**SUPPLEMENTARY INFORMATION:**

*Title:* Electric Fees, Annual Charges, Waivers, and Exemptions.

*OMB Control No.:* 1902–0132.

*Type of Request:* Three-year extension of the FERC–582 information collection requirements with no changes to the current reporting requirements.

*Abstract:* The information required by FERC–582 is contained within 18 Code of Federal Regulations (CFR) part 381<sup>1</sup> and part 382.<sup>2</sup>

The Commission uses the FERC–582 to implement the statutory provisions of the Independent Offices Appropriation Act of 1952 (IOAA)<sup>3</sup> which authorizes the Commission to establish fees for its

services. In addition, the Omnibus Budget Reconciliation Act of 1986 (OBRA)<sup>4</sup> authorizes the Commission to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year.

To comply with the FERC–582 respondents submit to the Commission the sum of the megawatt-hours (MWh) of all unbundled transmission (including MWh delivered in wheeling transactions and MWh delivered in exchange transactions) and the megawatt-hours of all bundled wholesale power sales (to the extent the bundled wholesale power sales were not separately reported as unbundled transmission). The data collected within the FERC–582 is drawn directly from the FERC Form 1 transmission data. The Commission sums the costs of its electric regulatory program and subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. Then, the Commission uses the data submitted under FERC–582 to determine the total megawatt-hours of transmission of electric energy in interstate commerce.

Respondents (e.g. public utilities, power marketers) subject to these annual charges must submit FERC–582 data to the Commission by April 30 of each year.<sup>5</sup> The Commission issues bills for annual charges to respondents. Then, respondents must pay the charges within 45 days of the Commission’s issuance of the bill.

Respondents file requests for waivers and exemptions of fees and charges<sup>6</sup> based on need. The Commission’s staff uses the filer’s financial information to evaluate the request for a waiver or exemption of the obligation to pay a fee or an annual charge.

*Estimate of Annual Burden:*<sup>7</sup> The Commission estimates the total Public Reporting Burden for this information collection as:

**FERC–582—ELECTRIC FEES; ANNUAL CHARGES; WAIVERS; AND EXEMPTIONS**

	Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours per response	Estimated total annual burden
	(A)	(B)	(A) × (B) = (C)	(D)	(C) × (D)
FERC–582 <sup>8</sup> .....	114	1	114	1	114

<sup>1</sup> Title 18 CFR, Sections 381.105, 381.106, 381.108, 381.302, and 381.305.

<sup>2</sup> Title 18 CFR, Sections 382.102, 382.103, 382.105, 382.106, and 382.201.

<sup>3</sup> 31 U.S.C. 9701.

<sup>4</sup> 42 U.S.C. 7178.

<sup>5</sup> 18 CFR 382.201.

<sup>6</sup> 18 CFR parts 381 and 382.

<sup>7</sup> The Commission defines burden as the total time, effort, or financial resources expended by

persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 CFR 1320.3.

The total estimated annual cost burden to respondents is \$7,980 [114 hours \* \$70/hour<sup>9</sup> = \$7,980].

*Comments:* Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
