

INSTRUMENT CHANGES from 2011-2013

The following changes to the instrument facilitate returning cases from the cell phone frame.

Change LANDCELL and ask the following question for all cases (panels one through four):

Verify the state and county in which the respondent lives:

(GEO_VER) Is your household still located in [fill from household location from last interview]?

1. Yes (skip to GEO_DONE)
2. No (skip to DFFSTATE and follow path for movers)

(DFFSTATE) In which state do you live?

If the state is included in the CPI, the next screen **(DFFCNTY)** asks for the county in which the respondent lives. If the state is not included in the CPI, the case is out-of-scope, and the instrument would skip to THANKRES.

(DFFCNTY) In which county do you live?

If the county reported by the respondent is not included in the CPI geography, the case is a geographic screen out, is out-of-scope and would skip to THANKRES.

(GEO_LONG) How long have you lived in [fill: PSU name]?

The next screen after GEO_LONG will remain GEO_DONE.
