### Lender Narrative – New Construction Section 232– Single Stage

#### U.S. Department of Housing and Urban Development Office of Residential Care Facilities

OMB Approval No. 9999-9999 (exp. mm/dd/yyyy)

**Public reporting** burden for this collection of information is estimated to average 87 hours. This includes the time for collecting, reviewing, and reporting the data. The information is being collected to obtain the supportive documentation that must be submitted to HUD for approval, and is necessary to ensure that viable projects are developed and maintained. The Department will use this information to determine if properties meet HUD requirements with respect to development, operation and/or asset management, as well as ensuring the continued marketability of the properties. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

**Warning:** Any person who knowingly presents a false, fictitious, or fraudulent statement or claim in a matter within the jurisdiction of the U.S. Department of Housing and Urban Development is subject to criminal penalties, civil liability, and administrative sanctions.

**Privacy Act Notice:** The Department of Housing and Urban Development, Federal Housing Administration, is authorized to collect the information requested in this form by virtue of: The National Housing Act, 12 USC 1701 et seq. and the regulations at 24 CFR 5.212 and 24 CFR 200.6; and the Housing and Community Development Act of 1987, 42 USC 3543(a). The information requested is mandatory to receive the mortgage insurance benefits to be derived from the National Housing Act Section 232 Healthcare Facility Insurance Program. No confidentiality is assured.

### **INSTRUCTIONS:**

The narrative is a document critical to the Lean Underwriting process. Each section of the narrative and all questions need to be completed and answered. If the lender's underwriter disagrees and modifies any third-party report conclusions, provide sufficient detail to justify. The narrative should identify the strengths and weaknesses of the transactions and demonstrate how the weaknesses are mitigated by the underwriting.

- Charts: The charts contained in this document have been created with versatility in mind; however they will not be able to accommodate all situations. For this reason, you are allowed to alter the charts as the situation demands. Be sure to state how you have altered the charts along with your justification. Include all the information the form calls for. Charts that include blue text indicate names that should be modified by the lender as the situation dictates.
- Applicability: If a section is not applicable, state so in that section and provide a reason. Do not delete a section heading that is not applicable. The narrative will be checked to make certain all sections are provided. If a major section is not applicable, add " Not Applicable" to the heading and provide the reason. For instance:

# Parent of the Operator – Not Applicable

This section is not applicable because there is no operator.

The rest of the subsections under the inapplicable section can then be deleted. This instruction page may also be deleted.

• **Format:** In addition to submitting the PDF version of the Lender Narrative to HUD, please also submit an electronic Word version.

Instead of pasting large portions of text from third-party reports into the narrative, it is preferred that the lender simply reference the page number and the report. The focus of this document is for lender conclusions, analyses, and summaries.

Italicized text found between these characters << EXAMPLE>> is instructional in nature, and may be deleted from the lender's final version. Please use the gray shaded areas (e.g., ) for your response. Double click on a check box and then change the default value to mark selection (e.g., ).

Operations - post construction

**Year**: First year of stabilized occupancy after completion of construction. Example: Add the number of months to reach <u>stabilized</u> occupancy (as reported on the IOD spreadsheet "Output-Summary Exhibit" tab) to the completion date. For a completion date of June 1, 2013 and 12 months to reach stabilized occupancy, enter 2014.

**FTE's:** As reported on the "Staffing Schedule" - Exhibit in the Operations Section of the application checklist.

**SWB** (Salaries, Wages, Benefits): As reported on the "Staffing Schedule"- Exhibit in the Operations Section of the application checklist.>>

• 50% or more of each	entity	is ow	ned by the same persons or entities.		
<i>Same ownership:</i> Different properties or business entities that are wholly-owned by the same natural person, entity, or group—generally 100% common ownership among the properties. In the case of not-for-profit entities, "ownership" will be evaluated based on the principals identified through the HUD previous participation (2530/APPS) process. The ownership structure may be a corporation, limited liability company, partnership or limited partnership, or other legal structure. This term applies to master lease requirements.

<u>Ge</u>	neral Overview		
CO	Provide narrative of rationale for selection of Wage Decision specified. Be sofigurations of kitchens and bathrooms (e.g., kitchenette includes a sink, microficiperator and bathroom includes a commode, sink, and shower, etc.).>>		
<u>P</u>	rogram Eligibility		
Κe	y Questions	Yes	No
1.	Will the facility charge "founder's fees," "life care fees," or or other similar charges associated with "buy-in" facilities?		
2.	Will the facility require more than four residents share a full bathroom (see 24 CFR 232.3)? (Not applicable for SNFs.)		
3.	Are any residents required to access a qualifying bathroom by moving through a public corridor or area (see 24 CFR 232.3)? ( <i>Not applicable for SNFs.</i> )		
4.	Has the borrower, operator, or any of their affiliate's renamed or reformulated companies, filed for or emerged from bankruptcy within the last five (5) years?		
5.	Is the borrower, operator, or any of their affiliate's renamed or reformulated companies, currently in bankruptcy?		
6.	Are there floodways or coastal high hazard areas, other than incidental portions, located onsite?		
	If you answered "yes" to any of the questions above, this facility is <u>not eligib</u> ogram. >>		nis

# Commercial Space/Income Select one of the following: There will be <u>no</u> commercial space at the subject. There will be commercial space at the subject; however, it will not exceed the program limitations of 20% of the total net rentable area of the project and 20% of the effective gross income. a. Total net rentable area: d. EGI: e. Eff. commercial income: b. Net rentable commercial area: <<b / a>> c. % of commercial area: f. % of commercial income: << Provide further explanation, if necessary. If the facility does not meet either of the criteria above, the loan is not eligible under this program.>> **Program Guidance:** The commercial limits are a maximum of 20% of the gross floor area of the project and 20% of the gross project income. Commercial space that is intended to exclusively serve the residents of the facility is not counted toward the 20% space and income limitations. Non-resident adult day care space will <u>not</u> be considered commercial space. However, the adult day care space may not be located on a separate site, the space may not exceed 20% of the gross floor area of the facility, and the income may not exceed 20% of gross income. (Provide a Certificate of Need or operating license, if applicable.) Facility Type Select **ALL** that apply: **Nursing Home** Consists of at least 20 beds. Considered a "Skilled Nursing Facility" by Department of Health & Human Services. **Intermediate Care Facility** Consists of at least 20 beds. Considered an "Intermediate Care Facility" by Department of Health & Human Services. **Board and Care** Consists of at least 5 beds. Provides "Continuous Protective Oversight." Provides areas for central dining. Offers three meals per day to each resident.

	Resident must take at least one meal a day.	
	Regulated by the state in accordance with Section 1616(e) (Keys Amendment)	) of the Social Security Act
	ssisted Living

# Licensing/Certificate of Need/Keys Amendment

<< Provide affirmative statement along the lines of: "The facility is to be licensed by the State of  $\{State\}$ 's Department of Health and Welfare as a  $\{Type \ of \ Facility\}$  for  $\{X\}$  beds. The license is to be issued to  $\{Name \ of \ Entity \ on \ License\}$ ." Describe the licensing process. It is effective  $\{date\}$ , through  $\{date\}$ . The license covers  $\{number \ of \ beds\}$ .">>

<<Provide affirmative statement along the lines of: "There is no Certificate of Need (CON)
requirement in {State} for {Type of Facility}." – OR – "A Certificate of Need (CON), dated
{XXX} was issued by the State of {State} authorizing XX beds...">> For skilled nursing, where
the state does not require a CON, discuss the required independent study conducted by the state
or commissioned by the state of market need and feasibility. Include in the discussion the
number of beds and the date through which it is current.

