

and decisions, and the proposed transfer of management to the military of the Johnson Valley OHV Open Area. Several issues were specifically identified by the court which will be addressed in the document, including soils, unusual plant assemblages, riparian and water resources, cultural resources, grazing, air quality in open areas, cumulative effects, and mitigation. The BLM will evaluate identified issues to be addressed in the plan amendment, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment and associated activity plans;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

The BLM will provide an explanation in the Scoping Report or the draft EIS as to why an issue was placed in category two or three. An updated inventory of lands with wilderness characteristics for public lands in the plan area will be completed for analysis in the EIS. The public is also encouraged to help identify any management questions and concerns that should be addressed in the clarified scope of the plan. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1501.7, 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2.

Thomas Pogacnik,
Deputy State Director.

Proposed Information Collection; Urban Park and Recreation Recovery Program Grants

AGENCY: National Park Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (National Park Service, NPS) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on October 31, 2013. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by July 1, 2013.

ADDRESSES: Send your comments on the IC to Madonna L. Baucum, Information Collection Clearance Officer, National Park Service, 1201 I Street NW., MS 1237, Washington, DC 20005 (mail); or *madonna_baucum@nps.gov* (email). Please include "1024-0048—Urban Park and Recreation Recovery Program" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Elisabeth Fondriest, Recreation Grants Chief, State and Local Assistance Programs Division at 202-354-6916; or 1849 C Street NW., (2225), Washington, DC 20240 (mail); or *elisabeth_fondriest@nps.gov* (email). Please include "1024-0048" in the subject line.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Urban Park and Recreation Recovery (UPARR) Act (16 U.S.C. 2501 et seq.) was passed as Title X of the National Parks and Recreation Act of 1978. The UPARR Act authorized the Secretary of the Interior to establish a grant program to help economically distressed urban areas improve recreation opportunities for their residents.

We administer the UPARR program in accordance with regulations at 36 CFR 72 and the UPARR Grant Manual. These (1) Explain the policies to be followed for awarding grants; (2) list the requirements and criteria to be met for each type of grant and discretionary eligibility; (3) discuss fundable uses and limitations; (4) explain how proposals will be selected and funding; and (5) describe the application process and administrative procedures for awarding grants. The three types of grants available under the program are:

- Rehabilitation—renovate or redesign existing close-to-home recreation facilities.

- Innovation—specific activities that either increase recreation programs or improve the efficiency of the local government to operating existing programs.

- Planning—development of a Recovery Action Program plan.

The information collection requirements associated with the UPARR Program are currently approved under three OMB control numbers, all of which expire on October 31, 2013. During our review for this renewal, we identified some additional requirements that need OMB approval. In this revision of 1024-0048, we are including all of the information collection requirements for the UPARR Program. If OMB approves this revision, we will discontinue OMB Control Numbers 1024-0028 and 1024-0089. Congress has not appropriated funds for new UPARR grants since FY 2002. We are not currently accepting applications, and there are no open grants for which performance reports must be submitted. However, we still receive requests for conversion of properties improved or developed with UPARR grants through FY 2002 to other than public recreation uses. In anticipation of future funding, we are requesting OMB approval for the information collection requirements. With the exception of requests for conversions of use, we are estimating one response as a placeholder for each of the requirements. Following are the information collection requirements for the UPARR Program:

(1) *Recovery Action Program:* In accordance with 36 CFR 72.10-13, any eligible jurisdiction or discretionary applicant desiring to apply for a grant must develop and submit for NPS approval, a local Recovery Action Program (RAP). The RAP documents the recreation needs of the community and is linked to the objectives, needs, plans, and institutional arrangements of the community. The RAP consists of two sections, which are the Assessment and the Action Plan.

The Assessment describes the existing park and recreation system; issues and problems; goals and objectives. The Assessment summarizes the entire system including: operation and maintenance; employment and training; programs and services; rehabilitation of existing facilities; and the need for new facilities. The six parts of the Assessment include: Context; physical issues; rehabilitation issues; service issues; management issues; and conclusions, implications, and issues.

The Action Plan is a clear statement of the community's specific objectives, priorities and implementation strategies in relation to the intent of the UPARR Program and the local government's overall recreation system goals. Citizen involvement in the development of the Action Plan is required and may include surveys, hearings, meetings, and/or consultation, as appropriate, which is essential in the development of goals, objectives and the setting of project priorities. The Action Plan identifies: the goals for the system; strategies to address national and local concerns, recommendations; program priorities and implementation schedule; and an evaluation of and update to the Action Program.

