SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collections. There is one ICR for each Collection.

The Coast Guard invites comments on whether these ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise these ICRs or decide not to seek approval for the Collections. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG-2013-0519], and must be received by September 16, 2013. We will post all comments received, without change, to <http://www.regulations.gov>. They will include any personal information you provide. We have an agreement with DOT to use their DMF. Please see the "Privacy Act" paragraph below.

1. Title: Direct User Fees for Inspection or Examination of U.S. and Foreign Commercial Vessels.

Need: The Omnibus Budget Reconciliation Act of 1990 [Pub. L. 101-508], which amended 46 U.S.C. 2110,

[[Page 42537]]

requires the Coast Guard to collect user fees from inspected vessels. To properly collect and manage these fees, the Coast Guard must have current information on identification. This collection helps to ensure

that we get that information and manage it efficiently.

Forms: N/A.

Respondents: Owners of vessels.

Frequency: Annually.

Burden Estimate: The estimated burden has decreased from 4,160 hours to 2,782 hours a year due to a reduction in the estimated annual number of response.

2. Title: Audit Reports under the International Safety Management Code.

OMB Control Number: 1625-0084.

Summary: This information helps to determine whether U.S. vessels, subject to SOLAS 74, engaged in international trade, are in compliance with that treaty. Organizations recognized by the Coast Guard conduct ongoing audits of vessels' and companies' safety management systems.

Need: Title 46 U.S.C. 3203 authorizes the Coast Guard to prescribe regulations regarding safety management systems. Title 33 CFR part 96 contains the rules for those systems and hence the safe operation of vessels.

Forms: N/A.

Respondents: Owners and operators of vessels, and organizations authorized to issue ISM Code certificates for the United States.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 18,610 hours to 17,660 hours a year due to a reduction in the estimated annual number of respondents.

3. Title: Facilities Transferring Oil or Hazardous Materials in Bulk--Letter of Intent and Operations Manual.

OMB Control Number: 1625-0093.

Summary: A Letter of Intent is a notice to the Coast Guard Captain of the Port that an operator intends to operate a facility that will transfer bulk oil or hazardous materials to or from vessels. An Operations Manual (OM) is also required for this type of facility. The OM establishes procedures to follow when conducting transfers and in the event of a spill.

Need: Under 33 U.S.C. 1321 and Executive Order 12777 the Coast Guard is authorized to prescribe regulations to prevent the discharge of oil and hazardous substances from facilities and to contain such discharges. The Letter of Intent regulation is contained in 33 CFR 154.110 and the OM regulations are contained in 33 CFR part 154 subpart B.

Forms: N/A.

Respondents: Operators of facilities that transfer oil or hazardous materials in bulk.
