Subject: Request to include the final version of SSB and Attachment 2- Field Study Summary for the Population Assessment of Tobacco and Health (PATH) Study OMB Number: 0925- 0664 Expiration Date: 11/30/2015

The Population Assessment of Tobacco and Health (PATH) program is requesting that the revised, final versions of the PATH study be placed in the official docket. These two documents were mistakenly left out of the final submission to OMB.

This will not affect the burden for the clearance.

Thank you for your consideration.