In accordance with 36 CFR 72.30, applicants must have an approved RAP on file with the appropriate NPS Regional Office prior to applying for Rehabilitation or Innovation grants. Rehabilitation and Innovation proposals must be based on priorities identified in the applicant jurisdiction's RAP.

(2) *Recovery Action Program Grant Applications*: In accordance with 36 CFR 72.52, ranking and selection for funding of Recovery Action Program grants will be initiated on the basis of a full application, preparation of which will be assisted through meetings with NPS regional staff. The following documents are required to be submitted with the Recovery Action Program Grant Application: OMB Standard Forms such as the SF-424, the RAP Grant Agreement (Form #10-911), narrative statements with a description and scope of the planning product(s) to be developed, a project budget, and a work schedule.

(3) *Preapplication for Rehabilitation and Innovation Grants*: In accordance with 36 CFR 72.53, a preapplication procedure is used to reduce the amount of time and documentation needed for a full application, and to foster the competitive aspects of the UPARR Program. The preapplication must include those items as set forth in the Preapplication Handbook, to include: a letter of transmittal, SF-424, proposal description statement, a narrative describing how the project meets the selection criteria, maps, photographs (for construction projects), cost estimates, and pass through certifications (if applicable). The application must describe the problem addressed by the proposal, including existing conditions, the reason for the problem or why the condition exists, and what the UPARR assistance would do to alleviate the problem or condition. Discretionary applicants must also

submit a narrative statement, signed by the chief executive of the applicant jurisdiction, explaining and quantifying the degree of physical and economic distress in the community must be included in each preapplication.

(4) *Full Application—Rehabilitation and Innovation Grants*: In accordance with 36 CFR 72.54, once a Rehabilitation or Innovation proposal has received a tentative grant offer, applicants will be responsible for completing a full application, which addresses compliance with OMB Circulars A-102 and A-87, as well as other applicable Federal laws and regulations such as environmental and historic preservation laws. A list of specific Acts and Executive Orders is in 36 CFR 72.56. A grant will not be approved until the applicant has completed a full application, which is due 120 days from the date of the grant offer.

Grant respondents must also complete and sign the UPARR Program Grant Rehabilitation and Innovation Agreement (currently approved under 1024-0089; Form #10-912). We use this information to document the obligations assumed by the respondent through its acceptance of Federal assistance including the rules and regulations applicable to the conduct of a project under the UPARR Act and any special terms and conditions to the project established by the NPS and agreed to by the respondent. This information also obligates the Federal government to provide grants up to the designated amount for eligible costs incurred on the project on the basis of information and estimates contained in the proposal.

(5) *Amendments* (Currently approved under 1024-0089): Grantees must request prior written approval from NPS for an amendment to a project if the revision causes substantial changes in the scope, objective, or work elements such as the project period. To alter the grant agreement, grantees must complete and sign the Amendment to UPARR Grant Agreement (Form #10-915). The request must also include an SF-424, an explanation of and justification for the change(s), and if applicable, new budget information.

(6) *Performance Reports* (Currently approved under 1024-0028): The UPARR Program Project Performance Report details the annual status of the projects and any changes that need to be implemented. We use this information to ensure that the grantee is accomplishing the work on schedule and to identify any problems that the grantee may be experiencing in accomplishing that work. Performance

Reports are needed to show quarterly or annual progress reports on the physical completion per percentage of each grant, financial expenditures to date, budget revisions if needed, work planned for the next year, and any additional information pertinent for grant completion.

(7) *Conversion of Use* (Currently approved under 1024-0048): In accordance with Section 1010 of the UPARR Act and as codified in 36 CFR 72.72, no property improved or developed with UPARR assistance can be converted to other than public recreation uses without the approval of the NPS. A conversion will only be approved if it is found to be in accord with the current local park and recreation Recovery Action Program and/or equivalent recreation plans and only upon such conditions as deemed necessary to assure the provision of adequate recreation properties and opportunities of reasonably equivalent location and usefulness. To request a conversion, the grantee must submit the following documentation: an amendment request, a narrative statement comparing the site to be converted with the proposed replacement site addressing factors such as physical size, location, carrying capacity, and facilities; maps (location, site, and Section 1010 boundary); and evidence of the grantee's control and tenure over the replacement site.