<<(Applicable to B&C's.) Provide affirmative statement along the lines of: "The State of {State} has certified its compliance with Section 1616(e) of the Social Security Act (Keys Amendment).">>

### **Identities-of-Interest**

#### **Kev Ouestions**

111	y Questions	Yes	No
1.	Have you, as the lender, identified any identities of interest on your certification?		
2.	Does the borrower's certification indicate any identities of interest?		
3.	Do any of the certifications provided by principals of the borrower identify any identities of interest?		
4.	Does the operator's certification (if applicable) indicate any identities of interest?		
5.	Does the management agent's certification (if applicable) indicate any identities of interest?		
6.	Does the general contractor's certification indicate any identities of interest?		
7.	Does the HUD Addendum to the AIA Agreement of the Design Architect identify any identities of interest?		
8.	Does the lender know, or have any reason to believe, that any of the assertions in the other Consolidated Certifications submitted herewith, are inaccurate or incomplete?		
	For each "yes" answer above, provide a narrative discussion regarding the topolicable, describe the risk and how it will be mitigated. For example: The borro	_	

operator are related parties – John Doe has ownership in both entities. No other identities of interest are disclosed.>>

## **Risk Factors**

### **Kev Ouestions**

		Yes	No
	If the project is proposing new construction of assisted living units, is the proposed mortgage higher than the maximum loan-to-value (LTV) identified in the guidance below?		
2.	Is the debt service coverage of the loan less than 1.45?		
3.	Is this a "special use facility"—one that serves a "niche" type of market (e.g., psychiatric facilities; drug, alcohol, or eating disorder recovery facilities; hospice facilities; or short-term rehabilitation facilities?		
4.	Will the combined underwritten occupancy percentage of Medicare and private pay beds (of the total SNF beds in the project) exceed 30%?*		
5.	Will the percentage of private pay beds used in the underwriting exceed the average percentage demonstrated in the market, defined as the average of no less than 5 competing facilities in the primary and secondary market?*		
6.	Will the underwritten occupancy percentage of Medicare beds (of the total SNF beds in the project) exceed 10% or the average percentage demonstrated in the market, defined as the average of no less than 5 competing facilities in the primary and secondary market?*		
*If	the answer to question 4, 5, or 6 is "yes," a waiver must be requested.		

<< For each "yes" answer above, provide a narrative discussion on the topic describing the risk <u>and</u> how it will be mitigated.

Example: <u>Debt Service Coverage Lower than 1.45</u>: {If the debt service coverage of the loan is less than 1.45, the lender must provide sufficient justification/mitigation to support the additional risk associated with the loan. The HUD underwriter will be required to specifically approve this item and may ask for additional input and request a discussion with the lender and/or HUD headquarters.}>>

<< Below is a summary of the Lean underwriting benchmarks for loan-to-value (LTV) and debt service coverage ratio (DSCR).

Type of Unit	New/Existing Units	Borrower Type	Max. LTV*	Min. DSCR*
SNF/ILU	Both	For Profit	80%	1.45
SNF/ILU	Both	Non-Profit **	85%	1.45
ALF	New	For Profit	<i>75%</i>	1.45
ALF	New	Non-Profit **	80%	1.45
ALF	Existing	For Profit	80%	1.45
ALF	Existing	Non-Profit **	85%	1.45

<sup>\*</sup>Maximum loan-to-values and minimum debt service coverage ratios are set by the Section 232 Statute and Regulations. Any submittal above the LTV's listed or below the DSCR's listed will require justification/mitigation.

### **Other Risk Factors Identified by Lender**

Additionally, the lender has identified the following risk factors:

<< Provide discussion on other risk factors identified by the lender and how they are mitigated.>>

# **Strengths**

<< Provide discussion of the strengths of the transaction.>>

# **Underwriting Team**

Lender	
Name:	
Underwriter:	
Underwriter trainee:	
Lender number:	
Site inspection date:	
Inspecting underwriter:	
Broker:	

<sup>\*\*</sup>To qualify for the higher non-profit benchmarks, the owner/operator must demonstrate a successful operating track record, significant project operating and management experience, an a solid financial track record.>>

### **Lender's Underwriter**

<<Bri>description of qualifications. The inspecting underwriter must be underwriter of record that is assigned to the project. >>

### **<u>Underwriter Trainee</u>** (if applicable)

<<Brief description of qualifications.>>

### **Inspecting Underwriter** (if applicable)

<< Brief description of qualifications. A MAP-approved 232 Underwriter or Lean-approved 232 Underwriter employed by the lender must visit the site <u>AND</u> sign this narrative.>>

### **Program Guidance:**

On projects involving the addition of beds/units, the Lender's Approved Underwriter of record on the project must inspect not only the subject site, but also the market competitors and/or comparables from the appraisal/market study. HUD is not requiring inspection of all comparables listed in the appraisal/market study; it is up to the Underwriter to determine which comparables will give them enough information to become familiar with the market.

### Lender's Loan Committee Process

Date of loan committee:	
Loan committee process:	
Loan committee conditions:	
•	immary of loan committee, including: information provided; any tions of the loan committee to gain the committee's

#### **Recommendation to HUD**

recommendation.>>

<<Based on analysis and underwriting, XXXXX recommends that HUD issue a firm commitment to insure the proposed mortgage for the subject transaction, subject to the terms and conditions identified in this narrative and the accompanying application exhibits.>>

# **Architectural Review**

Da	te of report:		
Re	view firm:		
Re	viewer:		
Ke	y Questions	<b>3</b> 7	NI.
1.	Are any drawings or specifications to be "deferred submissions?" If yes, explain below.	Yes	No
2.	Does the architectural reviewer recommend any commitment conditions?		
3.	Are the plans and specification incomplete?		
4.	Is there an identity of interest between the design architect and any other project participant (i.e., borrower, principal of borrower, operator, and/or general contractor)?		
5.	Are there architectural review comments that have <u>not</u> been incorporated into the plans and specifications?		
6.	Are there any architectural drawings and specifications that do <u>not</u> comply with local building code standards, minimum property standards, or any other HUD requirements?		
7.	After reviewing the plans, did the architectural reviewer confirm that the plans are <u>not</u> in conformance with FHAG and UFAS requirements?		
8.	Is the design architect providing supervision services?		
9.	After reviewing the AIA agreement, did the architectural reviewer find the agreement was <u>not</u> complete?		
10.	After reviewing the Geotechnical Engineering Evaluation Report, did the architectural reviewer find the report <u>unacceptable</u> showing an <u>insufficient</u> number of borings provided?		
11.	After reviewing the soils report, did the architectural reviewer find the structural design <u>not</u> in compliance with the findings of the report?		
12.	After reviewing the survey, did the architectural reviewer find the survey <u>not</u> in compliance with HUD requirements?		

<<If you answer "yes" to any of the above questions, please address below. For example, Item 1 – Fire sprinkler system engineering will be completed by XXX, Item 3 – The completed plans and specifications will be submitted prior to closing. The architectural reviewer's inspector has identified minor revisions to the plans and specifications that will be completed and submitted to HUD prior to closing. A list of the minor revisions includes XXX. The contractor has provided confirmation acknowledging the required revisions and confirms that they do not result in changes to the costs reflected on the HUD 2328 submitted with this application package. We (the lender) recommend a Special Condition to the Firm Commitment requiring that completed acceptable plans and specifications will be submitted prior to closing.</p>

Item 4 – There is an identity of interest between the design architect and the borrower. The design architect is a principal of the borrower entity. Therefore, to meet HUD requirements, a separate AIA B108 is submitted with this package for an unrelated architect to provide the supervision services. Provide narrative describing the supervising architect's name, experience, etc. >>

### **Architectural Overview**

<<Provide narrative describing the architectural reviewers report and conclusions and if the lender's underwriter concurs with the conclusions. Identify any modifications to the report conclusions and provide justification. Confirm if the review complies with the statement of work. Identify deliverables included in the application package. Include a narrative concerning key elements of the reviews, the appropriate HUD forms, and their correspondence with the design architect.>>

#### Program Guidance:

Construction specification template (CSI Master Format 2010), addressed in Mortgagee Letter 2010-41, must be used for all firm applications submitted after April 25, 2011.

