Thank you for calling me about participating in our focus groups. Let me give you a little background on what we'll do. A focus group is a small group discussion about a particular topic. In our groups, we want to hear your opinions about the smoke-free policy in your apartment complex. We're bringing together adults from several different complexes in the area to get a variety of opinions. We also want to have a mix of smokers, nonsmokers, parents, and households without children. You may be in a group that contains a mix of people, but we want you to know that everyone's opinions are important and equally valuable to us and that everyone will be heard.

On the day of the focus group, we'll first get your written consent to be part of this research project, and then you will fill out a brief questionnaire. Then we'll start the focus group discussion. We expect the consent and short questionnaire to take about 10 minutes and the focus group discussion to take about an hour. At the end of the focus group, we'll give you a \$30.00 Visa gift card and have you sign a receipt. The focus groups will be scheduled for the week of _____.
