service computerized? Yes No (If No, skip to next section) If Yes, select system(s) used: (check all that apply) BBCS® BloodTrack Tx® (Haemonetics) Cerner Classic® Cerner Millennium® HCLL® Horizon BB® Hemocare® Safetrace Tx® Lifeline® Meditech® Misys® (Haemonetics) Softbank®
Western Star® Other (specify)
*26. Is your system ISBT-128 compliant? Yes No
*27. Does the transfusion service system interface with the patient registration system?
*28. Are the transfusion service adverse events entered into a hospital-wide electronic reporting system?
Yes No If Yes, specify system used:
*29. Does your facility use positive patient ID technology for the transfusion service? Yes, hospital wide Yes, certain areas Not used
If Yes, select purpose(s): (check all that apply)
If Yes, select system(s) used: (check all that apply)
Mechanical barrier system (e.g., Bloodloc®)
Separate transfusion ID wristband system (e.g., Typenex®)
Radio frequency identification (RFID) Bedside ID band barcode scanning
Other (specify)
*30. Does your facility have physician online order entry for test requesting?
*31. Does your facility have physician online order entry for product requesting? Yes No
Transfusion Service Specimen Handling and Testing
*32. Are transfusion service specimens drawn by a dedicated phlebotomy team?
Always Sometimes, approximately% of the time Never
*33. What specimen labels are used at your facility? (check all that apply)
Handwritten Addressograph Computer generated from laboratory test request
Computer generated by bedside device Other (specify)

Form Approved OMB No. 0920-0666 Exp. Date: xx/xx/20xx

4. Are phlebotomy staff members allowed to correct patient identification errors on pre-transfusion specimen labels?		
Yes No		
35. What items can be used to verify patient identification during specimen collection and prior to product administration at your facility? (check all that apply)		
Medical record (or other unique patient ID) number Date of birth Gender		
Patient first name Patient last name Transfusion specimen ID system (e.g., Typenex®)		
Patient verbal confirmation of name or date of birth Other (specify)		
36. How is routine type and screen done? (check all that apply and estimate frequency of each)		
Manual technique% Automated technique%		
Both automated and manual technique% Total should equal 100%		
37. Is the ABO group of a pre-transfusion specimen routinely confirmed?		
If Yes, check one:		
All samples		
If there is no laboratory record of previous determination of patient's ABO group		
If there is no laboratory record of previous determination of patient's ABO group AND the patient is a candidate for electronic crossmatching		
If Yes, is the confirmation required on a separately-collected specimen before a unit of Group A, B or AB red blood cells is issued for transfusion?		
Yes No		
38. How many RBC type and screen and crossmatch procedures were performed at your facility by any method?		
RBC type and screen: RBC crossmatch		
Estimate the % of crossmatch procedures done by each method: (check all that apply)		
Electronically% Serologically% Don't know <i>Total may be >100%</i>