## **Soils Report**

<<A Geotechnical Investigation Report by ABC Engineering, Inc. is provided in the application; however, only five boring samples were taken, which does not meet the minimum HUD standard of 1 boring per 2,500 square feet required by HUD Handbook XXXX. (<u>Identify the specific HUD requirement(s)</u> that are to be waived.) ABC's conclusion was that five borings were more than sufficient based on the consistency of the samples and they have provided a letter to that affect. Based on this letter and the design architect's certification that the foundations have been designed to conform to the geotechnical report, (Lender's Architectural Reviewer) and (Lender Name) find this acceptable and recommend that HUD accept the soils report and design architect's certification in lieu of requiring additional samples that will in all likelihood lead to the same conclusion. >>

# **Construction Progress Schedule**

<<Provide narrative discussion of the construction period as projected by the general contractor and project architect. Indicate if architectural reviewer agrees. Typically, an updated Construction Progress Schedule that accurately reflects the month and date of construction start and completion will be needed prior to closing.>>

### Conclusion

<< Indicate if the review architect has appropriately addressed all architectural aspects of the development and the firm commitment application.>>

# **Cost Review**

Da	te of report:		
Re	view firm:		
Co	st analyst:		
Ke	y Questions		
		Yes	No
1.	Are there any variances in excess of 10% between the general contractor's form HUD-2328 line items and the cost analyst's form HUD-92326?		
2.	Is the total reflected on the cost analyst's form HUD-92326 more than 10% higher or lower than the total cost breakdown on form HUD-2328?		
3.	Will any one subcontractor, material supplier, or equipment lessor be awarded more than 50% of the construction contract?		
4.	Will three or fewer subcontractors, material suppliers, or equipment lessors be awarded more than 75% of the construction contract in aggregate?		
5.	Does or will the contractor have any identities of interest with any subcontractors, material suppliers, or equipment lessors?		
6.	Did the cost analyst find any evidence of front-loading in the contractor's cost estimate?		
	Cost estimate?  For each "yes" answer above, provide a narrative explanation and justificate topic.>>	∟ ion regara	ling

### **Cost Overview**

<<Confirm the cost reviewer performed the cost review pursuant to Section 232 standards. The deliverables in the application package include a narrative concerning the cost analysis, the appropriate HUD forms, and cost data. For example, "The cost analyst performed a comparison analysis and compared them to the contractor's final schedules of values (form HUD-2328). The cost analyst ultimately concludes to the contractor's schedule of values. The underwriter concurs.">>>

# **Construction Costs (Form HUD-2328)**

<<Discuss the cost analyst's review of the final forms HUD-2328 supplied by the contractor and owner after completing an independent cost analysis. Confirm the analyst found no front-loading in the final costs reflected in the HUD-2328 submitted. Indicate the analyst completed the HUD 9236 in accordance with HUD guidelines and those forms are included in the appropriate section of the application package.</p>

Provide a breakdown of the costs from the form HUD-2328, Contractor's and/or Borrower's Cost Breakdown, included in the application package. The form totals \$XXX and is summarized as follows (complete the following table or provide equivalent detail):>>

Description	Cost	% of Contract	Per Sq ft of GBA	Per bed
Structures				
Accessory structures				
Land improvements				
General requirements				
Builder's overhead				
Builder's profit				
Other fees				
Bond premium				
Total construction contract				
Construction Contract		· ·		

Construction Contract		
Туре:	<b>Cost Plus</b>	<b>Lump Sum</b>

### **General Requirements**

<< The contractor's estimate of general requirements totals \$XXX. The cost analyst has determined that the proposed cost of the general requirements and the sub-items included in it are reasonable. The underwriter concurs.>>

### **Program Guidance:**

The cost for "General Requirements" will include the costs for those items incurred in the construction of the project and directly pertaining to a specific project. It will not include general overhead expense of operating the contractor's home office. Items of cost to be considered in determining General Requirements allowance include, but are not limited to, items such as:

- Supervision
- Field engineering to provide grades and lines for locating buildings, streets, and walks on the site.
- Field office, phones, office supplies and equipment, and clerical help
- Temporary sheds and toilets
- Temporary heat, water, light, and power for construction
- Cleaning and rubbish removal
- Watchmen's wages
- Medical and first aid facilities
- Temporary protection and fences

#### Other Fees - General Contractor

### **Program Guidance:**

On Form HUD-2328, "Other Fees" is reserved for fees and allowances not normally included in General Requirements. Such fees might be:

- Special engineering fees such as test borings not provided for by the project architect.
- Special taxes based on cost of the buildings (i.e., school taxes, utility taxes or assessments, excise taxes, tap fees, etc.).
- Contractor's cost certification (a cost certification is required when a "Cost Plus" construction contract is used)
- Building permits

The form HUD-2328 includes other fees to be paid the general contractor totaling \$ . The other fees to be paid by the general contractor include the following:

# Schedule of Other Fees included in Construction Contract (Double click inside the Excel Table to add information)

Line Description Am ount Survey А Cost Certification В Municipal Inspections D Special Engineering Tests/Fees Special Taxes Е F Permits G Н Ι J TO TAL

<< Narrative discussion – **Example #1**: The cost analyst has reviewed the schedule of other fees and determined the items and the total cost to be reasonable. The underwriter concurs.

**Example #2**: The construction contract includes \$XX in other fees. The other fees include building permits, electric service hook-up charges, and cost certification. It is assumed that the general requirements budget includes appropriate amounts for items such as surveys, municipal inspections and the like during the course of construction. The cost analyst is aware of this likelihood and has adjusted his general requirements budget accordingly.

The underwriter is confident there are adequate budgets built in to the underwriting to cover anticipated other fees. >>

### **Bond Premium/Assurance of Completion**

<<Provide narrative discussion of either construction bond (bonding company, contractor's bond capacity, etc.) or the Assurance of Completion escrow (15% or 25% of contract, cash or letter of credit, etc. Also, address whether the surety is listed on the Treasury Circular and is authorized to issue bonds in the state for the required amount.>>

### **Unusual Site Improvements**

<< Describe unusual site improvements and applicable costs, if any.>>

#### Architect's Fees

<<Provide narrative describing architect fees (design/supervision). For example: "The Owner-Architect Agreement (AIA document B108 with HUD Addendum) sets a total design fee of \$XXX and a construction supervision fee of \$XXX, for a total contract amount of \$XXX. The design fee currently represents XX% of the total architectural fee and XX% of the total cost of total structures, land improvements, and general requirements. The construction supervision fee is XX% and XX% of the same, respectively."</p>

Confirm there is not an identity of interest between the borrower and the architect or if there is, discuss the separate supervising architect and his/her B108. Confirm if the cost analyst and underwriter find the architectural fees to be reasonable in total and for the cost of design/supervision.>>

#### Other Fees - Borrower

#### Schedule of Other Fees to be paid by Borrower

### Conclusion

<< Provide conclusion of market analysis: summarize demand, market saturation, continued health of market, negative and positive factors impacting the continued demand for the subject's units/beds.>>

## Income Capitalization Approach

### **Occupancy**

A summary of the market occupancy is provided below.

(Double click inside the Excel Table to add information)

Market Occupancy	# of Units	Occupancy
Competitor 1 - (Name)	0	0%
Competitor 2 - (Name)	0	0%
Competitor 3 - (Name)	0	0%
Competitor 4 - (Name)	0	0%
Competitor 5 - (Name) - add rows as needed	0	0%
Subject	0	0%
Market Total/Average	0	0%
Appraiser's Conclusion for Subject		0%
Underwriter's Conclusion for Subject		0%

<<Indicate if the market percentages quoted represent a single day survey, or are a year over average. The number of competitors will depend on the size of the market. Please expand or reduce the chart above as needed. Provide <u>brief</u> narrative discussion of conclusion. The narrative should address any decline in or below average occupancy. For skilled nursing and other facilities, resident days may be more appropriate than units or beds. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide a separate schedule for each care type.>>

### **Census Mix**

An analysis of the market comparable census mix is provided below.

(Percent of beds not revenue)
(Double click inside the Excel Table to add information)

Local Market Census Mix	Private-pay	Medicare	Medicaid	e.g. V.A.	e.g. HMO (Insurance)	e.g. Other	Total
Comp 1 - (Name)	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Comp 2 - (Name)	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Comp 3 - (Name)	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Comp 4 - (Name)	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Comp 5 - (Name) add rows as needed	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Subject - Appraiser's Forecast	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Market Average	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	

<sup>&</sup>lt;< Provide narrative discussion of conclusion. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide the above analysis for each care type. An equivalent analysis of the information provided above is required. Additional analysis can be provided at the lender's option to support its conclusion, as appropriate.>>

#### Rents

The rent schedule will be as follows:

- <<Insert a summary chart of the rent schedule here that shows rents, number of units, and room/service types.>>
- <<Discuss the subject Rent Schedule. For skilled nursing and other facilities, a daily rate may be more appropriate than a monthly conclusion. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide a separate schedule for each care type.>>
- <>INSTRUCTIONS: Each type of care should have its own subsection below discussing the payor source identified in the rent schedule, as demonstrated below. You may delete the sections (skilled nursing, assisted living, and independent living) that do not apply to your subject. >>

#### SKILLED NURSING RENTS

#### **Private Pav**

The appraiser and underwriter analyzed the private pay rates at XXX comparable facilities. A summary of their analysis is provided below.

