Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through July 31, 2013. Pursuant to Section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: In 2010, EPA, in concert with its federal partners, began implementation of the Great Lakes Restoration Initiative (GLRI) that was included in the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010 (Pub. L. 111-88) and subsequent appropriations. The GLRI invests funds in programs and projects strategically chosen to target the most significant environmental problems in the Great Lakes ecosystem.

The legislation called for increased accountability for the GLRI and directed EPA to implement a process to track, measure, and report on progress. As part of this process, federal and non-federal entities receiving GLRI funds are required to submit detailed information on GLRI projects as part of their funding agreement. Recipients are required to provide information on the nature of the activity, responsible organization, organizational point of contact, resource

levels, geographic location, major milestones and progress toward GLRI goals. The information is necessary to provide an accurate depiction of activities, progress, and results. Information is updated on a quarterly basis.

A web-based Great Lakes Accountability System (GLAS) is the primary mechanism for collecting information on GLRI activities. GLAS is available for registered users to enter data at <https://login.glnpo.net>. The Web site contains a data entry interface that funding recipients use to enter and submit project information directly into GLAS. The data entry interface consists of a series of screens containing pull-down menus and text boxes, where users can enter project specific information. The GLAS provides necessary information for reports to the President, Congress and the public.

Form Numbers: None.

Respondents/affected entities: Great Lakes Restoration Initiative Funding Recipients.

Respondent's obligation to respond: Required for recipients of GLRI funds.

Estimated number of respondents: 594 (total).

Frequency of response: Quarterly.

Total estimated burden: 20,663 hours (33 hours for state, local, and tribal governments to complete 4 quarterly responses per year, and 41.1 hours for non-government organizations to complete 4 quarterly responses per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,212,164.00. This includes an estimated annual burden cost of \$1,212,164.00 for labor and no capital investment or maintenance and operational costs.

Changes in Estimates: The burden and costs stated above are from the current approved ICR, 2379.01. EPA believes these estimates will remain substantially the same, but may adjust these estimates based on public comments received or other information gained by the Agency prior to submitting the ICR renewal package to OMB.

Dated: April 1, 2013.

Susan Hedman,

Great Lakes National Program Manager.