(8) *Recordkeeping Requirements*: In accordance with 36 CFR 72.60(b), applicants must maintain adequate financial records to support all expenditures or costs covered by a Recovery Action Program, Rehabilitation, or Innovation project grant, as specified in OMB Circular A-87 and OMB Circular A-102 for a period of 3 years after final payment on a project. The records must be retained beyond the 3-year period if audit findings have not been resolved.

II. Data

OMB Control Number: 1024-0048.

Title: Urban Park and Recreation Recovery Program Grants, 36 CFR 72.

Service Form Numbers: 10-911, 10-912, and 10-915.

Type of Request: Revision of a currently approved collection.

Description of Respondents: State Governments; the Commonwealths of Puerto Rico and the Northern Mariana Islands; the District of Columbia; and the territories of Guam, U.S. Virgin Islands, and American Samoa.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Activity	Number of respondents	Number of annual responses	Completion time per response (hours)	Total annual burden hours
Recovery Action Program	1	1	80	80
Recovery Action Program Grant Applications	1	1	3.5	4
Preapplication for Rehabilitation or Innovation Grants	1	1	10	10
Final Application for Rehabilitation or Innovation Grants	1	1	10.5	11
Grant Amendments	1	1	3.5	4
Performance Reports	1	1	1	1
Conversion of Use Request	1	5	25	125
Recordkeeping Requirements	1	1	2	2
Totals	11	15	237

Estimated Annual Nonhour Cost Burden: None.

III. Comments

We invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 26, 2013.

Madonna L. Baucum,

Information Collection Clearance Officer, National Park Service.

Notice of Availability of the Final Trail Management Plan/Final Environmental Impact Statement for Cuyahoga Valley National Park, Ohio

AGENCY: National Park Service, Interior.
ACTION: Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final Trail Management Plan/ Environmental Impact Statement (TMP/ EIS) for Cuyahoga Valley National Park, Ohio.

DATES: The Final TMP/EIS will remain available for public review for 30 days following the publication of the Notice of Availability in the **Federal Register** by the Environmental Protection Agency.

ADDRESSES: Copies of the TMP/EIS will be available to the public by request by writing to the Superintendent, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, Ohio 44141. The document is also available on the internet at the NPS Planning, Environment, and Public Comment Web site at <http://www.parkplanning.nps.gov/cuyahogatrailplan>.

FOR FURTHER INFORMATION CONTACT: Superintendent Stan Austin, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, Ohio 44140, telephone (440) 546-5903.

SUPPLEMENTARY INFORMATION: We, the NPS, announce the availability of the Final TMP/EIS for Cuyahoga Valley National Park, Ohio. This plan will guide the management of trails and associated trail facilities in Cuyahoga Valley National Park for the next 15 years. The Final TMP/EIS considers eight draft conceptual alternatives—a no-action and seven action alternatives,

including the NPS preferred alternative. The Final TMP/EIS assesses impacts to water resources, soils, vegetation, wildlife, cultural resources, socioeconomic, visitor use and experience, and park operations.

The preferred alternative in this TMP/ EIS provides a vision for trails management that best meets the goals of the plan and minimizes impacts to the resources of Cuyahoga Valley National Park. The preferred alternative (Alternative 5) combines trail elements and facilities from the other action alternatives that the NPS believes would best fit Cuyahoga Valley National Park. The preferred alternative includes elements common to all of the action alternatives, and includes the addition of 37 miles of trails, including 10 miles of trails for off-road bicycle use, increased facilities for trail-side camping, access for river paddling and parking areas, and guidance for the restoration and sustainability of the trail system for the future.

Of the actions that are considered as part of each of the action alternatives, and adopted as part of the preferred alternative, Cuyahoga Valley National Park will establish Sustainable Trail Guidelines to guide the planning and management related to the restoration of existing trails, planning and design for new trails and trail facilities, and maintenance and best management practices. The Guidelines will serve as the Standard Operating Procedure for trail management in Cuyahoga Valley National Park during implementation of the selected alternative of the Trail Plan.

The NPS will make no decision on the Final TMP/EIS until after the expiration of the 30-day period announced above.

Dated: March 28, 2013.

Michael T. Reynolds,

Regional Director, Midwest Region.