#### Rent Comparability Analysis - As Is

<sup>&</sup>lt;< Provide narrative discussion of conclusion. An equivalent analysis of the information provided above is required. Identify any modification from the appraiser's concluded rent and provide justification.>>

#### Other Income

(Double click inside the Excel Table to add information)

	Underwriter's Break down of "Other" Income								
Line	Description	Annual	Per Occupied						
	zesenpasn.	Amount	Day/Unit						
A									
В									
С									
D									
Е									
F									
	Total	0							

<< Provide narrative discussion and support for each other income category as appropriate. An equivalent analysis of the information provided above is required. Additional analysis can be provided at the lender's option to support their conclusion, as appropriate. A few examples follow:</p>

#### Additional Personal Care Fees

The project bases additional care fees on levels of care needed as determined by the initial assessment and subsequent assessments as needed. The appraiser concludes to a <u>net</u> amount of \$X annually based on his analysis of comparable data <<insert comparable data as appropriate. Identify any modification from the appraiser's concluded fees and provide justification.>>

#### **Second Occupant Income**

The appraiser has included a net annual projection of X second occupants at X per month. Competitive facilities in the market place report second occupant charges ranging between X and X with a range of X to X second occupants. Based on the market, the underwriter concurs with the appraiser's conclusion for a net annual income of X. Identify any modification from the appraiser's concluded fees and provide justification.

#### **Miscellaneous Income** <<delete paragraph if not applicable>>

In addition to room rents, additional care, and second occupant income, the project will receive miscellaneous income from <<li>list miscellaneous>>. The appraiser has included a net annual projection of \$X. Typically, miscellaneous income is between x and x percent of effective income. The appraiser's conclusion is x. The underwriter has concluded to a net \$X\$ per annum (calculation shown). Identify any modification from the appraiser's concluded fees and provide justification.>>

## **Expenses**

The appraiser concludes to total expenses of \$X including reserve for replacement of \$X. The underwriter concludes to total expenses of \$X including reserve for replacement of \$X. The appraiser compared the subject's expense conclusions to X comparable projects located X.

### **Comparable Expense Data**

<< The expense comparables should be entered on a per resident day basis (# beds x 365 x occupancy rate) or per occupied unit basis (# units x 12 x occupancy rate).>>

(Double click inside the Excel Table to add information)

Date of Expense Information	e.g. Jul-12					
Adjustment amount applied for date	0.0%	0.0%	0.0%	0.0%	0.0%	

<<Provide narrative discussion of comparable information. The appraiser should trend the expense comparables to the effective date of the appraisal. An explanation of the adjustments should be included here. Explain any other adjustments made to the comparables such as for normalization of reserves/management fee/taxes, etc. required to put the comparables on the same footing as the subject. For skilled nursing and other facilities, resident days are more appropriate than occupied units. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide a separate schedule for each care type.>>

### **Net Operating Income**

<<Below reproduce or paste the appraiser's pro forma. If the lender disagrees with the appraiser's value conclusion, a separate pro forma with the lender's conclusions should be added in section entitled "Lender Modifications of Value." A separate lender's pro forma is not required to show ORCF required revisions to items such as management fee, reserves, or taxes as part of the Debt Coverage analysis. Those changes will be summarized later in the expense section.</p>

At a minimum the pro forma supplied needs to:

- Summarize the income by source. The income detail needs to be sufficient to show a line item for each source that a specific rate was concluded. Include the payor type (i.e., Medicare, Medicaid, private pay, etc.), the care type (i.e., AL, MC, IL, or SNF), and the room type (i.e., private, ward, one-bedroom, or studio). A count of each type should also be shown.
- Show occupancy assumptions and the assumed number of resident days or occupied units.
- Show the conclusions for the major expense categories.
- Show the net operating income, effective gross income, expense per bed <u>or</u> unit, and the overall expense percentage. It is not necessary to show the potential gross income.

If the appraiser's pro forma does not include sufficient detail, the following table may be used or adapted to produce a pro forma acceptable to ORCF. The input fields are shaded. Non-shaded fields are automatic calculations. Double click the table to open for editing.>>

### Pro Forma - Appraiser's Conclusions

<<Provide narrative discussion as necessary. Summarize and compare the NOI of the appraiser and the lender's NOI that incorporates all potential changes to incomes and expenses. Typically the lender would explain here that the appraiser's "market" NOI was used for valuation and loan sizing based on value. The lender's NOI, which may vary from the appraiser's due to HUD requirements (e.g., specific reserve requirements, or for tax abatements that the appraiser was not allowed to recognize, or unusual management fees) will be used for</p>

loan sizing based on Debt Service Coverage. Additional analysis can be provided at the lender's option to support its conclusion, as appropriate. >>

### **Capitalization Rate**

<<The selection of the capitalization rate should be based primarily on recent sales rather than from investment models. Ideally, these rates would come from the Building Sales Comparables. However, these are often chosen by location before sale date. Recent cap rate data should be included every time, even if an additional set of cap rate comps or a survey needs to be introduced. In the table below, please add columns or duplicate the table as needed to accommodate additional comps.>>

	Date of Sale								

#### Price Per Unit/Bed

<< Provide narrative discussion. An equivalent analysis of the information provided above is required. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide a separate analysis for each care type. Include a general discussion of adjustments made to the sales and which comparables best represent the subject facility.</p>

Additional analysis can be provided at the Lender's option to support its conclusion, as appropriate.>>

### **Effective Gross Income Multiplier (EGIM)**

<< Provide narrative discussion. An equivalent analysis of the information provided above is required. For continuum of care facilities (e.g., skilled and assisted living), it may be appropriate to provide a separate analysis for each care type. Additional analysis can be provided at the Lender's option to support its conclusion, as appropriate.>>

### **Subject Past Purchases**

<< Provide analysis of subject's purchase price for all sales that have occurred within the last 3 years. (The analysis should provide: date of purchase, purchase price, whether the purchase was an arms-length transaction, and the financing term. In addition, the analysis should also state whether the sale was a market price. If not, explain.)>>

## Cost Approach

### **Development Cost**

<< Provide narrative discussion. This section is a place for the lender to summarize the cost conclusions of the appraisal. The costs in this section will be different than those in the Cost Review Section. This section will focus on market costs, as opposed to the Cost Reviewer Section that will be geared toward HUD-specific costs, such as Davis-Bacon wages.>>

# **Depreciation**

<<With new construction this will normally be not applicable, but if the appraiser concludes there is external obsolescence, or depreciation associated with a preexisting structure, it should be discussed here.>>

## **Major Movable Equipment**

<< Provide narrative discussion of assumptions and conclusion. Address discrepancies between appraiser and cost analyst. Additionally, address ownership of the major movable equipment (e.g., borrower or operator).>>

#### **Land Value**

<< Provide narrative discussion of assumptions and conclusion. Include an analysis of the comparable data.>>

#### Reconciliation

(Double click inside the Excel Table to add information)

As -Pr oposed								
Mark et Value Summary								
Approach	Appraisal	Un der writ er						
In come Capit alization								
Sales Comparison								
Cost Approach (if utilized)								
Conclusion:								

<<Provide narrative discussion of how the value approaches were reconciled to reach the final conclusions. The statement may be simple. For example, "As demonstrated in the Appraisal Overview section above, the underwritten value conclusion is based on the income approach to value." If the value conclusion is based on weighting multiple approaches provide an explanation of the rationale.>>

