

Public involvement is a critical component of NEPA project development and will occur throughout the development of the EIS.

Opportunities for public involvement will be provided during the scoping process. Agency and public scoping meetings will be held in the spring of 2013 to receive oral and written comments on environmental concerns that should be included in the EIS. The dates, times and locations of the public scoping meetings will be published in general circulation newspapers for the project area. Comments regarding the scope of the analysis should be received in writing 30 days after the date of the last scoping meeting. A Public and Agency Coordination Plan will be provided in accordance with 23 U.S. Code Section 139 (23 U.S.C. 139), to facilitate document the lead agencies, structure interaction with the public and other agencies of how the coordination will be accomplished. The Public and Agency Coordination Plans will promote early and continuous involvement among stakeholders, agencies and the public. Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies, and Tribal governments. A project Web site (www.dot.ga.gov/sr20improvements) will be maintained throughout the study. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action and the EIS should be directed to the GDOT or FHWA address above.

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Transportation (Secretary) is authorized to require marking of vehicles and intermodal equipment by motor carriers, freight forwarders and intermodal equipment providers (IEPs) engaging in interstate transportation under the 49 U.S.C. 31133(a)(8) and 49 U.S.C. 31133(a)(10). The Secretary has delegated authority pertaining to the marking of commercial motor vehicles (CMVs) pursuant to 49 CFR 1.87(f). The Agency's regulation governing the marking of CMVs is at 49 CFR 390.21.

Vehicle marking requirements are intended to ensure that FMCSA, the National Transportation Safety Board (NTSB), and State safety officials are able to identify motor carriers and correctly assign responsibility for regulatory violations during inspections, investigations, compliance reviews, and

crash studies. These marking requirements will also provide the public with beneficial information that could also assist in identifying carriers for the purposes of commerce, complaints or emergency notification. The marking requirements apply to motor carriers, freight forwarders and intermodal equipment providers (IEPs) engaging in interstate transportation. The Agency does not require a specific method of marking as long as the marking complies with FMCSA's regulations.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2013-0019]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated February 21, 2013, the Old Augusta Railroad (OAR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA-2013-0019.

In its petition, OAR seeks relief from 49 U.S.C. 21103(a)(4), which, in part, requires a train employee to receive 48 hours off-duty after initiating an on-duty period for 6 consecutive days. Specifically, OAR seeks a waiver to allow a train employee to initiate an on-duty period each day for 7 consecutive days followed by 1 day off duty and an 8th day assignment with 2 days off duty. In support of its request, OAR submitted documents demonstrating its employees' support for the requested waiver and a description of its employees' work schedules. According to OAR, train employees have set start times and set off-duty days, and do not lay over at away-from-home terminals. Additionally, OAR claims that it operates one switching job per day, serving only one industry in a 12-hour cycle. The typical duty tour is from 5 a.m. to 5 p.m., 7 days per week, with an occasional switching move outside of the regular shift. Two crews share the 7-day-per-week schedule. OAR also states that before the Rail Safety Improvement Act of 2008, its employees worked 7 days on, 7 days off, subject to an infrequent call. OAR asserts that its employees worked this type of schedule for 18 years without any safety problems, and that it was awarded the American Short Line and Regional Railroad Association Jake Award each year during those 18 years.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or

comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by May 28, 2013 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as is practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). See <http://www.regulations.gov/#!privacyNotice> for the privacy notice of regulations.gov or interested parties may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477).
