

**Attachment 9: Permanent Supportive Housing (PSH) Self-Assessment
Web-based Consent**

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-XXXX. Public reporting burden for this collection of information is estimated to average 40 minutes per respondent, per year, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 1 Choke Cherry Road, Room 7-1044, Rockville, Maryland, 20857.

Consent to Participate in an Evaluation Study

Substance Abuse and Mental Health Services Administration (SAMHSA)¹ National Evaluation of SAMHSA's Homeless Programs

Permanent Supportive Housing (PSH) Self-Assessment Web Survey Consent

About the Study

This survey is part of a national evaluation effort to describe the implementation, effectiveness and sustainability of the Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) and Center for Substance Abuse Treatment (CSAT) Homeless Programs throughout the country. SAMHSA's Homeless Programs include CSAT Grants for the Benefit of Homeless Individuals General (GBHI), Services in Supportive Housing (SSH) and Cooperative Agreements to Benefit Homeless Individuals (CABHI) grants, CMHS SSH and CMHS Projects for Assistance in Transition from Homelessness (PATH). The evaluation will examine the effects of the SAMHSA Homeless Programs project activities on client outcomes, treatment services, service systems and cost and identify challenges and successes in implementing and sustaining a program for homeless or housed individuals who have substance abuse and mental health problems. RTI International, an independent non-profit research company in Research Triangle Park, North Carolina, is conducting the national cross-program evaluation for SAMHSA's Homeless Programs.

Your SAMHSA Homeless Programs project was selected to participate in this survey because 1) your local project was funded in 2009, 2010, 2011, or 2012 under the SSH, GBHI, GBHI-CABHI or PATH initiative, 2) during the Project Director (PD) Telephone Interview, the PD indicated that this local homeless project is implementing permanent supportive housing (PSH) services for your clients, and 3) you are the PD or project manager or are implementing housing or housing services for project clients. Your perspectives on your local SAMHSA (SSH, GBHI, GBHI-CABHI or PATH) project and PSH services implementation are vital in helping SAMHSA improve its Homeless Programs initiatives and the supports your project offers to clients.

The following questions ask about your experiences implementing PSH services of your current local SAMHSA Homeless Programs project, [Project Name], that was implemented in [county] by [agency name] on [date]. These questions ask about the components of PSH including: client/consumer choice of housing; functional separation of housing and supportive services; decency, safety and affordability of housing; housing integration; rights of tenancy; access to housing; flexibility of services; your project's services philosophy and, as applicable, implementation of a behavioral health team. This survey is divided into two parts, the Grantee Project and Permanent Supportive Housing Site. The questions in the Grantee Project section should be answered from the perspective of your CABHI/GBHI/SSH grantee project and answers should reflect how things are done across all permanent supportive housing sites. These questions will only be answered once. The questions in the Permanent Supportive Housing Site section should be answered from the perspective of each permanent supportive housing site used in your grantee project. This section will be repeated for up to three permanent supportive housing sites.

Voluntary Participation and Privacy

Your decision to take part in this evaluation study and your participation is completely voluntary. You can refuse any part of the study and you can stop participating at any time. You can refuse to answer any question.

All the information you provide in this survey will be kept private and will not be shared with anyone from your agency or directly with SAMHSA. RTI will assign you and your site each an ID number so that your name and the name of the local Homeless Programs project will not be included with your survey responses. Your name and the grantee agency's name and ID number will be kept separately from your responses in a password protected file on a computer encrypted with Point Sec and accessible only to the Project Director and Project Manager. Data provided via the Web survey is automatically downloaded after each question into a secure encrypted electronic database housed on a computer server located at RTI. RTI's systems for collecting, storing, and processing data are designed to maintain the privacy of study participants and minimize the disclosure of information.

At no time will your employer or SAMHSA or anyone else not connected with the research team see your responses. When the results of this study are included in reports and presented at scientific meetings or published in scientific journals, no information will be included that could identify you or your answers personally.

Risks and Benefits of the Study

There are minimal risks of participation in this online web survey. As described above under privacy protections, we will reduce the risk of inadvertent disclosure by associating your responses with a unique identifier and not your name. To complete this survey will take about 40 minutes of your time including review of this consent. There are also no immediate benefits of participation. No incentive for participation is provided. Information from Homeless Programs project and partner staff like you will be aggregated in all reports, presentations and publications and the findings may help stakeholders, practitioners, policy makers, researchers and funders learn more about the efforts of local SAMHSA Homeless Programs Initiatives and factors contributing to their success.

Questions

You are welcome to contact our office any time if you have questions about the survey. Please call Dr. Nahama Broner, the Project Director of the National Cross-Program Evaluation of SAMHSA's Homeless Programs, toll-free at 1-877-353-3422, leave a message and she will return your call. You can also email Dr. Broner at HomelessProgramsEval@rti.org or write to her at RTI International, 121 West 27th Street, Suite 1001, New York, NY 10001.

If you have any questions about your rights as a research study participant, you may call the RTI International Office of Research Protection toll-free at 1-866-214-2043; or you can write to them at RTI International Office of Research Protection, 3040 Cornwallis Road, PO Box 12194, Research Triangle Park, North Carolina, 27709-2194.

By clicking on the tab below, you agree to participate in the study. Please check the box only if:

- ✓ You understand the information about the study in this consent form, and
- ✓ You are willing to continue to participate in the study.
