DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request of the ETA-9016 (OMB Control No. 1205-0268) on Alien Claims Activity Report; Comment Request on Extension Without Change

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice or by accessing: <http://www.doleta.gov/OMB/OMBControlNumber.cfm>. This collection authority expires on July 31, 2011.

DATES: Written comments must be submitted to the office listed in the addressee's section below on or before May 9, 2011.

ADDRESSES: Send comments to Nancy Dean, U.S. Department of Labor, Employment and Training Administration, Office of Workforce Security, 200 Constitution Avenue, NW., Frances Perkins Bldg., Room S-4231, Washington, DC 20210, telephone number (202) 693-3215 (this is not a toll-free number) or by e-mail: dean.nancy@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The ETA-9016 Report is used by the Department of Labor to assess whether (and the extent to which) the requirements of the U.S. Citizenship and Immigration Services (USCIS), Systematic Alien Verification for Entitlement (SAVE) system are cost-effective and otherwise appropriate for the Unemployment Insurance (UI) program. In addition, data from the Alien Claims Activity report is being used to assist the Secretary of Labor in determining whether a State Workforce Agency's (SWA) administrative costs associated with the verification program are reasonable and reimbursable. There is no other report or system available for collecting this required information. The report allows the Department of Labor to determine the number of aliens filing for UI, the number of benefit issues detected, the denials of benefits to aliens, the extent to which State Agencies use the system, and the overall effectiveness and cost efficiency of the verification system. If SWAs are not required to submit the information on the Alien Claims Activity Report, the Department of Labor would not be able to fulfill its responsibilities to assess the SAVE system.

II. Desired Focus of Comments

Currently, ETA is soliciting comments concerning the proposed extension of the collection for the ETA 9016 Report on Alien Claims Activity, and is particularly interested in comments which:

- * Enhance the quality, utility, and clarity of the information to be collected; and
- * Minimize the burden of the collection of information on those who are to respond, including through the use of electronic collection techniques.

III. Current Actions

Continued collection of the ETA-9016 data will provide for a comprehensive evaluation of the UI Alien Claims Activities. The data are collected quarterly, and an analysis of the data received is formulated into a report summarizing the Alien Claims Activity by the 53 SWAs.

Type of Review: Extension without change.

Comment Request for Information Collection for the Evaluation of the Reintegration of Ex-Offenders—Adult Program (RExO), New Collection

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the collection of data for the Evaluation of RExO. A copy of the proposed information collection request

can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee's section below on or before May 9, 2011.

ADDRESSES: Submit written comments to Bogdan Tereshchenko, Room N-5641, Employment and Training Administration, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: 202-693-3224 (this is not a toll-free number). Fax number: 202-693-2766. E-mail: tereshchenko.bogdan@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

More than two million people are incarcerated in Federal and State prisons and local jails, and over 600,000 people return from prisons to communities across the country each year. Released ex-offenders face multiple challenges, including difficulties with finding a job and housing and accessing social and health services, possible child support arrears, and family troubles. A study conducted for the Bureau of Justice Statistics showed that two-thirds of individuals released from prison in 1994 were rearrested and half returned to prison within three years. Recent research suggests that released offenders consider finding employment a high priority and that higher employment and earnings are associated with lower recidivism.

Through RExO, the Department issued grants to urban faith-based and community organizations (FBCOs) to provide comprehensive employment-centered services to nonviolent offenders recently released from prison. Building on the strengths that FBCOs bring, RExO's programs include mentoring and various supportive services and facilitate connections with providers of housing services. Since many of the grantees serve areas with high concentrations of returning prisoners, one of RExO's aims is to exercise a positive influence on the communities' broader social fabric.

Under contract with ETA, Social Policy Research Associates is

conducting a random assignment evaluation of 24 of RExO's first generation grants. Participants at each site are randomly assigned to either the program (60 percent) or the control (40 percent) group. The evaluation includes:

- *An implementation component.*

This component involves documenting the processes, used by the grantee organizations to assign participants to either the program group, which was offered program services, or the control group, which was not; describing the characteristics of the program participants; examining the community contexts of the RExO grantee programs; and identifying the differences in the services provided to the program and control groups (the latter could access non-RExO services) as well as variations across grantees. By shedding light on the programmatic practices of RExO, this component will support the interpretation of impact findings. Information for it will come from site visits to the grantees and the program's management information system.

- *An impact component.* Comparing the two groups' employment-related and recidivism outcomes will allow the research team to estimate the impacts of RExO services for eligible ex-offenders overall and for key subgroups. Outcome data will be obtained from telephone surveys of members of the RExO program and control groups conducted at 12 and 36 months after random assignment.

The RExO evaluation will rely on the following information sources for the implementation and impact components:

- *Unstructured in-person interviews with program staff at each site.* The research team will conduct a visit to each of the 24 grantee sites. Interviews with grantee program staff, carried out during these visits, will yield detailed information on program operations, administrative issues, service delivery, and promising practices; and
- *12-month and 36-month participant surveys.* The survey questions will address employment and training services received from RExO and other sources; outcomes including employment, job characteristics (such as

hourly wages, available fringe benefits, and occupations), earnings, and recidivism; as well as health status, receipt of public assistance, and housing. Responses to the survey will be the main data source for estimating the program impacts.

II. Review Focus

The Department is particularly interested in comments, which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

The ETA 902 Report, Disaster Unemployment Assistance (DUA) Activities, is a monthly report submitted by an impacted State(s) when a major disaster is declared by the President that provides for individual assistance (including DUA). The report contains data on DUA claims and payment activities associated with administering the DUA program. The information is used by ETA's Office of Workforce Security (OWS) to determine workload counts, for example, the number of individuals determined eligible or ineligible for DUA, the number of appeals filed, and the number of overpayments issued. The report also allows OWS to track States' administrative costs for the DUA program(s).