### **Lender Modifications**

<<State if the lender concurs, or not, with the appraiser's value conclusion. When there is a disagreement, summarize the valuation modifications made by lender underwriter. Insert a pro forma to highlight the differences in conclusions as needed. View the appraisal as a tool to do your underwriting and loan sizing correctly. Lenders should not use a value they disagree with and are allowed to use a lower value/NOI for loan sizing purposes. If lenders feel they are prohibited from doing this, they should cite the FIRREA rule at issue in the narrative.>>

# **Initial Operating Deficit**

<<Below is the "output screen" of OHP's required IOD model. Double click to open. There are 3 tabs, the first of which is the "Input" screen. At this early stage, the first tab is the only area you will make entries (entry cells are shaded in light blue). Once finished with the entries, return to the "Output – Summary Exhibit" tab and click your mouse outside the excel chart to close. All three tabs are to be included as exhibit 1-3A.1. The electronic version of exhibit 1-3A.1, should be submitted as a functioning Excel (or equivalent) workbook. After construction is complete, this workbook will again be used to make draw requests on the IOD escrow account (Details and Draw Request tab). Enter narrative explanations below as needed below.>>

## Phase I Environmental Site Assessment

Da	te of inspection:					
Fir	m:					
Co	nsultant:					
<b>T</b> 7						
Ke	y Questions	Yes	No			
1.	Does the report recommend a Phase II assessment, other reports, or additional testing?					
2.	Does the vapor encroachment screen amendment to the Phase I identify a "vapor encroachment condition" (VEC)? (The vapor encroachment screen must be performed using the Tier 1 "non-invasive" screening pursuant to ASTM E 2600-10.)					
	Does the report indicate evidence of any soil staining or distressed vegetation, unusual odors, pools of liquid, leaking containers or equipment, hazardous materials or other unidentified substances?					
4.	Does the report indicate evidence of any chemical misuse or unlawful dumping at the site?					
5.	Does the report indicate the presence or suspected presence of any underground storage tanks or aboveground storage tanks on the site?					
6.	Does the report's review of all major governmental databases for listings of potentially hazardous sites within the ASTM required search distances from the property identify any potential contamination concerns for the property?	1				
7.	Do the Phase I or Phase II reports recommend any required actions or conditions?					
8.	Was the Phase I ESA conducted more than 180 days before the firm commitment application was submitted? (This report must not be more than 180 days old at the time of submission. ORCF is not able to waive this requirement.)					
	For each "yes" answer above, provide a narrative discussion on the topic dd how it will be mitigated.>>	escribing t	he risk			
Pro	ogram Guidance – Above-ground storage tanks (ASTs):					
fac by loc	HUD is required to qualitatively evaluate the risks associated with proximity to hazardous facilities. OHP reviews on Section 232 applications will consider the potential danger presented by liquid fuel and gas aboveground storage tanks (ASTs). When existing or proposed ASTs are located onsite or when offsite tanks are visible from the property, a calculation of the Acceptable Separation Distance must be included in the application.					

#### **General Overview**

The Phase I Environmental Site Assessment (ESA) was performed in conformance with the scope and limitations of ASTM Practice E 1527-05 << *Because ASTM may amend these requirements, please reference the most current version.*>> The investigation specifically included a reconnaissance of the subject site and the immediate surrounding area, a review of regulatory agency information, a survey of local geological and topographical maps, a review of aerial photographic studies, survey of water sources, a review of historical information, and a limited visual inspection for suspect asbestos containing materials (ACMs).

#### **Lender Comments**

<< Provide a brief summary of comments made by underwriter. If none, state none.>>

# Other Potential Environmental Concerns

## **Key Questions**

		Yes	No
1.	Is the project located within a designated coastal barrier resource area		
2.	Is the project located within 5 miles of a civil airport or within 15 miles of a military airfield?		
3.	Is the project located within 1,000 feet of major highways or busy roads		
4.	Is the project located within 3,000 feet of a railroad?		
5.	Are there existing or proposed stationary tanks containing explosive or fire- prone materials of 100 gallons or larger on the site or nearby the site that are visible from satellite images or site reconnaissance?		
6.	Are there any wetlands on the subject site?		
	• If so, will the project impact or disturb wetland areas or their buffer zones?		
7.	Is any construction of the project likely to affect any listed or proposed endangered or threatened species or critical habitats?		
8.	Is the project located on a sole source aquifer?		
9.	Are there any known landfills within ½-mile of the site?		
10.	Are any buildings located in the fall zone of any high voltage power transmission or other towers?		
11.	Does the project include a structure that was built before 1978?		
	• If so, was a comprehensive asbestos survey performed by a qualified asbestos inspector pursuant to the "baseline survey" requirements of ASTM E 2356-10 provided (required for all buildings constructed before 1978)?		

<< For each "yes" answer above, provide a narrative discussion on the topic describing the risk <u>and</u> how it will be mitigated. For example: **Item 11 - Existing Structures on Site:** A vacant one-story house and two storage sheds currently occupy the site. The current owner of the land

will be relocating these structures prior to initial closing, at no cost to the Borrower. Therefore, no off-site or demolition costs are anticipated.

Because of the existing structures, we have addressed potential asbestos and lead-based paint concerns. A qualified assessor evaluated the house and outbuildings for asbestos containing materials. A comprehensive asbestos survey was performed pursuant to the "baseline survey" requirements of ASTM E 2356-10 and no asbestos containing materials were identified. A visual inspection by the environmental assessor also indicated that there is no evidence of peeling paint and no suspect lead-based paint containing surfaces were identified. Given the condition of the paint, the fact that the buildings are not occupied, and the fact that they will be relocated prior to the start of construction, the underwriter and the assessor conclude that no further action is warranted.>>

## State Historic Preservation Office (SHPO) Clearance

<< Provide narrative description indicating whether or not SHPO has been contacted, information sent to SHPO, and any response received. For example: "Since we are not making changes to the exterior of the building, there is no impact on any historical property.">>>

#### <u>Program Guidance – Supporting Documentation of Appropriate Experience:</u>

The application for firm commitment must include complete information on the individuals and/or entity that will bring the appropriate experience to the project. Appropriate experience is 3 to 5 years successful practice in developing, owning and/or operating board and care facilities, assisted living facilities, and/or skilled nursing facilities. If an entity or its principal does not have the appropriate experience, it may contract with a third-party experienced operator. Evidence of appropriate experience must be provided that includes specific project examples including project name, type of care provided, location, unit/bed count, year opened and key operating metrics (fill pace, occupancy, net operating income margins), and specific responsibilities for the management and operation of the example health care facility. The Office of Residential Healthcare Programs (ORCF) is seeking assurance that the developers and other stakeholders are committed to the long-term success of their project and have the requisite experience to operate and manage the project.

In addition to the requirements of the application package, the Lender Narrative must also provide a complete discussion on the borrower's commitment to the project, both financially and in a business sense, over the long-term as well as the borrower's experience.

	\$	\$	\$	

<u>Program Guidance – Supporting documentation of financial capability, cash requirement, and financial qualifications of the borrower:</u>

The application for Firm Commitment must include year-to-date financial statements for the party who will be responsible for the financial requirements (typically the parent entity) at initial closing. If the legal entity of the borrower will be capitalized by another party, the financial statements for that party(ies) must also be provided. The lender must confirm that sufficient financial resources will be available for the cash requirements for closing and to meet any unanticipated financial needs of the project going forward.

The true financial needs of a project are not limited to just the numbers that are reflected under Part III of Form HUD-92264a-ORCF. Although working capital, initial operating deficit (IOD) and a debt service reserve escrow, along with any other required escrows, are presented in this document and should mirror the figures included in the Sources & Uses Statement, there may be times when an owner or principal may be required to contribute funds in the future to maintain a successful project. While it is difficult to determine when and if such an occasion may occur, it is important that ORCF be able to determine the willingness and ability of the principals to support their project over the long-term. Their willingness can be determined by documentation regarding their experience and relationships in the community. Their financial ability can only be evidenced by actual financial reports and evaluation of available working capital.

