SBIC Online Directory

Upon Licensing, your fund will be added to a directory of actively licensed SBICs maintained on the SBIC Program website. This directory is available for use by other fund managers and limited partners, but also by members of congress and the general public. As a recipient of federal government benefits, SBA is required to make available the "mandatory" data that you are asked to complete below. The "supplemental data" is optional. However, small business owners find this additional information extremely useful in screening themselves in or out as potential investees of your fund.

Please note: Only the information you provide here will be included in the online database. The information you have provided elsewhere in your application will be kept confidential to the extent allowed by law.
