Introduction

This document contains the questions on the 2013-2014 National Adult Tobacco Survey (NATS) conducted by the CDC's Office on Smoking and Health (OSH), in partnership with the Food and Drug Administration's Center for Tobacco Products (FDA-CTP).

In 1999, the CDC's Office on Smoking and Health (OSH) created the National Tobacco Control Program (NTCP) to encourage coordinated, national efforts to reduce tobacco use and tobacco-related diseases and deaths. In 2009, Congress' the Family Smoking Prevention and Tobacco Control Act (FSPTCA) gave the Food and Drug Administration (FDA) the authority to regulate tobacco products. These regulatory changes are expected to influence tobacco product use patterns and to reduce tobacco-related morbidity and mortality. Tracking patterns of tobacco use over time is a shared interest for both the Centers for Disease Control and Prevention's Office on Smoking and Health (OSH) and the FDA's Center for Tobacco Products (CTP). The National Adult Tobacco Survey is intended to provide surveillance and evaluation data critical for evaluating the impact of the CDC's National Tobacco Control Program (NTCP) and the FDA's regulatory efforts. So, this survey includes measures on key outcome indicators critical to evaluating and monitoring CDC's NTCP and questions on new and emerging tobacco products, as well as measures relevant to the impact of FDA's regulatory activities which ensure that its efforts are protecting the public's health.

The purpose of this introduction is to provide the reader with information that will help in understanding and navigating the questionnaire.

The NATS is a stratified, random-digit dialed, telephone survey of non-institutionalized adults 18 years of age and older. It is designed to yield data that are representative and comparable at the national level.

The sections of the NATS questionnaire capture information used to monitor the impact of FDA activities. These sections are:

1. Cigarette use patterns – Cigarettes are by far the largest contributor to tobacco-related disease and death in the U.S., and the questions in this section assess current and past usage patterns. Many of these questions are consistent with those asked in the previous version of NATS.
2. Susceptibility (cigarettes) – These questions are asked among young adults to gauge non-smokers' susceptibility to cigarette smoking initiation. These are a subset of questions used to assess susceptibility among youth in NYTS, based on research by John Pierce.
3. Other tobacco products – As cigarettes have become increasingly regulated and with the potential for future marketing of modified risk tobacco products, FDA needs to monitor awareness, use, susceptibility, and risk perceptions of non-cigarette tobacco products.
4. Addiction (all tobacco) – The most significant driver of continued use and relapse, addiction will be important to monitor, specifically as tobacco product changes are implemented.
5. Cessation – Standard measures of intention to quit, quit attempts, and quitting success, both for cigarettes and all tobacco products.
6. Marketing/Public Education – The Tobacco Control Act gives FDA the authority to regulate the marketing of tobacco products and to educate the public about the harms of tobacco products. These questions measure exposure to different types of marketing and promotion and responses to health warnings on packages and advertisements.

7. Purchasing behavior (cigarettes) – Monitoring smokers’ purchasing patterns and use of price promotions will enable FDA to assess the impact of regulatory actions regarding the marketing and distribution of tobacco products, as well as identify emerging marketing practices.
8. Demographics – Important covariates to identify differential impacts of regulatory actions among subpopulations.
9. Knowledge/Attitudes/Perceptions – These questions measure short-term outcomes of efforts to inform the public of the health risks associated with tobacco products, which predict intentions and behaviors.
10. Secondhand smoke – A few questions were kept from the previous version of NATS to measure social norm changes and perceptions about the harmful effects of SHS to non-smokers, one of the warning statements on the cigarette graphic health warnings.

Main Body of Questionnaire

Note: The landline and cell phone screeners are in Appendices A and B after the main body of the questions.

Introductory Questions

GENHEALTH

Rationale: Provides an easy opening to the survey and can prove a useful covariate in analysis.

/ASK ALL/

1. Would you say that in general your health is...?
 1. Excellent
 2. Very good
 3. Good
 4. Fair
 - or
 5. Poor

 7. DON'T KNOW/NOT SURE
 9. REFUSED

AGE

Rationale: Key covariate.

/ASK ALL/

/RANGE: 7,9,18-130/

2. What is your age?
_ _ _ . AGE IN YEARS
 7. DON'T KNOW/NOT SURE
 9. REFUSED

Cigarette Smoking

SMOK100

Rationale: To utilize a standard measure to determine whether the respondent ever smoked cigarettes.

/ASK ALL/

HELP: 100 CIGARETTES=5 PACKS

3. Have you smoked at least 100 cigarettes in your entire life?
1. YES
 2. NO

 7. DON'T KNOW/NOT SURE
 9. REFUSED

SMOKNOW

Rationale: To monitor current cigarette usage.

/Asked of respondents who are age 18-29 or have smoked at least 100 cigarettes in their entire life/

/ASK IF Q2 AGE EQ (18-29) OR Q3 SMOK100 EQ 1/

4. Do you now smoke cigarettes every day, some days, or not at all?
1. EVERY DAY
 2. SOME DAYS
 3. NOT AT ALL

 7. DON'T KNOW
 9. REFUSED

SMOKTYPE

Rationale: To determine the proportion of smokers that purchase loose tobacco.