Exhibit 3-6B of the application for Firm Commitment must include the last three full years and year-to-date financial statements for the party who will be responsible for providing the financial requirements for closing and beyond. The Lender's Narrative must include a

discussion on the available working capital of this party and their ability to support the project over the long-term. In cases where an individual(s) is providing the cash requirement, one full year financial statement on each will suffice. The financial statement must meet either of the following requirements:

- 1. Personal Financial and Credit Statement, Form HUD-92417-ORCF:
  - The spouse of married sponsors or principals must also sign the form.
  - If a spouse's signature cannot be obtained, the principal must prepare the form reflecting only those assets that are solely in their name and any liability, including those joint liabilities, for which they have any responsibility.
- 2. A substitute statement that contains, at a minimum, the information contained on Form HUD-92417-ORCF. This form must contain the following certifications and criminal warning:

I HEREBY CERTIFY that the foregoing figures and statements contained herein
submitted by me as agent of the Borrower [owner] for the purpose of obtaining mortgage
insurance under the National Housing Act are true and give a correct showing of
''s (Name of Borrower or owner) financial position as of
(date of financial statement).
Signed this day of, 20 Signature of authorized agent with name
printed or typed under signature
Warning – HUD will prosecute false claims and statements. Conviction may result in
Walling - HOD will prosecute false claims and statements. Conviction may result in

criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

For married individuals, the spouse must also sign the certification.

During our analysis of new construction or substantial rehabilitation proposals where units are being added to the market, we take into consideration the financial commitment of the owner and their ability to provide financial strength when needed. This includes determining the percentage of cash that the party is putting into the transaction related to the total cost of the project. While a definitive degree of coverage is not required due to the unique nature of each transaction, a level of 20% to 30% equity coverage on new construction or substantial rehabilitation projects is anticipated. Any less than 20% requires an explanation and mitigation. **The discussion under the borrower's financial capability in the Lender's Narrative must include the percentage of owner's equity into the project.** 

# Other Section 232 Projects

#### **General Review**

<< Provide narrative and analysis of financial statements as appropriate. In addition to the Key Questions above, net working capital should be discussed along with the general financial stability and strength of the entity.>>

# **Working Capital Analysis**

<< Provide narrative and analysis of contractor's working capital. Analysis should discuss appropriate adjustments to current assets and liabilities; how you account for work-in-progress; lines-of-credit; verifications of deposit; etc.</p>

**Example**: XXXX current balance sheet is summarized below.

		Financial Statement As of		Working Capital
	)	XXXXXXXX		Analysis
Current Assets	-			
Cash Accounts	\$	1,200,000	\$	1,200,000
Retainage Receivable		3,600,000		3,600,000
Accounts Receivable		4,900,000		4,700,000
Accounts Receivable - Employees		110,000		-
Accounts Receivable - RELATED		5,000		-
Accounts Receivable - RELATED		25,000		-
Cost & Profit in Excess of Bill		650,000		650,000
Prepaid Insurance		150,000		-
Total Current Assets	\$	10,640,000	\$	10,150,000
Current Liabilities				
Retainage Payable	\$	2,680,000	\$	2,680,000
Accounts Payable		4,720,000		4,720,000
Profit Sharing Payable		-		-
Current Portion of Notes Payable		66,000		66,000
Accrued Payables		445,000		445,000
Total Current Liabilities	\$	7,911,000	-\$	7,911,000

The underwriter has made the following modification for the working capital analysis:

### Example:

- Only used accounts receivable less than 90 days old
- Did not use accounts receivable from related parties.
- Did not include prepaid expenses.

The underwriter's analysis of Work in Progress is as follows:

		%			Used for
	Contract	Compl	Contract		Work In
Job	Amount	ete	Balance		Progress
Project A	\$ 309,875	87.0%	\$ 40,284	\$	40,284
Project B	25,790,007	92.6%	1,908,461		-
Project C	11,050,619	99.6%	44,202		-
Project D	1,673,600	66.5%	560,656		560,656
Project E	5,935,000	77.0%	1,365,050	-	1,365,050
:	8,807,800	61.0%	3,435,042	;	3,435,042
: :	196,200	42.2% 39.2%	113,404		113,404 148,613

	5%	of Work	in Progress	=	<i>422,379</i>
	58,001,834		10,416,912		\$ 8,447,572
	\$		\$		
:	922,400	25.7%	685,343		685,343
:	74,434	36.5%	47,266		47,266
:	2,063,500	4.6%	1,968,579		1,968,579
:	100,164	16.8%	83,336		83,336
:	833,806	98.0%	16,676		-
	244,429		148,613		

The underwriter calculated the working capital necessary for the work in progress as 5% of the contract balances for all work that was less than 90% complete. The working capital for the planned sister facility in XXXXX is 5% of the contract amount of \$6,356,426. The working capital for the subject is 5% of the contract amount of \$6,502,743.

Based on the above adjustments and analysis, the underwriter concludes to the following working capital analysis:

Current Assets	10,150,000
Current Liabilities	(7,911,000)
Working Capital	\$ 2,239,000
Working Capital for Other Work in Progress	(422,379)
Working Capital for planned SISTER Facility	(317,821)
Working Capital for Subject	(325,137)
Excess Working Capital	\$ 1,173,663

The contractor clearly demonstrates sufficient working capital for the current work in progress and the planned sister facility and the subject facility. In addition to the above working capital, the contractor also has a \$XXXXM revolving line of credit that currently has no balance. The line of credit is available to supplement the above working capital, if necessary, during construction. >>

#### Conclusion

<< Provide narrative discussion of underwriter's conclusion and recommendation. For example, "The general contractor has demonstrated an acceptable financial and credit history. The general contractor has the experience to continue to complete the construction. The underwriter recommends this general contractor for approval as an acceptable participant in this transaction." >>

## **Operation of the Facility**

## Staffing

<< Provide narrative description of review. For example, "The appraiser and underwriter have reviewed the proposed staffing to be charged to the facility and found it to be acceptable and within reason.">>

## **Lease Payment Analysis**

underwriting.>>

The lease payments must be sufficient to (1) enable the borrower to meet debt service and impound requirements and (2) enable the operator to properly maintain the project and cover operating expenses. The minimum annual lease payment must be at least 1.05 times the sum of the annual principal, interest, mortgage insurance premium, reserve for replacement deposit, property insurance and property taxes.

The underwriter has prepared an analysis demonstrating the minimum annual lease payment.

a.	Annual principal and interest	\$
b.	Annual mortgage insurance premium	
c.	Annual replacement reserves	
d.	Annual property insurance	
e.	Annual real estate taxes	
f.	Total debt service and impounds	\$
	N	4
h	Minimum annual lease payment	\$

<<Compare the minimum annual lease payment to the current lease payment. If the lease payment needs to increase, add the following language: "The lease payment must be increased to \$XX per year (\$XX per month). The underwriter has included a special condition to the firm commitment requiring the lease payment be revised to meet or exceed this minimum." If the lease payment does not need to increase, add the following language: "The current lease payment is sufficient. The recommended annual lease payment also provides the operator with an acceptable profit margin.">>

### **Program Guidance:**

- <u>Clarification of minimum lease payments</u>. The annual lease payment must be calculated using a minimum of a 1.05 coverage ratio (e.g., the sum of the annual principal, annual interest, annual mortgage insurance premium, annual reserve for replacement deposit, annual property insurance, and annual property taxes times a multiplier of 1.05). This minimum coverage level required for executed leases is different than the test measurement used in the 223(f) Lender's Narrative, which remains unchanged; it will continue at the 1.17 coverage level.
- <u>Subordination, non-disturbance and attornment agreement (SNDA)</u>. If there is an identity of interest between the borrower and the operator, a SNDA is not permitted.

