Agricultural Health Study Health Follow Up

Attachment 25.4: Phase IV Health Follow-Up Participant Paper & Pen Survey

Thank you for your participation in the Agricultural Health Study!

Over the past 20 years, you have contributed to this study. We truly appreciate your effort and time!

We need you! Your answers will ensure that the study results best reflect the experience of all farm families. This will help future generations of farmers live healthier lives.

Please complete this survey regardless of your age, health status, or whether or not you are still farming. We want to hear from everyone!

Instructions:

- Please use dark blue or black ballpoint pen.
- Based on your answers, some questions will be skipped. If there's an arrow next to the answer you chose, please follow it for skip instructions.
- When we ask for dates or ages, if you can't remember the exact year or how old you were when something happened, please give us your best guess.
- When we ask how many years you did something, please round to the nearest whole number.

Fill in the bubbles COMPLETELY for each of the questions in this form.

Collection of this information is authorized by The Public Health Service Act (42 USC 285I). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be kept private to the extent provided by law. Names and other identifiers will not appear in any report of the study. Information provided will be combined for all study participants and reported as summaries. You are being contacted by mail to complete this health follow-up survey because as a member of the Agricultural Health Study your continued involvement can help us learn more about how agricultural and environmental factors may affect the health of farmers and their families.

Public reporting burden for this collection of information is estimated to average 25 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC

Before you get started, we need you to confirm the information located on the label on the front cover of this survey. Please look at the label that indicates the name and date of birth of the person that this survey is for and about.