/Asked of respondents who now smoke cigarettes every day or some days/

/ASK IF Q4 SMOKNOW EQ (1,2)/

5. When you smoke cigarettes, do you usually smoke manufactured cigarettes, roll-your-own, or both?
1. PREMADE CIGARETTES
 2. ROLL-YOUR-OWN
 3. BOTH

 7. DON'T KNOW
 9. REFUSED

SMOKMENTHREG

Rationale: To obtain information about the use of menthol cigarettes

/Asked of respondents who have smoked at least 100 cigarettes in their entire life/

/ASK IF Q3 SMOK100 EQ 1/

6. Have you ever smoked menthol cigarettes for 6 months or more?
1. YES
 2. NO

 7. DON'T KNOW/NOT SURE
 9. REFUSED

SMOKMENTHNOW

Rationale: To obtain information about the use of menthol cigarettes

/Asked of respondents who now smoke cigarettes every day or some days/

/ASK IF Q4 SMOKNOW EQ (1,2)/

7. Currently, when you smoke cigarettes, how often do you smoke menthol cigarettes...?
1. All of the time
 2. Most of the time
 3. Some of the time
 4. Rarely
 5. Never

 7. DON'T KNOW/NOT SURE
 9. REFUSED

SMOKPERDAY

Rationale: To assess current patterns of cigarette usage.

/Asked of respondents who now smoke cigarettes **every day**/

/ASK IF Q4 SMOKNOW EQ 1 or Q8_VER=2/

/RANGE: 1-180,666,888,777,999, VERIFY IF (888,666,1-3,41-180)/

INTERVIEWER: IF RESPONDENT STATES A RANGE OR IS UNSURE, READ:

You said you smoke about x to y cigarettes a day. Your answer doesn't have to be exact, but I do need to report one number. What is your best guess of the average number of cigarettes you smoke in one day?

8. On average, about how many cigarettes do you now smoke each day?

HELP: 1 PACK=20 CIGARETTES.

___ . NUMBER OF CIGARETTES

I just want to verify, you said that on average you smoke //insert response if 1-3, or 41-180//; If Q8=666 enter "less than one cigarette a day" or if Q8=888 enter "no cigarettes each day"//, is that correct?

1. YES, CORRECT AS IS
2. NO, NEED TO RE-ENTER RESPONSE
9. REFUSED

SMOKDAYS30

Rationale: To assess usage patterns of cigarettes.

/Asked of respondents who now smoke cigarettes **some days**/

/ASK IF Q4 SMOKNOW EQ 2 or Q9_VER=2/

/RANGE: 1-30,88,77,99. VERIFY IF88/

INTERVIEWER: IF RESPONDENT STATES A RANGE OR IS UNSURE, READ:

[You said you smoked cigarettes on [STATE RANGE:] "x to y" days.] Your answer doesn't have to be exact, but I do need to report one number. What is your best guess of the number of days you smoked cigarettes in the past 30 days?

9. On how many of the PAST 30 DAYS did you smoke cigarettes?

- __ . NUMBER OF DAYS
88. NONE
 77. DON'T KNOW/NOT SURE
 99. REFUSED

//ASK IF Q9=88//

Q9_VER

I just want to verify that you said you did not smoke any cigarettes in the past 30 days, is that correct?

1. YES, CORRECT AS IS
2. NO, NEED TO RE-ENTER RESPONSE
9. REFUSED

CIGBRAND

Rationale: To obtain information on the brand preference among cigarette consumers and to obtain price-related promotions information by brand.

/ Asked of respondents who now smoke every day or some days/

/ ASK IF SMOKNOW eq 1 or 2 /

10. During the past 30 days, that is, since [DATE FILL], what brand of cigarettes did you buy most often?

01. BASIC (BRANDED DISCOUNT)

02. CAMEL

03. DORAL (BRANDED DISCOUNT)

Other Tobacco Products

CIGARPAST

Rationale: To monitor use of non-cigarette combustible tobacco products.

/ASK ALL/

22. The next questions ask about tobacco products that you might smoke other than cigarettes, specifically cigars, cigarillos and little filtered cigars. "Cigarillos" are medium cigars that sometimes are sold with plastic or wooden tips. Some common brands are *Black and Mild's*, *Swisher Sweets*, *Dutch Masters* and *Phillies Blunts*. Cigarillos are usually sold individually or in packs of 5 or 8. In contrast, little filtered cigars look like cigarettes and are usually brown in color. Like cigarettes, little filtered cigars have a spongy filter and are sold in packs of 20. Some common brands are *Prime Time* and *Winchester* little filtered cigars.

Have you smoked cigars, cigarillos, or little filtered cigars at least 50 times in your entire life?

1. YES
2. NO

7. DON'T KNOW/NOT SURE
9. REFUSED

CIGARNOW

Rationale: To monitor use of non-cigarette combustible tobacco products.