## Responsibilities

<< Provide a description of the responsibilities of the lessor and lessee under the terms of the lease with regard to the following: payment of real estate taxes, maintenance of building, capital improvements, replacement of equipment, property insurance, etc.>>

## **Master Lease**

## **Key Questions**

		Yes	No
1.	Are three or more projects (or two projects with an aggregate total mortgage loan amount greater than \$15 million) being submitted to HUD that are under common control or have the same ownership?		
2.	Will the projects be submitted within an 18-month window?		
3.	Is the parent of the operator the same for all of these projects?		
des pro de <sub>l</sub> Na	If you answer "yes" to all three questions, a master lease is required. Provide scribing the terms of the master lease, lease payments, all parties involved, rene ovisions, etc. The HUD Lease Addendum must be attached to the subleases. Refinitions of" common control" and "same ownership" previously provided in the trative.>>	ewal efer to

	its principals as defined in Notice H 08-09?		
6.	Does the maximum AR loan amount exceed 85% of the Medicaid, Medicare, and other governmental accounts receivable less than 121 days old?		
7.	Of the total Medicaid, Medicare and other governmental accounts receivable less than 121 days old, are more than 30% over 90 days old?		
	yy		

		Yes	No
8.	Does the AR lender have less than 3 years of experience providing AR financing?		
9.	Does the AR lender lack the financial controls and capability to monitor the operator's performance?		
10.	Is the borrower or operator out of compliance with any business agreements with HUD (i.e., in default on those agreements, not current on financial submissions, etc.)?		
11.	Is the AR loan being syndicated or participated?		
12.	Is the lockbox associated with the DAISA Government Receivables account a "springing lockbox"?		
<<	For each "yes" answer above, provide a narrative discussion regarding the top	oic.>>	

### **Terms and Conditions**

- 1. Describe the borrowing base formula (e.g., XX% of the AR borrowers accounts receivable up to 120 days):
- 2. Describe term and renewal options:
- 3. Describe the rate applied to the used and unused portion of the AR loan:
- 4. Other fees (i.e., financing fees, late payment fees, etc.):

### Mechanisms for operator receipts, disbursements and control of operator funds:

<<Describe the flow of all funds, into and out of accounts (i.e., point of origination to final destination). Describe how deposit accounts are controlled (e.g., number of controlled accounts, hard or springing lockbox, daily sweeps, etc.). Attach cash flow chart.>>

## Collateral/Security

<Provide narrative description of the AR lender's collateral/security. Explain any unsecured
AR financing.>>

## **Permitted Uses and Payment Priorities**

<< Provide descriptions of the permitted uses of the AR loan funds in order of priority. For example: (1) debt service incurred in connection with the AR loan; (2) operating costs; and (3) distributions to the operator's shareholders. See Attachment C of Notice H 08-09, Rider to Intercreditor, Paragraph 3 or any other successor guidance.>>

### **Financial Analysis**

#### **Maximum AR Loan Calculation**

(Double click inside the Excel Table to add information)

	0-90 dag	/S	9	91-120 da	ays	121-15	i0 days	151+ days
Medicare		7						
Medicaid								
Other Govt								
Subtotal	\$ -		\$	-		\$	-	\$ -
Commercial		7						
Private*								
Total	\$ -		\$	-		\$	-	\$ -

<sup>\*</sup>Private is not considered when determining HUD's maximum AR loan amount.

#DIV/0!	of Medicare, Medicaid, Commercial AR less than 121 days old is over 90 days old.
\$ -	HUD Maximum AR Loan Amt = 85% of Medicare, Medicaid, and Commercial AR 120 or less days old.
	AR Lender Maximum Loan Amount

### **Historical AR Loan Costs**

<<If there is an existing AR loan that is not yet approved by HUD, provide a financial analysis that explains how the cost of the AR loan has been factored into the NOI calculation. Complete the Historical AR Loan Costs table.>>

#### **Historical AR Loan Costs**

(Double click inside the Excel Table to add information)

20XX	20XX	20XX	YTD specify months	20XX-20XX Average	UW

## **Proposed AR Loan Costs**

<<If the AR borrower is obtaining AR financing for the first time, provide a financial analysis that demonstrates that the AR borrower has sufficient financial capacity to pay all projected operating expenses, AR financing costs and loan payments, and all rent or debt service payments. The analysis must assume the maximum AR loan amount to stress test the AR financing based on the lesser of the operator's 12-month trailing operating statements or the underwritten NOI. Calculate the impact on the borrower's debt coverage after payment of the AR loan expenses and payments.>>

Assuming the \$ maximum AR loan limit, an annual interest rate of %, and that the entire amount is outstanding for the year, the maximum annual interest expense would be \$ . In addition to the interest, the other associated fees are the fees << list types of fees>>, that total \$ per year for the same assumed balance. An analysis of the operator's 12 month trailing financial statement (Month 20XX – Month 20XX) is below:

12-Month Trailing Operating History				
Operating revenue	\$			
Less: Operating expenses				
Net operating income (NOI)	\$			
Annual P&I + MIP AR fee: Interest AR fee: Other	\$			
Total annual mortgage & AR debt service	\$			
DSCR including AR				

The underwriting assumed an NOI of \$ . The 12-month trailing NOI is \$ . The annual debt service including the MIP amount is \$ per year. Adding the AR fees equates to a total mortgage and AR debt service expense of \$ per year. This equates to prospective debt service coverage.

<< If multiple HUD-insured facilities have access to the AR loan, repeat the analysis above with the consolidated revenues and expenses for all those facilities.>>

### Recommendation

<< The lender recommends approval of the AR loan.>>

### **Insurance**

## Professional Liability Coverage

#### **Program Guidance:**

The PLI insurance policy must be in the name of the entity that is conducting the day-to-day operations of the subject facility. The PLI policy can be issued to the parent operator as long as each operating entity that is conducting the day-to-day operations of the facility is listed on the policy.

Commercial insurance:	Yes	S No

### **Key Questions**

		Yes	No
1.	Will the insurance policy cover multiple properties? ( <i>If yes, complete questions a through e below.</i> )		
	a. Is less than 6 years of loss history available?		
	b. Does the loss history indicate any professional liability claims over \$35,000?		
	c. Does the loss history or potential claims certification indicate any uncovered claims?		
	d. Does the loss history or potential claims certification indicate any claims that would exceed the per occurrence or aggregate coverage limits?		
	e. Have the facilities been covered by a "claims made" policy at any time during the statute of limitations for the states where the facilities are located?		
2.	Is the policy funded on a "cash front" basis?		
3.	Is an actuarial study applicable (self-insurance)? (If yes, discuss results below.)		
4.	For all facilities identified on the insured's Schedule of Facilities Owned, Operated or Managed, are there any surveys/reports that have open G-level or higher citations outstanding? (As appropriate, provide a complete analysis of the surveys.)		
5.			
õ.	Are there any PLI issues that require special consideration?		
If y	you answer "yes" to any of the above questions, please address here. Example	es:	
	ultiple properties: The underwriter notes that the professional liability policy is licy covering XXX facilities, including the subject {Address potential impact		æt"

facilities on the subject's coverage}

<u>Less than 6-year loss history</u>: The claims history reports were examined for the period XX through XX. The underwriter determined that there were no professional liability XX claims during that period...{address claims and sufficiency of coverage, etc. based on history}.

<u>Claims made coverage</u>: The project's previous professional liability insurance coverage was a "claims made" form policy with XXXX, which expired XXXX, when the current policy was put in place. In XXXX, the borrower purchased a "nose coverage" policy, which is the coverage needed when going from a "claims made" form of insurance to a "per occurrence" form of insurance. The premium for this "nose" coverage liability was a one-time charge and was paid in XXX. Because of that additional insurance coverage, the insurance expense for XXXX was substantially higher than the current expense. The current "per occurrence basis" insurance

policy covers the entire statute of limitations. The project's professional liability insurance is in compliance with HUD's requirements.>>

#### Lawsuits

<< As applicable, discuss each lawsuit and describe the potential risk related to the party's participation in the proposed project. Discuss how that risk is mitigated.

If the suit is closed, does it contribute to a pattern? Does it materially affect the party's ability to participate in the project? If not closed, describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by insurance (general or professional liability—identify which one), and if the insurance is not sufficient, do they demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.>>

### Recommendation

<<Provide narrative recommendation regarding acceptability of professional liability insurance. For example, "The mortgagor's professional liability insurance was analyzed in accordance HUD requirements. The property has XX current potential (threatened) insurance claims at this time as reflected on the certification provided by the borrower. It is {lender}'s opinion that the information provided above and in the application sufficiently demonstrates that the existing professional liability coverage meets HUD's requirements and that the risk from professional liability issues is sufficiently addressed. No modifications to the current coverage are recommended.">>>

#### **Program Guidance:**

State licensing surveys of all individual facilities of the operator for the last 3 years, are to be transmitted as part of the application submission. These surveys will be used to determine the quality of care provided by the operator. The operator or its parent must also submit a 6-year loss history of all professional liability claims filed against it for all facilities controlled by the operator or its parent. This loss history should be provided in annual summary form and should:

- A. Provide a current inventory of all paid or settled claims.
- B. Break out the expected cost of claims in a year-by-year summary. In separate line items, list the amount of the actual and/or anticipated awards, claims expenses, and any funds reserved for estimated claims.
- C. List total actual or estimated claims costs for compensatory damages, medical expenses, punitive damages, and legal expenses incurred processing the claim.
- D. Identify potential or expected professional liability claims in excess of \$35,000 that have been or may be filed for all periods within the statute of limitations for the state where the

claim occurred.

