

Supporting Statement for Paperwork Reduction Act Submissions

Rent Schedule – Low Rent Housing OMB Control Number 2502-0012 (form HUD-92458)

A. Justification

- 1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

Certain Federal statutes and regulations require the Department to review rents and/or changes for all projects either insured or held by HUD, except for specified unsubsidized projects. These regulations also require the Department's approval of all principals in HUD insured and financed projects. The form HUD-92458, Rent Schedule Low Rent Housing, serves both of these purposes by documenting rents and changes that the Department approves, and by requiring owners to provide a current listing of their project's principals. The information is being collected in accordance with Section 207 of the National Housing Act. Regulations are found at 24 CFR 245.305, 310, 315, 320, 325, 330 and 24 CFR 246.21, 22,30, and Chapter 7 of HUD Handbook 4350.1 REV-1, which are attached.

- 2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

Project owners request an adjustment to authorized project rent on form HUD-92458 to address (1) Rent Increases, (2) Utility Allowance Changes; and (3) Upon expiration of the Section 8 contract. If the requested new rents are less than or equal to the Maximum Allowable Monthly rent Potential (as previously approved by the Department on the most recent Rent Computation Worksheet), owners need only submit a completed form HUD-92458. If the proposed new rents exceed the Maximum Allowable Monthly Rent Potential, owners complete columns one and two of form HUD-92458 and explain their proposed rents in accompanying documentation.

There has been a decrease in the number of respondents reporting project data in HUD's iREMS system.

- 3. Describe whether, and to what extent the collections of information involves the use of automated, electronic, mechanical, or other the technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also, describe any consideration of using information technology to reduce burden.**

HUD and the Office of Housing are undergoing a transformation of the Information of Technology (IT) infrastructure. Until the IT transformation has materialized, it is difficult to establish a viable and sustainable electronic intake process.

The Department continues to consider alternative electronic means of reducing public burden, however, the necessity of submitting supporting documentation renders such alternatives impractical at present. For example, for a utility allowance increase request the owner/agent must submit copies of utility bills, etc. in support of a utility allowance increase.

- 4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**
-

The information requested on these documents is not duplicated within the Department's records.

5. If the collection of information impacts small businesses or other small entities (Item 5 of OMB form 83-I) describe any methods used to minimize burden.

This information collection does not involve small businesses.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

The Department collects this information only when project owners are either establishing initial rents or applying for rent increases. If this information is collected less frequently, the Department would have no way of clearly documenting and monitoring the owner's rent charges. Less frequent collection would also increase the potential for owners to charge unauthorized rents or to engage in unauthorized transfers of physical assets.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:

- **requiring respondents to report information to the agency more than quarterly;**
There is no requirement for respondents to report the information more than quarterly.
- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**
There is no requirement for respondents to prepare a written response to a collection in fewer than 30 days.
- **requiring respondents to submit more than an original and two copies of any document;**
There is no requirement for respondents to submit more than an original and two copies of any document.
- **requiring respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
There is no requirement for respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records for more than three years.
- **in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;**
This collection is not made in connection with a statistical survey.
- **requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**
There is no use of a statistical data classifications with this collection.
- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
There is no pledge of confidentiality that is not supported by authority established in statute or regulation.
- **requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

There is no requirement for respondents to submit proprietary trade secrets, or other confidential information.

- 8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.**
- **Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping disclosure, or reporting format (if any) and the data elements to be recorded, disclosed, or reported.**
 - **Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every three years – even if the collection of information activity is the same as in prior periods. There may be circumstances that preclude consultation in a specific situation. These circumstances should be explained.**

This information is collected in a manner consistent with guidelines of 5 CFR 1320.8(d). The Notice announcing the collection of information appeared in the *Federal Register* on February 18, 2014, Volume 79 No. 32 Page 9257. No comments were received.

In addition, several persons who regularly use or review the forms were contacted to inquire if the forms were easily understood, and explicit in their requirements. Three respondents, National Housing Compliance, Columbus Metropolitan Housing Authority, and New York State Housing Trust Fund Corporation, found the form to be sufficient and clear enough to readily provide needed information to the Department.

- 9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.**

There will be no gifts or payments given to respondents.

- 10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation or agency policy.**

Assurance of confidentiality is provided to respondents under the Privacy Act of 1974.

- 11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

The Management Documents do not contain questions of a sensitive nature.

- 12. Provide estimates of the hour burden of the collection of information. The statement should:**
- **indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated burden hours, and explain the reasons for the variance. Generally estimates should not include burden hours for customary and usual business practices;**

- if this request covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of form OMB 83-I; and
- provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.

Estimates of the Hour burden of the Collection of Information

Information Collection	Number of Respondents	Frequency of Response	Total Annual Responses	Burden Hours per Response	Annual Burden Hours	Hourly Cost	Total Annual Cost
HUD-92458	3,88 1	1	3,8 81	0.33	1281	\$ 19.28	\$ 24,698
Total	3,88 1		3,8 81		1281		\$ 24,698

Hourly costs are based on an estimate of the owner or owner’s staff (Property Manager) to review the instructions and complete the form. The hourly cost has been adjusted based on information gathered from payscale.com.

13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information (do not include the cost of any hour burden shown in items 12 and 14).
- The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s) and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities;
 - If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10) utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.
 - Generally, estimates should not include purchases of equipment or services, or portions thereof made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.

There are no additional costs associated with the collection of this information.

14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

Estimates of Annualized Cost to the Federal Government

Information	Number	Frequency	Total	Burden	Annual	Hourly*	Total
-------------	--------	-----------	-------	--------	--------	---------	-------

Collection	of Respondents	of Response	Annual Responses	Hours per Response	Burden Hours	Cost	Annual Cost
HUD-92458	3,881	1	3,881	0.33	1,281	\$ 27.00	\$ 34,587
Total	3,881		3,881	0.33	1,281		\$ 34,587

*Estimated cost per hour for HUD staff (GS-12) to review and process the documents for this collection

15. Explain the reasons of any program changes or adjustments reported in Items 13 and 14 of the OMB form 83-I.

This is an extension of a currently approved collection. There are no program changes; however, there has been a decrease in the number of respondents reporting project data in HUD's iREMS system. As owners renew Section 8 contracts, the requirement to apply for rent adjustments is generally removed and replaced with operating cost adjustment factors (OCAF), which are automatically applied each year for projects with renewed Section 8 Housing Assistance Program contracts. Consequently, the use of this form is no longer required for this group of property owners.

16. For collection of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

The results of this collection will not be published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

The information collection instrument will display the expiration date for OMB approval of the information collection.

18. Explain each exception to the certification statement identified in item 19.

There are no exceptions to the Certification Statement identified in item 19 of the form OMB 83-I. The certification provisions identified in items a. through j. have been satisfied within this supporting statement.

B. Collections of Information Employing Statistical Methods

There are no statistical methods used in this collection.
