Interactive Completion Version

United States International Trade Commission
Attention: Digital Trade Project Team
Office of Industries, Room 511
500 E Street, SW, Washington, DC 20436
Fax: 202-205-2018

The U.S. International Trade Commission (USITC) has been asked by the U.S. Senate Committee on Finance to estimate the value, linkages, and contributions of U.S. digital trade to the U.S. economy and examine the effect of notable barriers to such trade. The USITC's report is intended to help policymakers better understand the role of digital trade in the U.S. economy. This report will consider U.S. commercial activity related to products and services advertised, ordered, or sold online (regardless of their mode of delivery); and also digitally intensive industries where Internet technologies are a key element in the production process.

This questionnaire has been designed to collect information to fulfill this request. More information about this report and the investigation for which it is being prepared (no. 332-540) can be found by clicking on the following button:

Your organization is required by law to respond to this questionnaire.

Please read all instructions and return the completed questionnaire to the USITC no later than November XX, 2013.

The information is requested under the authority of section 332(g) of the Tariff Act of 1930 (19 U.S.C. § 1332(g)). Completing the questionnaire is mandatory, and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)). For more information on this questionnaire, contact these project team members:

David Coffin (202-708-4721; david.coffin@usitc.gov)
James Stamps (202-708-2719; james.stamps@usitc.gov)

Confidentiality

The Commission has designated as "confidential business information" the information you provide in response to this questionnaire, to the extent that such information would reveal the operations of your organization and is not otherwise available to the public. The Commission will not disclose such confidential business information except as provided for in section 7 of this questionnaire. Information received in response to this questionnaire will be aggregated with information from other questionnaire responses and will not be published in a manner that would reveal the operations of your organization.

Instructions

1. **Completing the questionnaire.** The best way to answer this questionnaire is to use an interactive version that is available online. To retrieve this version, go to the website shown below. Follow the instructions on this web page and save the questionnaire to your computer. This version of the questionnaire is appropriate only if you are completing it interactively.

<http://www.usitc.gov/digitaltrade>

If you prefer not to use the interactive version, you must contact the project team (see cover for contact information) and request a hard copy of the questionnaire. This is the only way to obtain a hard copy of the questionnaire; if you print out the interactive version, you will not have access to drop-down menus and critical information will be missing.

2. **Accessing the file.** Open the questionnaire file using Adobe Reader software. If you have an old version of this software, you may be prompted by your computer operating system to upgrade (this is free software). **Contact the project team if you cannot open the file (see cover for contact information).**

Note: Once opened, the file will accept information. It has been designed to make it easy for you to complete the questionnaire electronically, and minimize the need for the Commission's project team to contact you for clarifications.

3. **Entering information.** Please answer each question that applies to your organization. You can answer questions using the provided checkboxes, drop-down lists, and type-in entry areas. These entry areas are normally highlighted in blue, although this color may vary depending on your computer's settings. Some questions with drop-down lists let you customize the way you enter information (these cases will be indicated in the question text).

You will not be able to change the questionnaire itself or enter information outside the entry areas. Certain type-in entry areas will accept only numbers and not text.

4. **Navigation.** Move to entry areas by clicking on them. You can use the tab key to do this, but only within a page. Use the navigation buttons on the bottom of the page to move directly to a specific section.
5. **Entering numeric data.** Note that data for sales, employees, etc. should be entered as full figures, not in thousands, millions, or similar format. For example, enter "123,400,000," not "123.4 million."
6. **Entering percentage data.** Enter data in percentages as whole numbers or up to two decimal positions. For example, "78", "78.1", or "78.15 are all acceptable.
7. **Submitting the questionnaire.** After completing the questionnaire, there are four ways you can submit it. These options are shown on the last page of the questionnaire. Please keep the file as an Acrobat pdf file and do not convert it to another file format.

General information

1. **Coordinating your organization's response.** If separate persons or departments within your organization will share responsibility for completing this questionnaire, please coordinate your responses so that the information your organization gives us is consistent. This will minimize our need to call you back for clarifications.
2. **Relationship to corporate structure.** Please provide a single response for your organization's activities. This may require your organization to combine information from two or more business units.

If it is not possible to combine responses, or it is unreasonably burdensome, then your organization may provide separate responses for business units, but please ensure that the information is complete and there is no double-counting.

Joint venture organizations operating in the United States should submit their own response, and there should be no double-counting with other business units of the joint venture partners.

3. **U.S. affiliates of foreign companies.** Please respond as if the affiliate were an independent organization operating in the United States. For example, show total sales for the affiliate only, and not for the foreign corporation.
4. **"You" and "Your."** Parts of the questionnaire refer to "you" and "your." These words refer to the organization that is responding to the questionnaire.
5. **"United States."** This refers to the Customs territory of the United States, which includes the 50 states, the District of Columbia, and Puerto Rico.
6. **Questionnaire structure.** This questionnaire is composed of eight sections, as shown below.

Use this option to send your completed questionnaire as an email attachment. Click on this button and follow the instructions. Note that submitting your questionnaire response by email will subject your organization's confidential business information (CBI) to transmission over an unsecured environment and to possible disclosure to third parties. Any risk of disclosure of CBI during transmission is assumed by your organization and not us. However, once we receive the email, we will store your questionnaire response in our secured environment and safeguard it as detailed in the certification in section 7.

Use this option if you prefer to send your completed questionnaire on a CD (or other removable media). Click on the button and save the questionnaire to a CD. Mail the CD to us (see address on page 1). We don't recommend sending the CD by regular U.S. mail because this type of mail undergoes extra processing to screen for hazardous material that will likely delay the delivery and may damage the CD. Instead, we recommend overnight mail service.

Use this option if you prefer to send your completed questionnaire in hard copy (paper) form. Click on the button and your print screen will appear. After printing, mail or fax the completed questionnaire to us (see address and fax number on page 1). We don't recommend sending the questionnaire by regular U.S. mail because this type of mail undergoes extra processing to screen for hazardous material that will likely delay the delivery. Instead, we recommend overnight mail service.