- E. Include a brief discussion or chart that provides the timeframe for the statutes of limitations for filing claims of negligence, injuries, wrongful death, and/or improper care based on the law in the states where the parent operator's facilities are located.
- F. Include a certification from the parent operator (or operator, if no parent) as to the accuracy of this documentation. The certification must be signed and dated by a senior officer of the parent operator (or operator, if no parent), and include the following statement:

"HUD will prosecute false claims and statements. Convictions may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)"

### **Property Insurance**

<< Provide narrative discussion of review. For example, "Hazard and Liability insurance has been and/or will be provided by XX. The underwriter has confirmed estimates of the cost and coverage for underwriting and that it complies with HUD requirements.">>>

### Builder's Risk

<< If contractor is paying, show in contractor's other fees. If borrower is paying, show in borrower's other fees.>>

## Fidelity Bond/Employee Dishonesty Coverage

<<Provide narrative discussion of review. For example, "The current insurance policy reflects fidelity (crime) insurance with the limit of \$XX and \$XX deductible. The HUD requirement for at least two months gross income receipts would total \$XX. The current level of coverage is sufficient for this project." If not sufficient, recommend commitment condition.>>

## **Mortgage Loan Determinants**

#### **Overview**

The mortgage criteria shown on the form HUD-92264a-ORCF are summarized as follows:

Requested amount:	\$
Amount based on replacement cost:	\$
Amount based on loan to value:	\$
Amount based on debt service coverage:	\$
Amount based on total indebtedness:	\$
Amount based on deduction of loans, grant(s), loan(s), LIHTCs, and gift(s) for mortgageable items:	\$

## Mortgage Term

The underwriter concluded to a mortgage term of years. << must be coterminous with the current first mortgage>>

## Type of Financing

The type of financing available to the borrower upon issuance of the commitment will likely be in the form of .

## Criterion C: Amount Based on Replacement Cost

The amount based on replacement cost limit is \$ . This is based on 90% of the replacement cost of the improvements of \$ .

### Criterion D: Amount Based on Loan-to-Value

The \$ value of improvement limit was calculated in accordance with HUD guidelines.

This is based on % of the underwriter's value of improvements \$ (as-proposed value minus as-is value).

## Criterion E: Amount Based on Debt Service Coverage

The \$ debt service limit was calculated using HUD's guidelines.

The underwriter's NOI for the project after improvement is \$ << indicate if this amount differs from the appraiser's NOI for the project after improvement>>. Annual debt service payments on outstanding indebtedness related to the property is \$ . There is no annual ground rent or annual special assessments on the property. Therefore, the NOI available for the supplemental loan is \$ . There is an interest rate of % and an assumed remaining term of months. << the insured loans must be coterminous>>

(Double click inside the Excel Table to add information)

Calculation of Net Operating Income Available for Supplemental Loan		
Net Operating Income (NOI) of Project After Improvement:	\$	-
Percentage of NOI Available for Total Debt Service:		90.000%
NOI Available for Total Debt Service:	\$	-
Less: Annual Debt Service Payments Required on		
All Outstanding Indebtedness Relating to Property:		-
Less: Annual Ground Rent:		-
Less: Annual Special Assessment(s):		-
Incremental NOI Criterion E:	\$	-

## Criterion L: Deduction of Grants, Loans, and Gifts

The limit was calculated in accordance with HUD guidelines as follows:

a.	Amount based on estimated cost of rehabilitation	\$
b.	(1) Grants/loans/gifts	
	(2) Tax credits	
	(3) Value of leased fee	
	(4) Excess unusual land improvement cost	
	(5) Unpaid balance of special assessment	
	(6) Sum of lines (1) through (5)	\$
c.	Line a minus line b (6)	\$

The secondary sources are discussed in detail below in the Sources & Uses section of the narrative.

### **Program Guidance:**

The grants, loans, gifts, and tax credits to be deducted are those credits for mortgageable cost only. Sources for non-mortgageable cost are not included in the calculations and are also not reflected in any of the other criterion on Form HUD-92264a-ORCF. The sources and uses statement provided by the borrower should outline all mortgageable and non-mortgageable costs and the source(s) to fund each.

## Sources & Uses – Copied From HUD 92264a-ORCF

<<Provide a statement of Sources and Uses of actual estimated cost at closing. Include all
eligible and ineligible costs.>>

## **Secondary Sources**

<<Li>and discuss all secondary sources, including terms and conditions of each. Secondary sources include surplus cash notes, grants/loans, tax credits, and the like.>>

### Other Uses

<< Discuss any uses not previously discussed in this narrative.>>

### **Program Guidance:**

#### **Government Sources:**

- 1. The secondary financing may be on a form of promissory note and mortgage lien as is prescribed by the governmental funding source and reviewed and approved by ORCF.
- 2. Secondary financing or grants advanced to the property as a secondary loan may be used to cover up to 100% of the applicable Section of the Act equity requirements.
- 3. Secondary financing or grants advanced to the property as a secondary loan may also be used to finance non-mortgageable costs, and when added to the HUD mortgage and required equity contribution, may exceed 100% of the project's Fair Market Value (FMV) or Replacement Cost.
- 4. Non-mortgageable costs (i.e., replacement cost items, not eligible for inclusion in the HUD-insured loan) to be covered by governmental secondary loans, or grants advanced to the property as a secondary loan, must be certified by the funding source to be reasonable and necessary to complete the project and that the project costs to be covered by the secondary financing are reasonable. Documentation to this effect must be included with the application submission.
- 5. The governmental secondary financing lender must agree to and enter into a HUD-prescribed form of Subordination Agreement that details the rights and legal relationship between the HUD insured first mortgage and the secondary financing loan.

#### **Private Sources:**

Secondary financing from a private source is not permitted on Section 232 New Construction, Substantial Rehabilitation and Blended Rate projects.

## Cash Requirements

Initial operating deficit:				
	Absorption rate/no. units per month:			
	No. months	to cover sho	rtfalls:	
	Breakeven Occupancy %:			
Working capital:	\$	\$		
Cash investment:	\$			
Debt service reserve escrow:	\$			
	No. months of principal & interest payments:			
Offsite escrow:	\$			
Minor movable equipment escrow:	\$			
Demolition:	\$			
Other:	\$			
TOTAL:	\$		% of total project cost:	%*
*Total cash requirements divided by total project cost.				
Cash requirement will be met by:			re-paids, letter of cr orrower's cash and	redit, sponsor, etc. letters of credit.">>
Based on a review of the principals $<<$ identify $principal(s)>>$ their net worth is estimated at $$$ their liquidity meets/exceeds $$$ .				

## <u>Circumstances that May Require Additional Information</u>

In addition to the information required in this narrative, depending upon the facility for which mortgage insurance is to be provided, the mortgagor, operator, management agent and such other parties involved in the operation of the facility, current economic conditions, or other factors or conditions as identified by HUD, HUD may require additional information from the lender to accurately determine the strengths and weaknesses of the transaction. If additional information is required, the questions will be included in an appendix that accompanies the narrative.

# **Special Commitment Conditions**

<<Li>tany recommended special conditions. If none, state "None.">>

1.

2.

## **Conclusion**

<< Provide narrative conclusion and recommendation.>>

# **Signatures**

Lender hereby certifies that the statements and representations of fact contained in this instrument and all documents submitted and executed by lender in connection with this transaction are, to the best of lender's knowledge, true, accurate, and complete. This instrument has been made, presented, and delivered for the purpose of influencing an official action of HUD in insuring the loan and may be relied upon by HUD as a true statement of the facts contained therein.
