SECTION I, Part 2: Competitive Preference Priorities (If Applicable)

The 2012 UB and UBMS grant competitions established three competitive preference priorities concerning persistently lowest-achieving schools, data-based decision-making, and improvements in productivity. The Department will derive data for the first competitive preference, concerning projects' service to persistently lowest-achieving schools, from the "Target School—NCES Identification Number" field (#23) in Section II, which provides identifying information on the target school attended by each participant. Below, please indicate whether your project addressed the remaining two competitive preference priorities. For each priority addressed, please complete the text boxes with concise information about implementation.

Competitive Preference Priority #2: The Secretary encourages applicants to work with appropriate State agencies to use data from State longitudinal data systems or to obtain data from reliable third-party sources when providing information on the implementation of their UB/UBMS projects and their participants' outcomes.

1A. Not applicable

1B. Yes

If "Yes," indicate below which data systems your project utilized.

State longitudinal data systems	Third-party data systems

Competitive Preference Priority #3: The Secretary encourages applicants to design projects that serve the same or increased number of students at a lower cost per participant while improving or keeping steady student outcomes.

3A. Not applicable

3B. Yes

If "Yes", indicate below how your project achieved this productivity by increasing efficiency in the use of time, staff, money or other resources.

For new students, use the date the student first received service from the Upward Bound project that is submitting this report. Do not use date of <i>acceptance</i> into project unless that is the same as the date of <i>first service</i>. Students first served in the summer program should have a date of first project service no earlier than June 1. Use the original date of service at this project even if the student subsequently left and reentered. If the student transferred from another UB project, in this field give the date of first service at the project submitting the report.</p> <p>You do not need to provide the exact day; you may use 15 (midpoint of the month).</p>

The code for the student would therefore be 10.</p> <p>If the student transferred from another UB project, in this field give the grade level at first service in the project submitting the report.
