

Attachment B - PILOT TEST Draft Ambulatory Surgery Survey on Patient Safety

8-30-2013

This survey asks for your opinions about patient safety in outpatient surgery/procedure/treatment facilities and takes at least 15 minutes to complete. If you work in multiple facilities, please answer only for the facility that gave you the survey.

Please review the following definitions and instructions:

- The term **doctors** refers to physicians (MDs or DOs) and other doctors, such as podiatrists and dentists, who perform surgeries, procedures, or treatments, including delivery of anesthesia.
- The term **staff** refers to all others (clinical and nonclinical) who work in your facility, whether they are employed directly by your facility or are contract/per diem/agency staff.
- **“Patient Safety”** is the prevention of harm resulting from the processes of health care delivery.
- A **mistake** is any type of error, incident, or event that contributed to patient harm or that could have caused patient harm but did not.
- If a question does not apply to you or your facility or you don’t know the answer, please check “Does Not Apply or Don’t Know.”

Public reporting burden for this collection of information is estimated to average 15 minutes per response, the estimated time required to complete the survey. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: AHRQ Reports Clearance Officer Attention: PRA, Paperwork Reduction Project (0935-XXXX) AHRQ, 540 Gaither Road, Room # 5036, Rockville, MD 20850.
