**Public reporting** burden for this collection of information is estimated to average 15 hour. This includes the time for collecting, reviewing, and reporting the data. The information is being collected to obtain the supportive documentation which must be submitted to HUD for approval, and is necessary to ensure that viable projects are developed and maintained. The Department will use this information to determine if properties meet HUD requirements with respect to development, operation and/or asset management, as well as ensuring the continued marketability of the properties. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

**Warning:** Any person who knowingly presents a false, fictitious, or fraudulent statement or claim in a matter within the jurisdiction of the U.S. Department of Housing and Urban Development is subject to criminal penalties, civil liability, and administrative sanctions.

#### **INSTRUCTIONS**:

The lender should review the Cost Certification and audited financial statements and complete the following sections of this supplement:

Mortgage Increase Request?	New Construction Substantial Rehabilitation 232		232/241(a)
No N/A—Complete Lender Certificati		All sections	N/A—Complete Lender Certification
Yes	All sections	All sections	All sections

The narrative is a document critical to the Lean Underwriting process. Each section of the narrative and all questions need to be completed and answered. If the lender's underwriter disagrees and modifies any third-party report conclusions, provide sufficient detail to justify. The narrative should identify the strengths and weaknesses of the transactions and demonstrate how the weaknesses are mitigated by the underwriting.

- <u>Charts</u>: The charts contained in this document have been created with versatility in mind; however they will not be able to accommodate all situations. For this reason, you are allowed to alter the charts as the situation demands. Be sure to state how you have altered the charts along with your justification. Include all the information the form calls for. Charts that include blue text indicate names that should be modified by the lender as the situation dictates.
- **Applicability:** If a section is not applicable, state so in that section and provide a reason. Do not delete a section heading that is not applicable. The narrative will be checked to make certain all sections are provided. If a major section is not applicable, add " Not

Applicable" to the heading and provide the reason. For instance:

## Parent of the Operator – Not Applicable

This section is not applicable because there is no operator.

The rest of the subsections under the inapplicable section can then be deleted. This instruction page may also be deleted.

- **Format:** In addition to submitting the PDF version of the Lender Narrative to HUD, please also submit an electronic Word version.
- Additional documents to be submitted with the Cost Certification are:
  - 1. Audited borrower financial statements and Form HUD-92330
  - 2. Audited general contractor and subcontractor financial statements (as applicable) and Form HUD-92330-A
  - 3. Form HUD-92023-ORCF
  - 4. Draft LEAN Section 232 Maximum Insurable Mortgage Letter
  - 5. Invoices that have not been provided to HUD for initial closing or insured advances.
  - 6. Updated third-party appraisal and lender narrative appraisal section (in the case of a mortgage increase request that includes a proposed revision to value).

Instead of pasting large portions of text from third-party reports into the narrative, it is preferred that the lender simply reference the page number and the report. The focus of this document is for lender conclusions, analyses, and summaries.

Italicized text found between these characters << EXAMPLE>> is instructional in nature, and may be deleted from the lender's final version. Please use the gray shaded areas (e.g., ) for your response. Double click on a check box and then change the default value to mark selection (e.g., ).
