Reminder/thank you post card – Side 2

REMINDER!

Have you completed and returned your CDC Survey of Medical Examiners and Coroners (SMEC) questionnaire?

If you have not yet returned your SMEC questionnaire, please respond at your earliest convenience. Your response is critical to helping us accurately understand how medical examiners and coroners report sudden unexpected and unexplained infant deaths and identify additional needs for resources and training.

If you have already responded, thank you!

If you have misplaced your survey, or have any questions
about the study, please call the CDC SMEC study office at 1-800-xxx-xxxx.
