#### Privacy Act of 1974; Updating the Student Application and Registration System of Records

**AGENCY:** Federal Emergency Management Agency (FEMA), Emergency Preparedness and Response (EP and R) Directorate, Department of Homeland Security (DHS).

**ACTION:** Notice of proposed revision to an existing Privacy Act system of records.

**SUMMARY:** Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), FEMA proposes to upgrade the system of records currently entitled "Student Application and Registration Records, FEMA/NETC/-017," by amending the method of collecting the information from hard copy only to hard copy and electronic. FEMA is also modifying this system of records to reflect its transfer to DHS. Subsections 552a(e)(4) and (11) of Title 5, United States Code, provide that the public be given a 30-day period in which to comment on routine uses. The Office of Management and Budget (OMB), which has oversight responsibility under the Act, requires a 40-day period in which to review the proposed systems.

**DATES:** The proposed system of records will be effective November 15, 2004, unless comments are received that result in a contrary determination. The public, OMB and Congress are invited to comment on the proposed system of records.

**ADDRESSES:** We invite your comments on this system of records. Please address them to the Rules Docket Clerk, Office of the General Counsel, Federal Emergency Management Agency, room 840, 500 C Street, SW., Washington, DC 20472, (telefax) (202) 646-4536, or (email) [FEMA-RULES@dhs.gov](mailto:FEMA-RULES@dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Rena Y. Kim, Privacy Act Officer, room 840, 500 C Street, SW., Washington, DC 20472; (telephone) (202) 646-3949.

**SUPPLEMENTARY INFORMATION:** Prior to March 1, 2003, FEMA was an independent agency within the Federal government. While operating as an independent agency, FEMA established this Privacy Act system of records. See 55 FR 37182, Sept. 7, 1990; 52 FR 324, Jan. 5, 1987; 49 FR 45257, Nov. 15, 1984; 48 FR 12132, Mar. 23, 1982; 47 FR 53483, Nov. 26, 1982; 46 FR 49726, Oct.

7, 1981; 45 FR 67830, Oct. 14, 1980; and 45 FR 51431, Aug. 1, 1980. As of March 1, 2003, FEMA became a component of EP and R, which is a Directorate of DHS. The previous notice is, therefore, being updated in part to reflect the transfer of FEMA's functions to the EP and R Directorate within DHS and in part to reflect a conversion in the type of records being maintained in this system.

This system of records contains information provided by individuals applying for courses offered by the National Fire Academy (NFA) and the Emergency Management Institute (EMI) on-campus and off-campus, by State and local training agencies, through selected colleges and universities, and through independent self-study. Information collected includes citizenship (city and country of birth for non-U.S. citizens), social security number or an alternate number that has been assigned in lieu of the social security number, name, mailing address, work phone number, alternate phone number, fax number, e-mail address, course code and title, course location, dates requested, course pre-requisite as described in the course catalog, special assistance request, name and address of the organization being represented, fire department identification number, current position and years in that position, category of the position, jurisdiction type, type of work for the organization, organization type, employment status, number of staff in the organization, size of population served by the organization, brief description of the activities or responsibilities as they relate to the course for which they are applying, primary responsibility and type of experience, number of years of experience, date of birth, sex, ethnicity and race. Information such as age, sex, and ancestral heritage are used for statistical purposes only and are provided on a voluntary basis. The social security number is necessary because of the large number of individuals who may have identical names and birth dates and whose identities can only be distinguished by their social security number. Disclosure of an individual's social security number is voluntary. However, if an applicant does not provide a social security number, a unique identification number will be substituted, which will affect the ability to retrieve complete training information on an applicant. The information is contained in the National Emergency Training Center (NETC) Admissions System. It will consist of computerized files and paper records retrieved by name or social security number.

Dated: September 29, 2004.

**David A. Trissell,**

*General Counsel, Emergency Preparedness and Response, Department of Homeland Security.*

Accordingly, we add DHS/EP and R/FEMA/NETC/017, of the FEMA Privacy Act systems of records to read as follows:

**SYSTEM NAME:**

Student Application and Registration Records.

**SECURITY CLASSIFICATION:**

Unclassified.

**SYSTEM LOCATION:**

NETC, 16825 South Seton Avenue, Emmitsburg, Maryland 21727-8998.

**CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:**

The system covers those individuals who apply for or take courses offered by FEMA's NFA or EMI. Courses are offered on-campus and off-campus, by State and local training agencies, through selected colleges and universities, and through independent self-study. Information can be obtained by individuals completing a general admissions application or by applying for a course electronically. Information may also be provided by a State or local training agency when the course has been taken through that agency.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Files include application forms and other information submitted either in hard copy or electronically by the applicant. Information collected includes, but is not limited to, U.S. citizenship (city and country of birth is also included for non-U.S. citizens), social security number or an alternate number that has been assigned in lieu of the social security number, name, mailing address, work phone number, alternate phone number, fax number, email address, course code and title, course location, dates requested, course pre-requisite as described in the course catalog, an indication if they require special assistance, name and address of the organization being represented, fire department identification number, current position and years in that position, category of the position, jurisdiction type, type of work for the organization, organization type, employment status, number of staff in the organization, size of population served by the organization, brief description of the activities or

responsibilities as they relate to the course for which they are applying, primary responsibility and type of experience, number of years of experience, date of birth, sex, ethnicity and race. Information such as age, sex, and ancestral heritage are used for statistical purposes only. Personal information is provided on a voluntary basis. Failure to provide certain information being requested, however, may result in a delay in processing an application because the information provided may be insufficient to determine eligibility for the course. The social security number is necessary because of the large number of individuals who may have identical names and birth dates and whose identities can only be distinguished by their social security number. The social security number is used for record-keeping purposes, *i.e.*, to ensure that academic records are maintained accurately. Disclosure of an individual's social security number is voluntary. However, if an applicant does not provide a social security number, a unique identification number will be substituted, which will affect the ability to retrieve complete training information on an applicant.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

Pub. L. 93-498, Federal Fire Prevention and Control Act of 1974, as amended; Pub. L. 93-288, Robert T. Stafford Disaster Relief and Emergency Assistance Act; Pub. **PURPOSE(S):**

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

Copies of paper applications as well as information maintained electronically are stored in a work area that is locked when it is not staffed. The doors to the work area are kept closed and signs stating that access is limited to authorized personnel are posted on the doors. There is limited access given to persons who have a need to have access to the information to perform their official duties. Computerized records are stored in a database server in a secured file server room. Electronic records are stored on a file server in another building and backed up nightly. The backup tapes are stored in a separate area from the file server for seven days. After that they are placed in

a safe in another building and retained for one year.

**RETRIEVABILITY:**

Records can be retrieved by an individual's last name or social security number.

**SAFEGUARDS:**

The admissions contractor controls access to hardcopy records by keeping them in file cabinets when not being used and in a work area that is locked when it is not occupied by authorized personnel. The System Administrator controls access to the electronic files by use of passwords and the Admissions Specialist assigns rights to modules of the system based on work responsibility. The files are stored in a secure server room at FEMA's Emmitsburg facility. Records are maintained in accordance with Federal computer security standards.

**RETENTION AND DISPOSAL:**

Hard copy records are maintained for one year and nine months, at which time they are retired to the Federal Records Center. Records are retained for a total of 40 years. Computerized records are stored in a database server in a secured file server room. The same retention schedule that applies to paper records will be followed. This is consistent with the records retention schedule that has been developed for this system.
